the Basic Skills, this new
edition is ideal for those
who need to achieve the
minimum level of
Functional Skills required
for employment or want
to help their children with
their homework or would
simply just like to brush
up on their maths skills.
The Basic Skills Oxford
University Press

This text is an introduction to learning and teaching in the post compulsory sector. Those training to teach in the sector need to understand learning and learners in PCET. This text goes further than other texts in its exploration of the sector. It encourages readers to critically evaluate the context of PCET in the UK and opens up their learning through introducing some global profiles. The text explores learners in the sector, the diversity of the sector, the challenges and some

topical contemporary themes. It covers a breadth of content and can thus be used as a general course text for all PGCE (PCET) courses as well as other education programmes. Through pedagogical features including critical questions, teacher and learner voices, links to practice and more, the text provides a resource for all those learning about PCET.

Worked Examples in Functional Maths Level 2 : Vol. 1 Edexcel
Master the skills and

knowledge you need to succeed in the new Level 2 Diploma for Hair Professionals. Endorsed by City & Guilds as a quality resource supporting their new qualifications, this textbook is focused on the practical skills needed for your course. Which London School? & the South-East 2011 John

Wiley & Sons

Containing everything you need to know about independent schooling in Greater London and the surrounding area, this comprehensive guide is aimed at helping parents and children through the process of choosing the right school in London and the south-east.

Achieving Your Award in Education and Training
Learning Matters

Whichever Exam Board you are working for you will find this book useful for Functional skills Maths level 2. In the actual test

although the use of calculators is allowed it is sometimes useful to do simple sums with confidence without using calculators. In addition to basic addition, subtraction, multiplication and division you are expected to be familiar with fractions, decimals, percentages, ratios and proportions in everyday context. Everyday problems often involve being able to estimate as well as being able to work with simple formulas like Speed, Distance and Time and of course conversions

from one type of currency to another when you go on holiday! Also, basic Data Interpretation or Statistics is useful to make sense of data that is presented numerically or visually in a workplace or in newspaper articles. There are also chapters on basic shapes and spaces since you also need to be know how to work out perimeters, areas and volumes of basic shapes as well as be familiar with plans and drawing nets! Although the examples in this book start simply they

gradually build up to Level 2. Finally the test questions at the end contain detailed answers.

Functional Skills Maths in Context Oxford

University Press, USA

Written by Habia, the Hair and Beauty Industry

Authority, this write-in

workbook is an invaluable resource to help learners

improve their Maths and English skills and prepare

for Level 1 and Level 2

NEW FUNCTIONAL SKILLS MATHS REVISION QUESTION CARDS - LEVEL 2

McGraw-Hill Education (UK)
This book offers a practical solution to the challenges trainee teachers and practising teachers face when asked to address English and maths across the further education curriculum.

Aimed firmly at non-specialist teachers of English and maths, each chapter has activities to raise your own awareness of English or maths concepts, as well as examples of activities that you can use in your teaching to ensure English and maths are appropriately embedded. Key features include: • Accessible explanations of English and maths concepts to support both you and your learners • Tasks to get you thinking about the general principles of embedding

English and maths•
Specific ideas for
embedding English and
maths in a range of
vocational subject
contexts• Tips and ideas
for your lessons• General
advice together with “Dos
and don’ts” • Helpful
commentaries about
suggested teacher
activities•
Recommendations for
further reading If you are
training to teach in the
education and training
sector, this book offers a
number of tasks and
activities to help you
address English and

maths in your subject
area and is an excellent
resource to support the
planning and teaching of
your subject. "These
experts in English and
Maths have ensured that
their advice is well
conceived and carefully
explained but also that it
is practical. Written with
enthusiasm and flair, this
book is valuable and very
welcome." Professor Kevin
Orr, School of Education
and Professional
Development, University
of Huddersfield, UK "From
reading aloud to
pronunciation on the one

hand; and from
measurement and data
handling on the other, the
authors present workable
strategies, ideas and
exercises that are easy to
use. Jargon-free and user-
friendly, this book offers
valuable insights and
ideas." Dr Rebecca
Eliahoo, Principal Lecturer
(Lifelong Learning),
University of Westminster,
UK
Functional Skills Maths
Routledge
This full colour and
visually engaging
workbook is designed to
help you learn and the

master the necessary Functional Skills in Maths at your required level. With examples and questions written specifically for Health and Social Care, you will understand the relevance of Functional Skills and be able to apply them in the workplace.

GCSE Maths Functional Skills OECD Publishing

Whether you are studying for Functional Skills or Entry Level 3 qualifications - or just want to improve your maths skills and how you feel about working with

numbers - Maths the Basics is the ideal study guide. Using simple, step-by-step examples, clear explanations and lots of practice, it is designed to help you understand maths and feel confident using these skills in everyday life. Additional free online resources are also available to support your studies. Offering perfect preparation for

Functional Skills exams, Maths the Basics gives you everything you need in a single book to take you from Entry Level 3 through Level 1 to Level 2 success.

100 Ideas for Secondary Teachers: Tutor Time Bloomsbury Publishing

Packed with sources and graphics to bring maths into the real world, this book contains comprehensive coverage of the current specification with a real focus on both process skills and practice.

Functional Skills Maths Level 2 HarperCollins UK Functional Skills Maths Level 1 is aimed at helping you pass this exam with ease. In the actual test, although the use of calculators is allowed, it is useful to do simple sums with confidence without using calculators. In addition to basic addition, subtraction, multiplication and division you are expected to be familiar with fractions, decimals, percentages, ratios and proportions in everyday

context. Everyday problems often involve being able to estimate as well as being able to work with function machines and simple formulas. Also it is useful to be able to convert from one type of currency to another when you go on holiday! In addition, basic Data Interpretation or Statistics is useful to make sense of data that is presented numerically or visually in a workplace or in newspaper articles. There are also chapters on basic

shapes and spaces since you also need to know how to work out lengths around a shape (perimeters), areas and volumes of basic shapes as well as be familiar with plans and drawing nets! Whichever Exam Board you are working for you will find this book useful for Functional Mathematics up to level 1 and prepare you for Functional Mathematics Level 2. These tests may be taken online and in the actual tests you can either pass or fail.
