Specimens of Early English: From Robert of Gloucester to Gower, A.D. 1298 John Wiley & Sons

This volume is addressed to researchers in the field of phraseology, and to teachers, translators and lexicographers. It is a collection of essays offering a comprehensive, modern analysis of phrasemes, embracing a wide range of subjects and themes, from linguistic, both applied and theoretical, to cultural aspects. The contrastive approach underlying this variety of themes allows the divergences and analogies between phraseological units in two or more languages to be outlined. The languages compared here are both major and minor, European and non-European, and the text includes contrastive analyses of the most commonly investigated languages

(French-German, English-Spanish, Russian-German), as well as some less frequently investigated languages (like Ukrainian, Romanian, Georgian and Thai), which are not as well-represented in phraseological description, despite their scientific interest.

SPECIMENS OF EARLY ENGLISH: FROM ROBERT OF GLOUCESTER TO GOWER. A.D. 1298-A.D. 1393. 4TH ED

John Benjamins Publishing
Communicating art and cultural heritage has become a crucial and challenging task, since these sectors, together with tourism heritage, represent a key economic resource worldwide. In order to activate this economic and social potential, art and cultural heritage need to be disseminated through effective communicative strategies. Adopting a wide variety of digital humanities approaches and a plurilingual perspective,

the essays gathered in this book provide an extensive and up-to-date overview of digital linguistic resources and research methods that will contribute to the design and implementation of such strategies. Cultural and artistic content curators, specialised translators in the fields of art, architecture, tourism and web documentaries, researchers in art history and tourism communication, and cultural heritage management professionals, among others, will find this book extremely useful due to its provision of some concrete applications of innovative methods and tools for the study and dissemination of art and heritage knowledge.

As an easy-to-use application that provides information at a glance, a gadget allows users to quickly and easily obtain weather information, RSS news feeds, and much more. In Windows Vista, there are two types of gadgets: Sidebar and SideShow gadgets and Microsoft MVP author Wei-Meng Lee covers both. You'll begin by walking through the development of a simple gadget, and then each successive chapter breaks down the specific APIs that are relevant to enhancing a gadget so that you can clearly learn how a gadget is built.

SYNTAX

This book presents the thoroughly refereed post-proceedings of a workshop by the Cross-Language Evaluation Forum Campaign, CLEF 2002, held in Rome, Italy in September 2002. The 43 revised full papers presented together with an introduction and run data in an appendix were carefully reviewed and revised upon presentation at the workshop. The papers are organized in topical sections on systems evaluation experiments, cross language and more, monolingual experiments, mainly domain-specific information retrieval, interactive issues, cross-language spoken document retrieval, and cross-language evaluation issues and initiatives.
