Charles Dickens

First published in 1846, Charles Dickens's novella "The Battle of Life: A Love Story" is the fourth of his five "Christmas Books", published between "The Cricket on the Hearth" and "The

Haunted Man". The only of the five to not contain any supernatural or overt religious reference, it focuses on Grace and Marion, two sisters who are driven apart only to be reunited once more. Dickens's Christmas novels perfectly enraptured the spirit of the Victorian Christmas revival and even inspired a number of traditional aspects of the holiday, including seasonal food and drink, family gatherings, dancing, and more. Charles John Huffam Dickens (1812-1870) was an English writer and social critic famous for having created some of the world's most well-known fictional characters. His works became unprecedentedly popular during his life, and today he is commonly regarded as the greatest Victorian-era novelist thanks to his humour, satire, and astute observations concerning society and character. This classic work is being republished now in a new edition complete with a specially-commissioned new biography of the author.

Award-winning Claire Tomalin, author of *A Life of My Own*, sets the standard for sophisticated and popular biography, having written lives of Jane Austen, Samuel Pepys, and Thomas Hardy, among others. Here she tackles the best recognized and loved man of nineteenth-century England, Charles Dickens; a literary leviathan whose own difficult path to greatness inspired the creation of classic novels such as *Great Expectations*, *David Copperfield*, *Oliver Twist*, and *Hard Times*. From his sensational public appearances to the obsessive love affair that led him to betray, deceive, and break with those closest to him, *Charles Dickens: A Life* is a triumph of the biographer's craft, a comedy that turns to tragedy in a story worthy of Dickens' own pen.

Had Charles Dickens a terrible life when he was a child, or his parents provided a fairy tale childhood for him? His father was sent to the prison for being in debt two times in Charles life. At ten years old Charles was forced to go to work to support the family walking five miles one way to work and working ten-hour days. He wanted a college degree so badly he could taste it. He knew hard work and how to keep his word. He had an extremely high IQ and what seemed like a photographic memory. There are different and varying opinions on whether he was a ladies man or not; but once you research Charles, you cannot help but to label him as a ladies man; some may even label him as a pedophile with his very young sister-in-law. You will find out the details of the terrible railroad accident he was involved in with his girlfriend and her mother. He became obsessed with hypnotism and was more than happy to make house calls to perform the mesmerism treatment on others to help with their afflictions. Dickens never seemed to be the touchy, feely, hands-on type father and he traveled extensively and often to promote his books and lecturing. Charles Dickens and Nelly Ternan met in 1857; she was 18, a hard-working actress performing in his production of *The Frozen Deep*, and he was 45, the most lionized writer in England. Out of their meeting came a love affair that lasted thirteen years and destroyed Dickens's marriage while effacing Nelly Ternan from the public record. In this remarkable work of biography and scholarly reconstruction, the acclaimed biographer of Mary Wollstonecraft, Thomas Hardy, Samuel Pepys and Jane Austen rescues Nelly from the shadows of history, not only returning the neglected actress to her rightful place, but also providing a compelling portrait of the great Victorian novelist himself. The result is a thrilling literary detective story and a deeply compassionate work that encompasses all those women who were exiled from the warm, well-lighted parlors of Victorian England.

Focused on the 1830s, it portrays a restless, uncertain Dickens who could not decide on a career path. Through twists and turns, the author traces a double transformation: in reinventing himself Dickens reinvented the form of the novel.

It was the year of Our Lord one thousand seven hundred and seventy-five. Spiritual revelations were conceded to England at that favoured period, as at this. Mrs. Southcott had recently attained her five-and-twentieth blessed birthday, of whom a prophetic private in the Life Guards had heralded the sublime appearance by announcing that arrangements were made for the swallowing up of London and Westminster. Even the Cock-laneghost had been laid only a round dozen of years, after rapping out its messages, as the spirits of this very year last past (supernaturally deficient in originality) rapped out theirs. Mere messages in the earthly order of events had lately come to the English Crown and People, from a congress of British subjects in America: which, strange to relate, have proved more important to the human race than any communications yet received through any of the chickens of the Cock-lane brood. France, less favoured on the whole as to matters spiritual than her sister of the shield and trident, rolled with exceeding smoothness downhill, making paper money and spending it. Under the guidance of her Christian pastors, she entertained herself, besides, with such humane achievements as sentencing a youth to have his hands cut off, his tongue torn out with pincers, and his body burned alive, because he had not kneeled down in the rain to do honour to a dirty procession of monks which passed within his view, at a distance of some fifty or sixty yards. It is likely enough that, rooted in the woods of France and Norway, there were growing trees, when that sufferer was put to death, already marked by the Woodman, Fate, to come down and be sawn into boards, to make a certain movable framework with a sack and a knife in it, terrible in history. It is likely enough that in the rough outhouses of some tillers of the heavy lands adjacent to Paris, there were sheltered from the weather that very day, rude carts, bespattered with rustic mire, snuffed about by pigs, and roosted in by poultry, which the Farmer, Death, had already set apart to be his tumbrils of the Revolution. But that Woodman and that Farmer, though they work unceasingly, work silently, and no one heard them as they went about with muffled tread: the rather, forasmuch as to entertain any suspicion that they were awake, was to be atheistical and traitorous.

in short, the period was so far like the present period, that some of its noisiest authorities insisted on its being received, for good or for evil, in the superlative degree of comparison only. There were a king with a large jaw and a queen with a plain face, on the throne of England; there were a king with a large jaw and a queen with a fair face, on the throne of France. In both countries it was clearer than crystal to the lords of the State preserves of loaves and fishes, that things in general were settled for ever.
