Rethinking Schools  
"The essays in this book think through and with Deleuzian concepts in the educational field. The resultant encounters between concepts such as multiplicity, becoming, habit and affect and Multiple Literacies Theory exemplify philosophically inspired and productive thinking."—Paul Patton, Professor of Philosophy, University of New South Wales

### **RETHINKING MULTICULTURAL EDUCATION**

Teachers College Press  
Please note: This is a companion version & not the original book. Sample Book Insights: #1 When we are confronted with evidence of inequality that challenges our identities, we often respond with resistance. We want to deflect this unsettling information and protect a worldview that is more familiar and comfortable. #2 The courses you take to prepare you for social justice work should be challenging. They should contain difficult theoretical concepts and highly charged political content, all of which is absent in mainstream culture. #3 The example above is not an opinion, but a fact. It is more likely that the student would be seen as having some academic challenges, as somewhat immature, and perhaps even

disrespectful. #4 The challenge of intellectual humility is that many students see social science content as soft science and therefore value-laden and subjective. They see the study of social inequality as a form of subjective scholarship, and therefore dismiss it out of hand. [Is Everyone Really Equal?](#) Routledge  
"When Barbara Jordan talked, we listened."  
—Former President of the United States, Bill Clinton  
Congresswoman Barbara Jordan had a big, bold, confident voice—and she knew how to use it! Learn all about her amazing career in this illuminating and inspiring picture book biography of the lawyer, educator, politician, and civil rights leader. Even as a child growing up in the Fifth Ward of Houston, Texas, Barbara Jordan stood out for her big, bold, booming, crisp, clear, confident voice. It was a voice that made people sit up, stand up, and take notice. So what do you do with a voice like that? Barbara took her voice to places few

African American women had been in the 1960s: first law school, then the Texas state senate, then up to the United States congress. Throughout her career, she persevered through adversity to give voice to the voiceless and to fight for civil rights, equality, and justice. New York Times bestselling author Chris Barton and Caldecott Honoree Ekua Holmes deliver a remarkable picture book biography about a woman whose struggles and mission continue to inspire today.

ReadHowYouWant.com Mindfulness has gone mainstream, and author Deborah Schoeberlein pioneers its practical application in education. By showing teachers how to tune into what's happening, inside and around them, she offers fresh, straightforward approaches to training attention and generating caring both in and outside of the classroom. *Mindful Teaching and Teaching Mindfulness* emphasizes how the teacher's personal familiarity with mindfulness plants the seed for an education infused with attention, awareness, kindness, empathy, compassion, and gratitude. The book

follows a teacher from morning to night on a typical school day, at home, during the commute, and before, during, and after class. This book is perfect for teachers of all kinds: schoolteachers, religious educators, coaches, parents-anyone who teaches anything.

'A sober but devastating skewering of cancel culture and the moral certainties it shares with religious fundamentalism' Sunday Times Engaging, incisive and acute, *The New Puritans* is a deeply necessary exploration of our current cultural climate and an urgent appeal to return to a truly liberal society. The puritans of the seventeenth century sought to refashion society in accordance with their own beliefs, but they were deep thinkers who were aware of their own fallibility. Today, in the grasp of the new puritans, we see a very different story. Leading a cultural revolution driven by identity politics and so-called 'social justice', the new puritanism movement is best understood as a religion - one that makes grand claims to moral purity and

tolerates no dissent. Its disciples even have their own language, rituals and a determination to root out sinners through what has become known as 'cancel culture'. In *The New Puritans*, Andrew Doyle powerfully examines the underlying belief-systems of this ideology, and how it has risen so rapidly to dominate all major political, cultural and corporate institutions. He reasons that, to move forward, we need to understand where these new puritans came from and what they hope to achieve. Written in the spirit of optimism and understanding, Doyle offers an eloquent and powerful case for the reinstatement of liberal values and explains why it's important we act now. Diversity and Education Is Everyone Really Equal? Illegal. Undocumented. Remedial. DREAMers. All of these labels have been applied to immigrant youth. Using a combination of engaging narrative and rigorous analysis, this book explores how immigrant youth are included in, and excluded from, various sectors of American society, including education. Instead of the land of opportunity, immigrant youth often encounter myriad new borders long after their physical journey to the United States is over. With an intimate storytelling style, the author invites readers to rethink assumptions about immigrant youth and what their often liminal positions reveal about the politics of inclusion in America. Book Features: Engaging case studies that capture the lived experiences of immigrant youth, from

secondary school and beyond. A cohesive analysis of how immigration law, education, and health intertwine to shape possible life pathways. Descriptions of educational practices that both support and disempower newcomer immigrant students. Recommendations for interrupting day-to-day practices that privilege some and disadvantage others. Lisa (Leigh) Patel is an associate professor of education at Boston College. She has been a journalist, a teacher, and a state-level policymaker. "Over coffee, tears, and laughter, I spent a delightful morning stunned at the beauty of Leigh Patel's writing and swept up in the pages of *Youth Held at the Border*, a piercing analysis of how laws move under the skin and penetrate the soul and a tragicomic musical of young people improvising lives at the dangerous intersection of U.S. immigration, criminalization, education, and welfare policies." —From the Foreword by Michelle Fine, Graduate Center, CUNY "Poignant and insightful. . . . After reading this book it will no longer be possible to use

code words like ‘undocumented’ and ‘illegal’ to keep these young people silenced and confined to the shadowy world of fugitives.” —Pedro Noguera, Peter L. Agnew Professor of Education, Steinhardt School of Culture, Education and Development, Executive Director, Metropolitan Center for Urban Education, New York University “Lisa Patel is both ethnographer and poet in telling stories of anguish and desperation, but in the end, stories of hope and survival. All teachers, and anyone who cares about the future of our nation, must read this book.” —Sonia Nieto, Professor Emerita, School of Education, University of Massachusetts “Patel brings into compelling focus and with love young people who are all around us yet not wholly seen. This is an essential read for all educators and for youth, many who will recognize themselves and their peers in her narrative.” —Susan E. John Wiley & Sons  
This practical handbook will introduce readers to social justice education,

providing tools for developing “critical social justice literacy” and for taking action towards a more just society. Accessible to students from high school through graduate school, this book offers a collection of detailed and engaging explanations of key concepts in social justice education, including critical thinking, socialization, group identity, prejudice, discrimination, oppression, power, privilege, and White supremacy. Based on extensive experience in a range of settings in the United States and Canada, the authors address the most common stumbling blocks to understanding social justice. They provide recognizable examples, scenarios, and vignettes illustrating these concepts. This unique resource has many user-friendly features, including “definition boxes” for key terms, “stop boxes” to remind readers of previously explained ideas, “perspective check boxes” to draw attention to alternative standpoints, a glossary, and a chapter responding to the most common rebuttals encountered when

leading discussions on concepts in critical social justice. There are discussion questions and extension activities at the end of each chapter, and an appendix designed to lend pedagogical support to those newer to teaching social justice education. “Sensoy and DiAngelo’s book sings with insight, clarity, and humanity. This is a brilliant primer to help us consider what it means to think critically and to act for justice.” —Bill Bigelow, Curriculum editor, Rethinking Schools magazine “I commend the direction of this book that addresses concepts such as social and institutional power, socialization, and oppression rather than framing social and political inequality as the consequences of behavioral problems and cultural misunderstandings. The approach the authors have taken supports teachers and their students in rethinking the ways in which the problems of inequality have been normalized as everyday practices. The book will help teachers to rethink inequality in systemic terms and to find opportunities for taking action at any moment.” —Carol Schick,

Associate Professor, Faculty of Education, University of Regina “The most accessible book on social justice I have ever read! The authors speak truth to power and in language we can all understand. I can't wait to use this text. The authors demonstrate that important concepts about social justice and political change can be both understandable and engaging. This is a huge contribution to the field.” —Mara Sapon-Shevin, Professor, School of Education, Syracuse University “This timely book offers a reader-friendly, unflinching approach to answering those questions on social justice that people are often afraid to ask. The authors provide clear definitions, recognizable examples, robust counterpoints, and thought-provoking activities. All critical educators need to get this text in the hands of their students.” —Darren E. Lund, Professor, Faculty of Education, University of Calgary Özlem Sensoy is an assistant professor of education at Simon Fraser University, Burnaby BC, Canada. Robin DiAngelo is an assistant professor of education at Westfield State University,

Westfield, Massachusetts. White Fatigue Zondervan Academic “Shakil is a rare jewel in the work of what it means to heal, repair, and take responsibility... This book is required reading for anyone interested in building a loving, just and diverse world.” —Sensei Koshin Paley Ellison, Zen teacher & author of *Wholehearted: Slow Down, Help Out, Wake Up* Racial justice without shame or blame. Road-tested tools to start making a difference today. In *Deep Diversity*, award-winning racial justice educator Shakil Choudhury explores the emotionally loaded topic of racism using a compassionate, scientific approach that everyone can understand—whether you are Black, Indigenous, a person of color (BIPOC), or white. With clear language and engaging stories that will appeal to readers of Brené Brown and Malcom Gladwell, Choudhury explains how and why well-intentioned people can perpetuate systems of oppression, often unconsciously. Using a trauma-informed approach that removes shame or blame, he offers us the tools to recognize, take authentic responsibility, and enact

deep change. In easy-to-absorb chapters, Choudhury interweaves research into the brain and studies on human behavior with hard-won lessons from his career of helping organizations and CEOs create more inclusive environments. He models vulnerability and mistake-making, sharing examples of his own bias-missteps so readers are encouraged into their own racial justice journey without judgment. Readers will come away from the book with practical tools and an understanding of: How to become a systems thinker by developing “racial pattern recognition” skills in order to challenge racism and other forms of systemic discrimination when we encounter them, while minimizing the tendency to shame or blame ourselves or others. How to recognize when the unconscious influence of bias, identity, emotions, or power contradict our beliefs about equality, and how to realign our thoughts/words/actions. How to break the racial “prejudice habits” we have all been socialized into since birth, using research-based strategies. How the rise in authoritarianism and

income inequality (among other factors) contribute to a rise in hate crimes and racial discrimination, and what to do about it. Traditional approaches to anti-racism overly rely on analyzing history to explain systemic discrimination, which only tells us a part of the story. What's missing, Choudhury argues, is to understand why humans do what we do, the evolutionary impulses underlying our group-ish nature and our struggles with power, bias, and social dominance. This is why psychology and neuroscience perspectives are critical to integrate into anti-racist work, as is practicing compassion for ourselves and for others. Deep Diversity is a unique, evidence-based approach to racial justice that seeks to overcome feelings of shame that so often block our progress and prevent deep change at individual and systemic levels. Deep Diversity meets you where you're at, regardless of your identity, class, ability, or belief system, and invites you to come along on a journey of self-discovery, social awareness, and lifelong learning. It's only just begun. "Choudhury draws on heart-touching

stories, research on the brain, and hard-won lessons from real-world interventions to offer useful strategies to know ourselves, and others better."—New York Times bestselling author of *Buddha's Brain*, Rick Hanson

#### Rethinking Schools

This collection brings into dialogue authors from a range of disciplines and perspectives to address the thorny question of how to balance the demands of «democratic dialogue» with the reality of a world in which each voice does not carry equal weight. Should rules be in place, for example, that correct for such imbalances by privileging some voices or muting others? Should separate spaces be created for traditionally disadvantaged groups to speak only among themselves? Is democratic dialogue in an inclusive sense even a possibility in a world divided by multiple dimensions of power and privilege? Leading theorists from several countries share a concern for social justice and present radically different interpretations of what democracy means for educational practice. In a

format unusual for such collections, the essays speak directly to each other about significant moral, philosophical, and practical differences regarding how to effectively engage students as critical participants in classrooms fraught with power and difference. The authors draw from philosophy, critical race theory, sociology, feminist, and poststructural studies to address topics including hate speech, freedom of expression, speech codes, the meanings of silence, conceptions of voice and agency, and «political correctness». They explore honestly and self-critically the troubling and disturbing dimensions of speech and silence that situate the classroom as a volatile microcosm of contemporary political contradictions.

Learn how to define proficiency accurately and differentiate to help all students achieve it. With a focus on mixed-ability classes, the author outlines instructional practices that engage, empower, and motivate students. Using stories, strategies, case histories, and sample documents,

he explains how to implement equitable instruction, assessment, grading, and reporting practices for diverse 21st century learners.

### **DECULTURALIZATION AND THE STRUGGLE FOR EQUALITY**

Teachers College Press  
NEW YORK TIMES  
BESTSELLER Building on the groundwork laid in the New York Times bestseller *White Fragility*, Robin DiAngelo explores how a culture of niceness inadvertently promotes racism. In *White Fragility*, Robin DiAngelo explained how racism is a system into which all white people are socialized and challenged the belief that racism is a simple matter of good people versus bad. DiAngelo also made a provocative claim: white progressives cause the most daily harm to people of color. In *Nice Racism*, her follow-up work, she explains how they do so. Drawing on her background as a sociologist and over 25 years working as an anti-racist educator, she picks up where *White Fragility* left off and moves the conversation forward. Writing directly to white people as a white person, DiAngelo identifies many

common white racial patterns and breaks down how well-intentioned white people unknowingly perpetuate racial harm. These patterns include: - rushing to prove that we are “not racist”; - downplaying white advantage; -romanticizing Black, Indigenous and other peoples of color (BIPOC); -pretending white segregation “just happens”; -expecting BIPOC people to teach us about racism; - carefulness; -and feeling immobilized by shame. DiAngelo explains how spiritual white progressives seeking community by co-opting Indigenous and other groups’ rituals create separation, not connection. She challenges the ideology of individualism and explains why it is OK to generalize about white people, and she demonstrates how white people who experience other oppressions still benefit from systemic racism. Writing candidly about her own missteps and struggles, she models a path forward, encouraging white readers to continually face their complicity and embrace courage, lifelong commitment, and accountability. Nice

Racism is an essential work for any white person who recognizes the existence of systemic racism and white supremacy and wants to take steps to align their values with their actual practice. BIPOC readers may also find the “insiders” perspective useful for navigating whiteness. Includes a study guide.

**Summary of Özlem Sensoy, Robin DiAngelo & James A. Banks's Is Everyone Really Equal?** Univ. of Manitoba Press

“It can start with a knock on the door one morning. It is the local Indian agent, or the parish priest, or, perhaps, a Mounted Police officer.” So began the school experience of many Indigenous children in Canada for more than a hundred years, and so begins the history of residential schools prepared by the Truth & Reconciliation Commission of Canada (TRC). Between 2008 and 2015, the TRC provided opportunities for individuals, families, and communities to share their experiences of residential schools and released several reports based on 7000 survivor statements and five million documents from

government, churches, and schools, as well as a solid grounding in secondary sources. A Knock on the Door, published in collaboration with the National Research Centre for Truth & Reconciliation, gathers material from the several reports the TRC has produced to present the essential history and legacy of residential schools in a concise and accessible package that includes new materials to help inform and contextualize the journey to reconciliation that Canadians are now embarked upon. Survivor and former National Chief of the Assembly First Nations, Phil Fontaine, provides a Foreword, and an Afterword introduces the holdings and opportunities of the National Centre for Truth & Reconciliation, home to the archive of recordings, and documents collected by the TRC. As Aimée Craft writes in the Afterword, knowing the historical backdrop of residential schooling and its legacy is essential to the work of reconciliation. In the past, agents of the Canadian state knocked on the doors of Indigenous families to take the children to school. Now, the Survivors

have shared their truths and knocked back. It is time for Canadians to open the door to mutual understanding, respect, and reconciliation.

NEW YORK TIMES BESTSELLER • ECPA BESTSELLER • “When it comes to the intersection of race, privilege, justice, and the church, Tasha is without question my best teacher. Be the Bridge is THE tool I wish to put in every set of hands.”—Jen Hatmaker WINNER OF THE CHRISTIAN BOOK AWARD® • Winner of the Christianity Today Book Award • A leading advocate for racial reconciliation calls Christians to move toward deeper understanding in the midst of a divisive culture. In an era where we seem to be increasingly divided along racial lines, many are hesitant to step into the gap, fearful of saying or doing the wrong thing. At times the silence, particularly within the church, seems deafening. But change begins with an honest conversation among a group of Christians willing to give a voice to unspoken hurts, hidden fears, and mounting tensions. These

ongoing dialogues have formed the foundation of a global movement called Be the Bridge—a nonprofit organization whose goal is to equip the church to have a distinctive and transformative response to racism and racial division. In this perspective-shifting book, founder Latasha Morrison shows how you can participate in this incredible work and replicate it in your own community. With conviction and grace, she examines the historical complexities of racism. She expertly applies biblical principles, such as lamentation, confession, and forgiveness, to lay the framework for restoration. Along with prayers, discussion questions, and other resources to enhance group engagement, Be the Bridge presents a compelling vision of what it means for every follower of Jesus to become a bridge builder—committed to pursuing justice and racial unity in light of the gospel.

Accessible to students from high school through graduate school, this comprehensive resource includes many new features such as discussion of contemporary activism. The text includes many user-friendly features, examples, and vignettes to not just define but illustrate key concepts. *Becoming the Anti-Racist Church* Routledge  
What does it mean to be white in a society that proclaims race meaningless yet is deeply divided by race? In the face of pervasive racial inequality and segregation, most whites cannot answer that question. Robin DiAngelo argues that a number of factors make this question difficult for whites: miseducation about what racism is; ideologies such as individualism and colorblindness; defensiveness; and a need to protect (rather than expand) our worldviews. These factors contribute to what she terms white racial illiteracy. Speaking as a white person to other white people, Dr. DiAngelo clearly and compellingly takes readers through an analysis of white socialization. She

describes how race shapes the lives of white people, explains what makes racism so hard for whites to see, identifies common white racial patterns, and speaks back to popular white narratives that work to deny racism. Written as an accessible introduction to white identity from an anti-racist framework, *What Does It Mean To Be White?* is an invaluable resource for members of diversity and anti-racism programs and study groups and students of sociology, psychology, education, and other disciplines.

In this book, award-winning educator Kieran Egan shows how we can transform the experience of K-12 students and help them become more knowledgeable and more creative in their thinking. At the core of this transformative process is imagination which can become the heart of effective learning if it is tied to education's central tasks. *An Imaginative Approach to Teaching* is a groundbreaking book that offers an understanding of how students' imaginations work in learning and shows how the acquisition of

cognitive tools drives students' educational development. This approach is unique in that it engages both the imagination and emotions. The author clearly demonstrates how knowledge comes to life in students' minds if it is introduced in the context

of human hopes, fears, and passions. To facilitate this new educational approach, the book includes a wide variety of effective teaching tools - such as story, rhythm, play, opposition, agency, and meta-narrative understanding - that value and build upon the way

children understand their experiences. Most important, Egan provides frameworks for lesson planning and more than a dozen sample lessons to show how teachers can use these tools to awaken intelligence and imagination in the classroom.
