Hit the lights and jump in the fire, you're about to enter the School of Rock! Today's lecture will be a crash course in brain surgery. This hard and fast lesson is taught by instructors who graduated from the old school—they actually paid \$5.98 for The \$5.98 EP. But back before these philosophy professors cut their hair, they were lieutenants in the Metal Militia. A provocative study of the 'thinking man's' metal band Maps out the connections between Aristotle, Nietzsche, Marx, Kierkegaard, and Metallica, to demonstrate the band's philosophical significance Uses themes in Metallica's work to illuminate topics such as freedom, truth, identity, existentialism, questions of life and death, metaphysics, epistemology, the mind-body problem, morality, justice, and what we owe one another Draws on Metallica's lyrical content, Lars Ulrich's relationship with Napster, as well as the documentary Some Kind of Monster Serves as a guide for thinking through the work of one of the greatest rock bands of all time Compiled by the editor of Seinfeld and Philosophy: A Book about Everything and Nothing and The Simpsons and Philosophy: The D'oh! of Homer

'James Hetfield is a guitarist of otherworldly ability... this book tries to understand, de-mystify and even humanise a rock legend who, for most of his career, has remained impenetrable.' Metallica's ascension from thrash metal obscurity to becoming arguably one of the greatest rock bands the world has ever known, can be directly attributed to its lead singer and guitarist, James Hetfield. Having sold 110 million records worldwide and with an impressive eight Grammy Awards to their name, Metallica undoubtedly a commercial triumph, but what of the man behind the music? Of Metal and Man is the newly revised biography of this rock legend, offering an exclusive insight into the life and career of one of Metallica's founding members. Author Mark Eglinton charts the hidden complexities of the relationships within the band, exploring the effects that global fame has had on Hetfield and his cohorts. Eglinton sheds light on both the highs of worldwide success and the lows of addiction and alcohol abuse, giving details of exclusive

A portrait of Metallica's late bassist traces his San Francisco upbringing, influence on the group's development and song-writing practices, and tragic death in the wake of a tour bus accident. Original.

Metallica Hal Leonard Corporation

The 100 Greatest Metal Guitarists is a controversial and much-needed guide to the world of metal guitar, featuring the most accomplished performers from the vast legions of metal. As well as celebrating the classic metal musicians who have defined the scene since the 1970s, author Joel McIver delves deep into the modern thrash metal, death metal, black metal, doom metal, power metal and battle metal movements to unearth those players for whom no tremolo divebomb is too high and no tuning is too low. This book is no mere list for geeks, though. McIver's objective in writing this book is to recognise the incredible skills that these players possess. Moreover, although they're all masters of sweep picking, fretboard tapping and the other tricks of the modern shredder, these players are far from simple speed freaks: The 100 Greatest... makes a point of featuring players whose feel and instinct for the values of metal outweigh mere technical mastery. If you've ever wielded a tennis racket in anger in front of a bedroom mirror, or even if you're a metal musician yourself, you need this book: the world of the overdriven guitar will never look the same again.

The audio is available online for download or streaming, and it is enhanced so you can adjust the recording to any tempo without changing pitch! 8 songs: The Day That Never Comes * Enter Sandman * Frantic * Fuel * King Nothing * Moth into Flame * Nothing Else Matters * The Unforgiven.

The ABCs of Metallica Harper Collins

There has never been a hard rock band like Metallica. The California quartet has sold more than 100 million albums worldwide, won nine Grammy Awards, and had five consecutive albums hit number one on the Billboard charts. But Metallica's story, epic in scope, is a tale about much more than sales figures and critical acclaim, and their journey from scuzzy Los Angeles garages to the world's most storied stadiums has been dramatic and painful, their gigantic successes often shot through with tension, tragedy, loss, and controversy. Birth School Metallica Death is the definitive story of the most significant rock band since Led Zeppelin. Volume 1 covers the band's formation up to their breakthrough eponymous fifth album, aka "The Black Album." The intense and sometimes fraught relationship between aloof-yet-simmering singer, chief lyricist, and rhythm guitarist James Hetfield and the outspoken and ambitious drummer Lars Ulrich is the saga's emotional core. Their earliest years saw the release of three unimpeachable classics—Kill 'Em All, Ride the Lightning, and Master of Puppets—genre-defining masterpieces that took hard rock to a new level, both artistically and commercially. During these tumultuous times, the band persevered through line-up changes when guitarist Dave Mustaine was replaced by Kirk Hammet, and their bass player, the beloved Cliff Burton, was tragically killed in a bus crash while on tour in Europe. But it was the breakthrough of ...And Justice for All that rent the fabric of the mainstream, hitting the top of the charts without benefit of radio airplay or the then-crucial presence on MTV. And finally in 1991, with the release of their fifth studio album, nicknamed "The Black Album," Metallica hit the next level—five hit singles including their best-known songs "Enter Sandman" and "Nothing Else Matters"—and their first album atop the Billboard charts. In Birth School Metallica Death, veteran music journalists and Metallica confidants Paul Brannigan and Ian Winwood detail this meteoric rise to international fame in an epic saga of family, community, self-belief, the pursuit of dreams, and music that rocks. Told through first-hand interviews with the band and those closest to them, the story of Metallica's rise to the mainstream has never been so vividly documented.
