Senkatana is a tragic play adapted from Sotho folk narrative. The play is regarded as a classic of Sesotho literature. Seen as one of the greatest essayists and dramatists writing in Southern Sotho,

Senkatana was Mofokeng's first book, published in 1952 in the African (then Bantu) Treasury Series, an imprint of Witwatersrand University Press.

Amal'ezulu (Zulu Horizons), first published in 1945 in the Bantu (later, African) Treasury Series by the University of the Witwatersrand Press, was the second volume of poetry produced by the renowned Zulu author B.W. Vilakazi. It was written during the ten years he spent living in Johannesburg, in 'exile' from his birthplace, KwaZulu-Natal. The poems in this collection represent a turning point in Vilakazi's life; they express yearnings for the beloved land, animals and ancestral spirits of his rural home, as well as expressions of deep disillusionment with the urban life he encountered in the 'City of Gold', and in particular the suffering of the black miners who brought this gold to the surface but never experienced the benefits of the wealth it produced for the mine owners. Vilakazi was deeply conscious of the subhuman system that held these miners in its grip, and gave voice to their suffering in many of the poems in the collection, in particular the now famous poem 'On the mine

compounds.' Renowned as the father of Nguni literature, Vilakazi was both a traditional imbongi (bard) and a forward-looking poet who could fuse Western poetic forms with Zulu izibongo (praise poetry). In these poems he assumes the role of the voice of the voiceless, and gives poignant expression to the stoic endurance of those caught up in the brutalities of capitalist exploitation of African labour, and the appalling injustices of the migrant labour system.

The hazy, murky world of counter espionage leaves no room for errors of judgement and Flynn knows he's finished if he makes one false move.

“For those who still get their ‘-stans’ mixed up, Hiro’s book provides a detailed and nuanced overview of the region.”

—Financial Times (Best Books of the Year)

The nations of Uzbekistan, Turkmenistan, Kazakhstan, Kyrgyzstan, Tajikistan, Turkey, and Iran—the majority of them former Soviet republics—remain little understood in the West even in the post-Cold War era. This book delves into these Central Asian countries: their histories, cultures, economics, politics, militaries, and relationships with regional neighbors, Russia in particular. Ultimately, *Inside Central Asia* is an outstanding, in-depth introduction to this part of the world, “full of dependable history-telling and analysis” (The Economist). Praise for the work of

 In the mode of her bestseller *A Natural History of the Senses*, Diane Ackerman celebrates the sensory pleasures of her garden through the seasons. Whether she is deadheading flowers or glorying in the profusion of roses, offering sugar water to a hummingbird or studying the slug, she welcomes the unexpected drama and extravagance as well as the sanctuary her garden offers. Written in sensuous, lyrical prose, *Cultivating Delight* is a hymn to nature and to the pleasure we take in it.

CULTIVATING DELIGHT

St. Martin's Griffin

For years, the evangelical church and its members have debated whether the Bible should be interpreted literally or symbolically in regards to the age of the earth. In their groundbreaking new book, *In the Beginning . . . We Misunderstood*,

authors Johnny V. Miller and John M. Soden say that all these arguments have missed the point. Rather, what Christians really need to know is how to interpret the Bible in its original context. Exposing the fallacies of trying to make the biblical text fit a specific scientific presupposition, Miller and Soden offer a new approach to interpreting Genesis 1 that explores the creation account based on how the original audience would have understood its teaching. First, the authors present a clear explanation of the past and present issues in interpreting the first chapter of the Bible. Second, Miller and Soden break down the creation account according to its historical and cultural context by comparing and distinguishing both the Egyptian and Mesopotamian settings. Finally, they explore common objections to help readers understand the significance that the creation account has for theology today. Christians need not look any further than Genesis 1 to find clues to its meaning. Both irenic and bathed in Scripture, *In the Beginning . . . We Misunderstood* will equip every believer to navigate the creation wars, armed with biblically sound explanations.

Galaxy S5: The Missing Manual Scholar's Zulu Dictionary; English-Zulu, Zulu-English Zulu Proverbs

This never-before-seen collection of poems offers the lyrical insights and spiritual wisdom of the Nobel Prize-winning author of Siddhartha, Steppenwolf, and The Glass Bead Game—who inspired millions as he forged cultural bridges between the East and West Vowing at an early age “to be a poet or nothing at all,” Hermann Hesse rebelled against formal education, focusing on a rigorous program of independent study that included literature, philosophy, art, and history. One result of these efforts was a series of novels that became counterculture bibles that remain widely influential today. Another was a body of evocative spiritual poetry. Published for the first time in English, these vivid, probing short works reflect deeply on the challenges of life and provide a spiritual solace that transcends specific denominational hymns, prayers, and rituals. *The Seasons of the Soul* offers valuable guidance in poetic form for those longing for a more meaningful life, seeking a sense of homecoming in nature, in each stage of life, and in a renewed relationship

with the divine. Extensive quotations from his prose introduce each theme addressed in the book: love, imagination, nature, the divine, and the passage of time. A foreword by Andrew Harvey reintroduces us to a figure about whom some may have believed everything had already been

said. Thoughtful commentary throughout from translator Ludwig Max Fischer helps readers understand the poems within the context of Hesse's life.
