Bored with their work, three Milanese editors cook up "the Plan," a hoax that connects the medieval Knights Templar with other occult groups from ancient to modern times. This produces a map indicating the geographical point from which all the powers of the earth can be controlled—a point located in Paris, France, at Foucault’s Pendulum. But in a fateful turn the joke becomes all too real, and when occult groups, including Satanists, get wind of the Plan, they go so far as to kill one of the editors in their quest to gain control of the earth.Orchestrating these and other diverse characters into his multilayered semiotic adventure, Eco has created a superb cerebral entertainment.

A startling, shape-shifting book of prose and images that draws on an unexpected pair of inspirations—the poetry of Fernando Pessoa and the history of air disasters—to investigate con men, identity politics, failures of leadership, the privilege of ineptitude, the slave trade, and the nature of consciousness. Early in 2017, on a plane from Cape Verde to Lisbon, author and visual artist James Hannaham started reading Pessoa & Co., Richard Zenith's English translation of Fernando Pessoa's selected poetry. This was two months after Trump's presidential election; like many people, ideas

about unfitnes for service and failures of leadership were on his mind. Imagine his consternation upon discovering the first line of the first poem in the book: "I've never kept sheep/But it's as if I did." The Portuguese, Hannaham had been musing, were responsible for jump-starting colonialism and the slave trade. Pessoa published one book in Portuguese in his lifetime, Mensagem, which consisted of paeans to European explorers. He also invented about seventy-five alter egos, each with a unique name and style, long before aliases and avatars became a feature of modern culture.

Hannaham felt compelled to engage with Pessoa's work. Once in Lisbon, he began a practice of reading a poem from Zenith's anthology and responding in whatever mode seemed to click. Even before his trip, however, he had become fascinated by Air Disasters, a TV show that tells the story of different plane crashes in each of its episodes. These stories—as well as the textures and squares of the city he was visiting—began to resonate with his concerns and Pessoa’s, and make their way into the book. Through its inspirations and juxtapositions and its agile shifts of voice and form—from meme to fiction to aphorism to screenshot to lyric—the book leads us to reckon with the most universal questions. What is the self? What holds the self—multiple, fragmented, performative, increasingly algorithmically controlled, constantly under threat of death—intact and aloft?

Facebook’s psychological experiments and Edward Snowden’s NSA leaks epitomize a world of increasing information awareness in the social media ecosystem. With over a billion monthly active users, Facebook as a nation is overtaking China as the largest country in the world. President Barack Obama, in his 2011 State of the Union Address, called America “the nation of Edison and the Wright brothers” and “of Google and Facebook.” U.S.

Chief Information Officer Steven VanRoekel opines that America has become a “Facebook nation” that demands increased transparency and interactivity from the federal government. Ubiquitous social networks such as Facebook, Google+, Twitter, and YouTube are creating the technologies, infrastructures, and big data necessary for Total Information Awareness - a controversial surveillance program proposed by DARPA after the 9/11 attacks. NSA’s secret PRISM program has reinvigorated WikiLeaks founder Julian Assange’s accusation that “Facebook is the most appalling spying machine that has ever been invented.” Facebook CEO Mark Zuckerberg once said, “We exist at the intersection of technology and social issues.” This book offers discourse and practical advice on the privacy issue in the age of big data, business intelligence in social media, e-government and e-activism, as well as personal total information awareness. This expanded edition also includes insights from Wikipedian Emily Temple-Wood and Facebook ROI experts Dennis Yu and Alex Houq.

The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives.
