This book investigates the entire spectrum of techniques for portraying the mental lives of fictional characters in both the stream-of-consciousness novel and other fiction. Each chapter deals with one main technique, illustrated from a wide range of nineteenth- and twentieth-century fiction by writers including Stendhal, Dostoevsky, James, Mann, Kafka, Joyce, Proust, Woolf, and Sarraute.

A dead boy (Pallas) and the death of a girl (Camilla) loom over the opening and the closing part of the eleventh book of the Aeneid. Following the savage slaughter in Aeneid 10, the book opens in a mournful mood as the warring parties revisit yesterday's killing fields to attend to their dead. One casualty in particular commands attention: Aeneas' protégé Pallas, killed and despoiled by Turnus in the previous book. His death plunges his father Evander and his surrogate father Aeneas into heart-rending despair – and helps set up the foundational act of sacrificial brutality that caps the poem, when Aeneas seeks to avenge Pallas by slaying Turnus in wrathful fury. Turnus' departure from the living is prefigured by that of his ally Camilla, a maiden schooled in the martial arts, who sets the mold for warrior princesses such as Xena and Wonder Woman. In the final third of Aeneid 11, she wreaks havoc not just on the battlefield but on gender stereotypes and the conventions of the epic genre, before she too succumbs to a premature death. In the portions of the book selected for discussion here, Virgil offers some of his most emotive (and disturbing) meditations on the tragic nature of human existence – but also knows how to lighten the mood with a bit of drag. This course book offers the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and the most recent scholarly thought. King's College, Cambridge, has generously contributed to this publication.

### A HISTORY OF ROMAN LITERATURE

Houghton Mifflin Harcourt

This searching interpretation of past and present addresses fundamental questions about the fall of the Roman Empire. Why did ancient culture, once so strong and rich, come to an end? Was it destroyed by weaknesses inherent in its nature? Or were mistakes made that could have been avoided-- was there a point at which Greco-Roman society took a wrong turn? And in what ways is modern society different? Western history is split into two discontinuous eras, Aldo Schiavone tells us: the ancient world was fundamentally different from the modern one. He locates the essential difference in a series of economic factors: a slave-based economy, relative lack of mechanization and technology, the dominance of agriculture over urban industry. Also crucial are aspects of the ancient mentality: disdain for manual work, a preference for transcending (rather than transforming) nature, a basic belief in the permanence of limits. Schiavone's lively and provocative examination of the ancient world, "the eternal theater of history and power," offers a stimulating opportunity to view modern society in light of the experience of antiquity.

## A HISTORY

The Death of Virgil During the last eighteen hours of his life, the Roman poet, Virgil, debates destroying the manuscript of his poem, the Aeneid Virgil, Aeneid 11 (Pallas & Camilla), 1-224, 498-521, 532-96, 648-89, 725-835. Latin Text, Study Aids with Vocabulary, and Commentary  
 Legendary Figures examines revolutionary views of the past that have played a crucial role in European and American literature of the last 150 years. Clayton Koelb traces these new approaches to history through an impressive range of novels, from Flaubert's Salammbô to Christa Wolf's Cassandra. Koelb argues that this new 'historical sense,' which arose in the mid-nineteenth century, gained eloquent expression in Flaubert's writings. What is crucial about the new historical sense is that it views the past as essentially 'alien' and 'other.' The connection between past and present may be powerful, but it is always indirect and difficult to negotiate. As a result, the past seems exotic and unattainable, the object of nostalgia and desire. Koelb distinguishes this sense of history, with its persistent discontinuities between past and present, from the more continuous and progressive views of history of novelists like Sir Walter Scott and such philosophers as Hegel, Marx, and Lukács. In their writings, history 'proceeds according to the laws of cause and effect, and each epoch can be understood as both the result of the previous one and the cause of the next.' In contrast, the modernist writers that Koelb examines—Flaubert, Pater, Mann, Broch, Wilder, Yourcenar, and Wolf—imagine a past that is 'mythic' and 'legendary' and thus a metaphor for everything distant, complicated, unattainable, and unknowable.

**Mythology in the Modern Novel** University of Chicago Press

Virgil's Homeric Lens reevaluates the traditional view of the Aeneid's relationship to Homer's Iliad and Odyssey. Almost since the death of Virgil, there has been an assumption that the Aeneid breaks into two discrete halves: Virgil's Odyssey, and Virgil's Iliad. Although modified in various ways over the centuries, this neat dichotomy has generally diminished the complexity and resonance of the connection between the two canonical epic poets. This work offers an alternate approach in which Virgil uses the transformative power of the Odyssey as a precise filter through which to read the Iliadic experience. By examining the ways in which Virgil bases his own epic project on the dynamic interaction between the two Homeric poems themselves, Edan Dekel proposes a system in which the Aeneid uses the Odyssey both as a conceptual model for writing an intertextual epic and as a powerful refracting lens for the specific interpretation of the Iliad and its consequences. The traditional view of the Homeric poems as static sources for the construction of distinct "Odyssean" and "Iliadic" halves of the Aeneid is supplanted by an analysis which emphasizes the active and persistent influence of the Odyssey as a guide to processing the major thematic concerns of the Iliad and exploring the multiple aftermaths of the Trojan war.

*Afterlives of the Roman Poets* Walter de Gruyter GmbH & Co KG

First published in 1988, Peter Hughes explores the work of V. S. Naipaul, and the interplay of fictional and non-fictional patterns in what is his obsessive vision of human life. Hughes shows how Naipaul's narratives pair off histories and novels, travel-writing and psycho-biography, reinforcing one another and Naipaul's vision of 'a world undoing itself' - a world of disorder and fantasy. He includes a reading of Naipaul's texts, usually considered highly traditional, that shows their innovative side, and points out ways that they can be illuminated through modern literary theory. A detailed analysis, this companion to V. S. Naipaul's writing will interest students of modern literature and those with an interest in Naipaul's writing more generally.

The final two volumes in the CWE contain an edition and translation of Erasmus's poetry. For Erasmus scholars this work affords the first opportunity to evaluate and analyse Erasmus' poems in English. And for those interested in Renaissance and Reformation poetry in general, these offer an intriguing look at the work of one of the towering figures of the period writing in a genre that was, for him, unusual. The annotations include a path-breaking commentary piece by Harry Vredeveld on Erasmus' most famous poem, 'Poem on the Trouble of Old Age.' Another important feature is the appearance of the original Latin of each poem alongside the English translation. Volumes 85 and 86 of the Collected Works of Erasmus series – Two-volume set.

The Ancient Lives of the poet Virgil, written in prose (and sometimes in verse), have long enjoyed great, though controversial, influence. Modern critics have often been scornful of these Lives, for trying to construct biography of the poet from allegorical reading of his verse. Yet some elements of the Lives are trusted, and quietly adopted as canonical, most notably the dating of Virgil's death. Some vignettes in the Lives have been cherished for their image of an emotive poet, as when Virgil, by evoking in verse the premature death of Augustus' nephew Marcellus, caused the young man's bereaved mother to faint. Less romantic detail from the Lives, as of Virgil's privileged material circumstances at the heart of the Augustan regime, has been less regarded. The present volume, from a distinguished international team, aims to revalue the Ancient Lives of Virgil from a variety of angles and in a variety of scholarly genres. The allegory within the Lives is here studied for its own sake, and shown to be part of a developed Graeco-Roman school of interpretation. The literary character of the verse Life attributed to Phocas is respectfully analysed. Certain political references within the best-known prose Life, the 'Suetonian-Donatan', are shown to be apparently independent of allegory, and to be worth prospecting for new information on the poet's personal history. And ideas of Virgil received and developed with brio in the Middle Ages and the Renaissance are here traced back to the Ancient Lives of the poet composed in Antiquity.

Offering a testimony to his love of reading and the goal of sharing it with others, author Tibor Schatteles presents a collection of twelve essays that study a wide range of works of literature, including works of Philostratos of Lemnos, Sophocles, Cervantes (Don Quixote), Gogol, Chekhov, Balzac (Gobseck), Hermann Broch, Robert Musil, James Joyce, Franz Kafka, Marcel Proust and Aristotle's Poetics. In these essays, he presents the simple exercises of a reader reaching out to communicate with other readers, building on notes he made during first readings and gathered following his retirement from the Canadian Federal Civil Service. Taking a cue from Montaigne's essay on reading books, he asks nothing of his books but "the pleasure of an honest entertainment" and yet he also seeks to share his ideas with others and engage in discussion and analysis. In The Mirror of Socrates, Schatteles examines the seminal works of literature in scholarly details, sharing his thoughts, ideas, and interpretations of each author's writing and purpose.
