Harris  
Cornelius  
Harris is back with an even more striking follow-up to The War Within with Triple-Edge Sword, going deeper into Nigel and chronicling the struggles of accepting

his identity, forcing him to imagine an even bigger world outside of rural Arkansas. Nigel will wrestle with reinventing himself, testing his loyalty and the boundaries of his moral reasoning and purpose beyond the fractured notions his environment sets for him. He dares to dream, but they become nightmares after Nigel realizes the dangerous and terrifying truth to the

horrors he is capable of. Nigel must contend with his personalities, himself and his alters Julian and Dominique. Each begin to vie to be the dominate personality in this thrilling tale of survival and the consequences of a life of deceit, manipulation, addiction, betrayal, abuse, violence, and the abhorrent nature of evil, poverty, mental illness, and misery.

The updated version of McIver's bestselling biography explores the aftermath of Metallica's comeback in the wake of 2008's Death Magnetic. The band entering the Rock And Hall Of Fame, toured as the leading member of the Big Four Of Thrash alongside Slayer, Megadeth and Anthrax Establishing their own Orion festival Embarking on side projects aplenty (Lars Ulrich as an

actor, Kirk Hammett as a horror buff) and recorded what is possibly the most despised record in heavy metal history, a collaboration with Lou Reed titled Lulu. Here McIver reveals a refreshing new spin on the Lulu album, re-evaluating its contents in the light of Reed's death in 2013.

Omnibus Press Michael Mann is one of the most important American filmmakers of the past forty years. His films exhibit the existential concerns of art cinema, articulated through a conspicuous and recognizable visual style and yet integrated within classical Hollywood narrative and genre frameworks. Since his beginnings as a screenwriter in the 1970s,

Mann has become a key figure within contemporary American popular culture as writer, director, and producer for film and television. This volume offers a detailed study of Mann's feature films, from *The Jericho Mile* (1979) to *Public Enemies* (2009), with consideration also being given to parallels in the production, style, and characterization in his television

work. It explores Mann's relationship with classical genres, his thematic concentration on issues of morality and masculinity, his film adaptations from literature, and the development and significance of his trademark visual style within modern American cinema. *Divertimento No. 11, K. 251* Editia Heavy Tales is the detailed never before told story as lived by Jonny

Zazula on how he founded Megaforce Records out of a flea market in New Jersey with his wife Marsha and built a dynasty unmatched by many others forever changing the scope of Heavy Metal. The bands they worked with would go on to release some of the most prolific and important albums in Heavy Metal History giving it its Golden Era. As a renegade youth who went from living on the city street to

later work on Wall Street and then moving unexpectedly towards the music business, when in the winter of 1982 he received an unexpected demo tape of the underground, unsigned band Metallica while working in a flea market. Eager and determined to have the music heard by the entire world Jonny and Marsha founded Megaforce Records in 1983 and released Metallica's

debut album, Kill 'Em All. Through this release Megaforce had cemented its position as the de-facto music label in America for Heavy Metal but that's just the start. Heavy Tales details the stories of how Jonny worked miracles by managing and releasing albums by Metallica, Anthrax, Testament, Overkill, Ace Frehley, King's X, Ministry and others. With a foreward written by Chuck Billy

and over 100 photographs unearthed from the MegaVault and photographer friends, Heavy Tales is definitively an American story of a family man with a dream to prove to the world that Heavy Metal belonged on the stage, on the radio and in your living room. H.C.M. Jonny Zazula is the co-founder of Megaforce Records and CraZed Management. A lifelong music disciple and avid

Nightmare Before Christmas toy collector he now spends retirement with his wife, Marsha, and the dogs in Orlando, Florida. Oxford University Press Film scholar Mark Browning offers the first detailed analysis of the work of David Fincher, director of the critically acclaimed films *Seven*, *Fight Club*, and *The Curious Case of Benjamin Button*. \* Includes a

 Student and teacher.  
 Owner and pet. Frank Boxer and Duncan Cannon are both teachers: Boxer, an English teacher of seniors at Pines Environmental High School, and Duncan, Frank's sixteen-year-old dachshund, whose life and fast-approaching departure from this world teach Frank far more than he ever

expected. This is the poignant and yet intriguing story of a dog, a teacher, and an oppressive education system that keeps them both fighting for love, for life—and for each other, emotionally, spiritually, and in every other way in which dogs and humans connect. Duncan and Frank’s journey, both through the natural parks that beckon them, and through the re-creation of the most important

nation on earth, the Imagine Nation, will pull you in and tug at your heartstrings, long after you have turned the final page. Call this an “educational love story,” if love means never having to say, “Sit down!” or “Play dead!” So, first, take your own dog for a long walk, and then settle in with Running to Duncan’s Field to experience the warmth, love, and strength of the bond between a man and his

beloved dog. The Leadership Lens Columbia University Press (Guitar Educational). Inside Rock Guitar traces the lives and licks of the 30 greatest electric rock guitar pioneers of all time. The Inside Story of Some Kind of Monster Springer Science & Business Media Theorists of the soundtrack have helped us understand how the voice and music in the cinema impact a spectator's experience. James Buhler and Hannah Lewis edit in-depth essays from many of

film music's most influential scholars in order to explore fascinating issues around vococentrism, the voice in cinema, and music's role in the integrated soundtrack. The collection is divided into four sections. The first explores historical approaches to technology in the silent film, French cinema during the transition era, the films of the so-called New Hollywood, and the post-production

sound business. The second investigates the practice of the singing voice in diverse repertoires such as Bergman's films, Eighties teen films, and girls' voices in Brave and Frozen. The third considers the auteuristic voice of the soundtrack in works by Kurosawa, Weir, and others. A last section on narrative and vococentrism moves from The Martian and horror film to the

importance of background music and the state of the soundtrack at the end of vococentrism. Metallica is one of the most successful hard-rock bands of all time, having sold more than ninety million albums worldwide. Receiving unique, unfettered access, acclaimed filmmakers Joe Berlinger and Bruce Sinofsky followed Metallica over two and a half years as they faced monumental

personal and professional challenges that threatened to destroy the bands just as they returned to the studio to record their first album in four years. While the documentary itself provides an insider's view of Metallica, the two and a half years of production (and more than 1,600 hours of footage) garnered far more than can be expressed in a two-hour film. Berlinger's book about

the experience reveals the stories behind the film, capturing the energy, uncertainty, and ultimate triumph of both the filming and Metallica's bid for survival. It weaves the on-screen stories together with what happened off-screen, offering intimate details of the band's struggle amidst personnel changes, addiction, and controversy. In part

because Berlinger was one of the only witnesses to the intensive group-therapy sessions and numerous band meetings, his account of his experience filming the band is the most honest and deeply probing book about Metallica - or any rock band - ever written. This is the book both Metallica and film fans have dreamed of - a stark and honest look at one of rock's most important

bands through the eyes of the most provocative documentary filmmakers working today.

Metallica: The \$24.95 Book features an in-depth look at Metallica's cultural significance with chapters devoted to each member, each album, touring, fashion, books, film, influences, fandom, and more, exploring the band's

ideologies along the way. With over 125 million records sold worldwide, Metallica is the biggest metal band of all time. Four decades into their unparalleled career, Metallica is a massive cultural force who drastically changed the sound of popular music by creating their own rules. Yet for	all their popularity, Metallica can seem impenetrable, raising more questions and inspiring more discourse as their mythos grows. Metallica questions run deeper than what people find on the internet. Metallica questions deserve a book. Metallica, by dedicated fan and music journalist Ben	Apatoff (including a foreword by What Are You Doing Here? author Laina Dawes), is that book, honoring Metallica's history of fighting retail price gouging in the title. Metallica provides an in-depth look at the band and their music that both die-hard fans and Metallica beginners can enjoy.
