Quem disse que não podemos, a todo instante, nos superar? Ok, você deve estar pensando que até é possível, mas não é nada fácil... Concordo que nem sempre conseguimos, como em um passe de mágica, vencer nossos momentos mais difíceis. Mas, como ouvi noutro dia, a única coisa impossível é Deus errar. Partindo dessa simples, mas sábia máxima, quero compartilhar

com você algumas experiências de mulheres que, como nós, conseguiram vencer - e continuam, todos os dias, buscando mais pontos para aumentar o placar das vitórias da vida. A reportagem "Mulheres especiais" traz depoimentos emocionantes de quatro mulheres que driblaram, com infinita força de vontade, dores, medos, angústias, o desconhecido e, não raro, o inaceitável. Depois de ler as histórias dessas vencedoras, tenho certeza de que você vai chegar à conclusão de que todos os nossos dilemas acabam ficando praticamente insignificantes e bem mais fáceis de serem resolvidos.

In one week, Manhattan will be gone. In one month, the country. In two months . . . the world. At New York's JFK Airport an arriving Boeing 777 taxiing along a runway suddenly stops dead. All the shades have been drawn, all communication channels have mysteriously gone quiet. Dr. Eph Goodweather, head of a CDC rapid-response team investigating biological threats, boards the darkened plane . . . and what he finds makes his blood run cold. A terrifying contagion has come to the unsuspecting city, an unstoppable plague that will spread like an all-consuming wildfire—lethal, merciless, hungry . . . vampiric. And in a pawnshop in Spanish Harlem an aged Holocaust survivor knows

that the war he has been dreading his entire life is finally here . . .

Dentro de un par de años, el comercio digital moverá más de tres billones de euros anuales. Ante esta perspectiva, que se suma al aumento de compras desde el móvil. Las tiendas falsas son una de las amenazas más habituales. "Las páginas web comerciales falsas pueden hacer uso de diseños y formatos sofisticados, así como de logotipos y nombres de dominio robados. Aunque algunas de estas pueden identificarse sobre todo por una opción solicitada de método de pago o por anomalías en la URL, no suele ser algo evidente para los consumidores".

Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. *Twelve Years a Slave* is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave

on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

Book Description: *Management: The New Competitive Landscape*,

by Bateman and Snell, has consistently discussed and explained the traditional, functional approach to management-through planning, organizing, leading, and controlling. But the 6th edition goes a step further, in defining and highlighting with icons, four "bottom line" practices that managers and companies must deliver to their customers: Innovation, Speed, Quality, and Cost. Bateman and Snell's: *Management: The New Competitive Landscape*, 6th edition has always been about a series of "firsts": first to have a chapter on diversity, first to devote a section to the environment, and first to relate a "bricks and clicks" theme to explain the challenges of managing in a New Economy. This new edition is no exception with the expansion of such timely topics as ethics and technology. *Management: The New Competitive Reality*, 6th edition shows how managers must utilize the classic principles of management in combination with the practices of the "New Economy" to achieve managerial goals. By reinforcing these new business practices in context with the functional approaches, the authors deliver a unique theme amongst all principles of management texts-how to manage in ways that deliver results.

Before the Internet became widely known as a global tool for terrorists, one perceptive U.S. citizen recognized its ominous potential. Armed with clear evidence of computer espionage, he began a highly personal quest to expose a hidden network of spies that threatened national security. But would the authorities back him up? Cliff Stoll's dramatic firsthand account is "a computer-age detective story, instantly fascinating [and] astonishingly gripping" (Smithsonian). Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75-cent accounting error alerted him to the presence of an unauthorized user on his system. The hacker's code name was "Hunter"—a mysterious invader who managed to break into U.S. computer systems and steal sensitive military and security information. Stoll began a one-man hunt of his own: spying on the spy. It was a dangerous game of deception, broken codes, satellites, and missile bases—a one-man sting operation that finally gained the attention of the CIA . . . and ultimately trapped an international spy ring fueled by cash, cocaine, and the KGB.
