Companion Encyclopedia Of The History And Philosophy Of The Mathematical Sciences

OMB No. 7659138385417 edited by

KNOX DANIKA

Companion Encyclopedia of Science in the Twentieth Century Taylor & Francis

This Very Short Introduction explores the history of Western medicine, examining the key turning points, discoveries, and controversies in its rich history from classical times to the present.

THE ENVIRONMENT AND HUMANKIND

Routledge

A compilation of facts, figures, maps, family trees, summaries of the major crusades and their historiography, the Routledge Companion to the Crusades spans a broad chronological range from the eleventh to the eighteenth century, and gives a chronological framework and context for modern research on the crusading movement. Not just a history of the Crusades, but an overview of the logistical, economic, social and biographical history, this is a core text for students of history and religious studies.

The Reader's Companion to American History Oxford University Press

With over forty chapters, written by leading scholars, this comprehensive volume represents the best work in America, Europe, and Asia. Geographical diversity of the authors is reflected in the different perspectives devoted to the subject, and all major disciplinary developments are covered. There are also sections concerning the countries that have made the most significant contributions, the relationship between science and industry, the importance of instrumentation, and the cultural influence of scientific modes of thought. Students and professionals will come to appreciate how, and why, science has developed - as with any other human activity, it is subject to the dynamics of society and politics.

Companion Encyclopedia of the History and Philosophy of the Mathematical Sciences Oxford University Press

Presents alphabetical articles on major events, documents, persons, social movements, and political and social concepts connected with the Golden Age and the Progressive Era.

COMPANION ENCYCLOPEDIA OF MIDDLE EASTERN AND NORTH AFRICAN FILM

Routledge

An encyclopedia of American women's history, this comprehensive reference book features in-depth articles on trends (e.g. birthrates, suburban growth), social movements (civil rights, feminism), ideas and concepts (domesticity, consciousness-raising), institutions (Children's Bureau, women in Congress), organizations (Girl Scouts of America, League of Women Voters), events (American Revolution), issues (abortion, Equal Rights Amendment), key legal cases (Roe v Wade, Muller v Oregon), laws and constitutional amendments, documents and publications (Ramona, Declaration of Sentiments), ethnic and social groups (African American women, Latinas), overviews (women's health, women in music and literature), and biographies of notable American women. This Companion is a perfect supplement to The Young Oxford History of Women in the United States. Oxford's Student Companions to American History are state-of-the-art references for school and home, specifically designed and written for ages 12 through adult. Each book is a concise but comprehensive A-to-Z guide to a major historical period or theme in U.S. history, with articles on key issues and prominent individuals. The authors--distinguished scholars well-known in their areas of expertise--ensure that the entries are accurate, up-to-date, and accessible. Special features include an introductory section on how to use the book, further reading lists, cross-references, chronology, and full index.

ENCYCLOPEDIA OF HISTORIANS AND HISTORICAL WRITING

Routledge

A Companion to American Environmental History gatherstogether a comprehensive collection of over 30 essays that examinethe evolving and diverse field of American environmental history. Provides a complete historiography of American environmentalhistory Brings the field up-to-date to

reflect the latest trends andencourages new directions for the field Includes the work of path-breaking environmental historians,from the founders of the field, to contributions frominnovative young scholars Takes stock of the discipline through five topically themedparts, with essays ranging from American Indian EnvironmentalRelations to Cities and Suburbs

The Routledge Companion to Global Indigenous History Routledge

The Companion Encyclopedia of Asian Philosophy is a unique one-volume reference work which makes a broad range of richly varied philosophical, ethical and theological traditions accessible to a wide audience. The Companion is divided into six sections covering the main traditions within Asian thought: Persian; Indian; Buddhist; Chinese; Japanese; and Islamic philosophy. Each section contains a collection of chapters which provide comprehensive coverage of the origins of the tradition, its approaches to, for example, logic and languages, and to questions of morals and society. The chapters also contain useful histories of the lives of the key influential thinkers, as well as a thorough analysis of the current trends.

The History of Medicine: A Very Short Introduction Tor Books

"A Companion to the Classical Greek World" provides scholarly yet accessible new interpretations of Greek history of the Classical period, from the aftermath of the Persian Wars in 478 BCE to the death of Alexander the Great in 323 BCE. It ranges over a wide array of topics, including the environment, economy, society, government, warfare, and religion. It also includes a concise narrative overview of the period, and a thorough treatment of the sources, both written and material. The volume guides readers towards a broad understanding of the history of the Classical period. It is vital reading for any student of Greek history.

Companion Encyclopedia of Archaeology Routledge

This comprehensive volume provides easily-accessible factual material on all major areas of warfare in the medieval west. The whole geographical area of medieval Europe, including eastern Europe, is covered, including essential elements from outside Europe such as Byzantine warfare, nomadic horde invasions and the Crusades. Progressing chronologically, the work is presented in themed, illustrated sections, with a narrative outline offering a brief introduction to the area. Within each chronological section, Jim Bradbury presents clear and informative pieces on battles, sieges, and generals. The author examines practical topics including: castle architecture, with examinations of specific castles ship building techniques improvements in armour specific weapons developments in areas such as arms and armour, fortifications, tactics and supply. Readable and engaging, this detailed provides students with an excellent collection of archaeological information and clear discussions of controversial issues.

American Women's History Routledge

A Companion to Chinese History presents a collection of essays offering a comprehensive overview of the latest intellectual developments in the study of China's history from the ancient past up until the present day. Covers the major trends in the study of Chinese history from antiquity to the present day Considers the latest scholarship of historians working in China and around the world Explores a variety of long-range questions and themes which serves to bridge the conventional divide between China's traditional and modern eras Addresses China's connections with other nations and regions and enables non-specialists to make comparisons with their own fields Features discussion of traditional topics and chronological approaches as well as newer themes such as Chinese history in relation to sexuality, national identity, and the environment

Encyclopedia of Chinese History Oxford University Press

The Routledge Companion to Global Indigenous History presents exciting new innovations in the dynamic field of Indigenous global history while also outlining ethical, political, and practical research. Indigenous histories are not merely concerned with the past but have resonances for the politics of the present and future, ranging across vast geographical distances and deep time periods. The volume starts with an introduction that explores definitions of Indigenous peoples, followed by six thematic sections which each have a global spread: European uses of history and the positioning of Indigenous people as history's outsiders; their migrations and mobilities; colonial encounters; removals and diasporas; memory, identities, and narratives; deep histories and pathways towards future Indigenous histories that challenge the nature of the history discipline itself. This book illustrates the important role of Indigenous history and Indigenous knowledges for contemporary

concerns, including climate change, spirituality and religious movements, gender negotiations, modernity and mobility, and the meaning of 'nation' and the 'global'. Reflecting the state of the art in Indigenous global history, the contributors suggest exciting new directions in the field, examine its many research challenges and show its resonances for a global politics of the present and future. This book is invaluable reading for students in both undergraduate and postgraduate Indigenous history courses.

Companion Encyclopedia of Theology Routledge

Children's literature continues to be one of the most rapidly expanding and exciting of interdisciplinary academic studies, of interest to anyone concerned with literature, education, internationalism, childhood or culture in general. The second edition of Peter Hunt's bestselling *International Companion Encyclopedia of Children's Literature* offers comprehensive coverage of the subject across the world, with substantial, accessible, articles by specialists and world-ranking experts. Almost everything is here, from advanced theory to the latest practice - from bibliographical research to working with books and children with special needs. This edition has been expanded and includes over fifty new articles. All of the other articles have been updated, substantially revised or rewritten, or have revised bibliographies. New topics include Postcolonialism, Comparative Studies, Ancient Texts, Contemporary Children's Rhymes and Folklore, Contemporary Comics, War, Horror, Series Fiction, Film, Creative Writing, and 'Crossover' literature. The international section has been expanded to reflect world events, and now includes separate articles on countries such as the Baltic states, the Czech and Slovak Republics, Iran, Korea, Mexico and Central America, Slovenia, and Taiwan.

A Companion to Chinese History HMH

California is the nation's great vineyard, supplying grapes for most of the wine produced in the United States. The state is home to more than 700 wineries, and California's premier wines are recognized throughout the world. But until now there has been no comprehensive guide to California wine and winemaking. Charles L. Sullivan's *A Companion to California Wine* admirably fills that gap—here is the reference work for consumers, wine writers, producers, and scholars. Sullivan's encyclopedic handbook traces the Golden State's wine industry from its mission period and Gold Rush origins down to last year's planting and vintage statistics. All aspects of wine are included, and wine production from vine propagation to bottling is described in straightforward language. There are entries for some 750 wineries, both historical and contemporary; for more than 100 wine grape varieties, from Aleatico to Zinfandel; and for wine types from claret to vermouth—all given in a historical context. In the book's foreword the doyen of wine writers, Hugh Johnson, tells of his own forty-year appreciation of California wine and its history. "Charles Sullivan's *Companion*," he adds, "will provide the grist for debate, speculation, and reminiscence from now on. With admirable dispassion he sets before us just what has happened in the plot so far."

Medicine and Colonialism Routledge

During the twentieth century, medicine has been radically transformed and powerfully transformative. In 1900, western medicine was important to philanthropy and public health, but it was marginal to the state, the industrial economy and the welfare of most individuals. It is now central to these aspects of life. Our prospects seem increasingly dependent on the progress of biomedical sciences and genetic technologies which promise to reshape future generations. The editors of *Medicine in the Twentieth Century* have commissioned over forty authoritative essays, written by historical specialists but intended for general audiences. Some concentrate on the political economy of medicine and health as it changed from period to period and varied between countries, others focus on understandings of the body, and a third set of essays explores transformations in some of the theatres of medicine and the changing experiences of different categories of practitioners and patients.

COMPANION ENCYCLOPEDIA OF THE HISTORY OF MEDICINE: CLINICAL MEDICINE

Routledge

The Routledge *Companion to Accounting History* shows how the seemingly innocuous practice of accounting has pervaded human existence in fascinating ways at numerous times and places; from ancient civilisations to the modern day, and from the personal to the political. Placing the history of accounting in context with other fields of study, the collection gives invaluable insights to subjects such as the rise of capitalism, the control of labour, gender and family relationships, racial exploitation, the functioning of the state, and the pursuit of military conflict. An engaging and comprehensive overview also examining geographical differences, this *Companion* is split into key sections, which explore: changing technologies used to represent financial and other data historical development of accounting theory and practice accounting institutions and those who perform accounting accountancy and the economy accounting, society, and culture the role of accounting in the government, protection and financing of states including chapters on the important role played by accountancy in religious organizations, a review of how the discipline is portrayed in fine art and

popular culture, and analysis of sharp practice and corporate scandals. The Routledge *Companion to Accounting History* has a breadth of coverage that is unmatched in this growing area of study. Bringing together leading writers in the field, this is an essential reference work for any student of accounting, business and management, and history.

A COMPANION TO CALIFORNIA WINE

Cengage Learning Emea

Retail history is a rich, cross-disciplinary field that demonstrates the centrality of retailing to many aspects of human experience, from the provisioning of everyday goods to the shaping of urban environments; from earning a living to the construction of identity. Over the last few decades, interest in the history of retail has increased greatly, spanning centuries, extending to all areas of the globe, and drawing on a range of disciplinary perspectives. By offering an up-to-date, comprehensive thematic, spatial and chronological coverage of the history of retailing, this *Companion* goes beyond traditional narratives that are too simplistic and Euro-centric and offers a vibrant survey of this field. It is divided into four broad sections: 1) Contexts, 2) Spaces and places, 3) People, processes and practices and 4) Geographical variations. Chapters are written in an analytical and synthetic manner, accessible to the general reader as well as challenging for specialists, and with an international perspective. This volume is an important resource to a wide range of readers, including marketing and management specialists, historians, geographers, economists, sociologists and urban planners.

A COMPANION TO CALIFORNIA HISTORY

Companion Encyclopedia of the History of Medicine Vol. 2 *Companion Encyclopedia of the History of Medicine*

An A-to-Z historical encyclopedia of US people, places, and events, with nearly 1,000 entries "all equally well written, crisp, and entertaining" (*Library Journal*). From the origins of its native peoples to its complex identity in modern times, this unique alphabetical reference covers the political, economic, cultural, and social history of America. A fact-filled treasure trove for history buffs, *The Reader's Companion* is sponsored by the Society of American Historians, an organization dedicated to promoting literary excellence in the writing of biography and history. Under the editorship of the eminent historians John A. Garraty and Eric Foner, a large and distinguished group of scholars, biographers, and journalists—nearly four hundred contemporary authorities—illuminate the critical events, issues, and individuals that have shaped our past. Readers will find everything from a chronological account of immigration; individual entries on the Bull Moose Party and the Know-Nothings as well as an article on third parties in American politics; pieces on specific religious groups, leaders, and movements and a larger-scale overview of religion in America. Interweaving traditional political and economic topics with the spectrum of America's social and cultural legacies—everything from marriage to medicine, crime to baseball, fashion to literature—the *Companion* is certain to engage the curiosity, interests, and passions of every reader, and also provides an excellent research tool for students and teachers.

The Routledge Companion to Accounting History John Wiley & Sons

China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty. The number of westerners travelling to China to study, for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture, society and economy and increasing coverage of contemporary China in the media. Our understanding of China's history has also been evolving. The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians. Now that the Chinese archives are open to researchers, there is a growing body of academic expertise on history in China that is open to western analysis and historical methods. This has in many ways changed the way that Chinese history, particularly the modern period, is viewed. The *Encyclopedia of Chinese History* covers the entire span of Chinese history from the period known primarily through archaeology to the present day. Treating Chinese history in the broadest sense, the *Encyclopedia* includes coverage of the frontier regions of Manchuria, Mongolia, Xinjiang and Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan, and on the Chinese diaspora. In A-Z format with entries written by experts in the field of Chinese Studies, the *Encyclopedia* will be an invaluable resource for students of Chinese history, politics and culture.

Science in the Twentieth Century Taylor & Francis

This text provides an account of the development of medical science in its various branches, and includes discussions of the medical profession and its institutions, and the impact of medicine upon populations, economic development, culture, religions, and thought.

Humanity, Culture and Social Life Oxford University Press

First published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.
