A very different sort of cello method, A Modern Cellist's Manual combines technical information and plenty of photographs with advice on approach. Topics addressed range

from the basics of a painless bow grip to injury avoidance, working with a metronome, and tenor clef. Emily's tone and sense of humor lighten the mood of any practice session. A Modern Cellist's Manual is suitable for those taking private lessons as well as returning cellists looking to bolster rusty technique.

This progressive scale system coordinates basic concepts from elementary to advanced scales in preparation for the Scale System by Carl Flesch. In some aspects it goes beyond the scope of the Flesch system. One-octave scales are introduced in patterns

with emphasis on half steps and finger retention. the two-octave scale patterns are non-shifting. Three-octave scales are offered with traditional and modern fingerings. the double stop scales vary in fingerings in order to teach the basic concepts of double-stops. Harmonics are included beyond the scope of the Flesch system, in a basic form including natural harmonics.

CELLO PLAYING FOR MUSIC LOVERS

What does it mean to perform expressively on the cello? In *Cello Practice, Cello Performance*, professor Miranda Wilson teaches that effectiveness on the concert stage or in an audition reflects the intensity, efficiency, and organization of your practice. Far from being a mysterious gift randomly bestowed on a lucky few, successful cello performance is, in fact, a learnable skill that any player can master. Most other instructional works

for cellists address techniques for each hand individually, as if their movements were independent. In *Cello Practice, Cello Performance*, Wilson demonstrates that the movements of the hands are vitally interdependent, supporting and empowering one another in any technical action. Original exercises in the fundamentals of cello playing include cross-lateral exercises, mindful breathing, and one of the most detailed discussions of intonation in the cello

literature. Wilson translates this practice-room success to the concert hall through chapters on performance-focused practice, performance anxiety, and common interpretive challenges of cello playing. This book is a resource for all advanced cellists—college-bound high school students, undergraduate and graduate students, educators, and professional performers—and teaches them how to be their own best teachers.

FIRST POSITION SCALE STUDIES FOR THE CELLO, BOOK ONE

Alfred Music
Compiled by Alwin Schroeder, a former cellist with the Boston Symphony Orchestra and an experienced teacher, this collection of 80 exercises constitutes the first book of a three-volume set. Schroeder drew upon his extensive experience to create original études for instructing students, and in this work he combines them with several others

by his distinguished nineteenth-century European colleagues: Karl Schröder. Ferdinand Böhler, Friedrich Dotzauer, Auguste Franck, Friedrich Grützmacher, and Sebastian Lee. The carefully selected studies are arranged in order of increasing complexity, and Schroeder provides suggestions for fingering, bowing, and dynamics. Cello students and teachers will find these exercises a splendid resource for the improvement of technique

and performance.

TEACHING OF INSTRUMENTAL MUSIC

Jan H^o_o_o_o_mal^o_ (1844-1915) was an influential Czech violinist and teacher, associated with Moscow Conservatory for 46 years. These are his progressive scale studies in 10 sections.

Scale System — Viola (O2921) Courier Dover Publications

Position Pieces for Cello is designed to give students a logical and fun way to learn their way around the fingerboard. Each hand position is introduced with exercises called "Target Practice," "Geography Quiz," and "Names and Numbers." Following these exercises are tuneful cello duets which have been specifically composed to require students to play in that

hand position. In this way, students gain a thorough knowledge of how to find the hand positions and, once there, which notes are possible to play. Using these pieces (with names like "I Was a Teenage Monster," "The Irish Tenor," and "I've Got the Blues, Baby"), position study on the cello has never been so much fun! *The Carl Flesch Violin Scale System* Hassell Street Press (Instructional). This classic book offers studies of scales and arpeggios in all of their various bowed,

fingered and rhythmic combinations, with excellent exercises progressing in difficulty and encompassing four octaves. A great resource for teachers of students at all levels!

Alfred Music Publishing
New large print edition!
(Regular edition is also available on Amazon.)
Probably the only scale book you will ever need!
Contains all 24 major and melodic minor scales AND arpeggios. Each scale and arpeggio has complete fingerings for one, two,

and three octaves. It is very hard to find books that have one, two, and three octaves scales shown separately! Also includes some suggested bowing patterns, which are shown at the bottom of the page. Many books are in circle of fifths order, which is less practical. When students are working on F major, an easy scale, you must hunt for it way in the back. This book is organized in the order that most students will learn scales. The order (major scales) is C, G, F, D, Bb, etc. Each

page has all of the scales and arpeggios for that key. This can start conversations about future playing: here's where you will be someday! By having the arpeggios on the same page as the scales, you can easily see the structure of chords as they relate to scales. It is helpful to show 1, 2, and 3 octave scales separately, but hard to find. Students can get confused if they are learning a one octave scale while seeing a two octave scale on the page. It is often hard for them to

stop in the middle and pick it back up near the end. This book is meant to be easy to read and follow. The scales are not obscured with bowings or theory notations. The goal is simplicity, clarity, and completeness.

FOR VIOLONCELLO

G. Schirmer, Incorporated Louis R. Feuillard (1872–1941) has become known chiefly as the teacher of Paul Tortelier who called him a man with an extraordinary educational instinct. His 'Daily Exercises' take up

the most important aspects of the cello technique, such as exercises in neck and thumb positions, double stops and bowing exercises. It is particularly because of the logical structure of the exercises that they have been among the standard works of violoncello study literature since their publication in 1919.
