Wildly Different Than You Think World without ends: Hajime Narukawa at TEDxKids@ChiyodaAuthagraphAuthagraph is an approximately equal-area world map projection invented by Japanese architect Hajime Narukawa in 1999. The map is made by equally dividing a spherical surface into 96 triangles, transferring it to a tetrahedron while maintaining area proportions, and unfolding it onto a rectangle. Authagraph projection - Wikipedia About Authagraph We, Authagraph Co., Ltd. are a design firm. We have dedicated ourselves in research and development on an idea highly based on geometrical studies mainly by means of

model making. Then we carefully apply these pure geometrical ideas to practical usages according to various social needs in design, fine art and engineering. Authagraph Authagraph The Authagraph map is the most accurate map you'll ever see. You probably won't like it. Authagraph Map, The World's Most Accurate Map, Wins ... The Authagraph world map is a modern innovative map that frames the world's physical components (continents, seas, etc.) in a 2D rectangle, while representing their relative sizes and the shape of coast lines as accurately as possible. Antarctica, for instance, can be seen at the bottom right, close to South America. Amazon.com :
