All high performance organizations have one thing in common: execution. The men and women who work there sustain performance at seemingly otherworldly levels of precision, accuracy, and consistency. In the fifth and final book of Mark Miller's High Performance series, he uses his trademark business fable format to show how any organization can cultivate the kind of everyday habits that yield extraordinary results. Miller tells the story of Blake Brown, a CEO who learns how to help his team to consistently excel at execution from a perhaps unlikely source: his son's high school football coach. The story is fictional, but the principles and practices are very real, derived from years of research led by a team from Stanford University. Miller and his team interviewed leaders and employees from numerous world-class organizations, including the Navy SEALs, Starbucks, Apple, Southwest Airlines, the Seattle Seahawks, Mayo Clinic, Cirque du Soleil, and more. The lessons learned were then field-tested with over seventy businesses employing over 7,000 people. Miller gives you proven tools to release the

untapped potential in your people, create a strong competitive advantage, and win not just on game day but every day.

Recent events have focused attention on the perceived differences and tensions between the Muslim world and the modern West. As a major strand of Western public discourse has it, Islam appears resistant to internal development and remains inherently pre-modern. However Muslim societies have experienced most of the same structural changes that have impacted upon all societies: massive urbanisation, mass education, dramatically increased communication, the emergence of new types of institutions and associations, some measure of political mobilisation, and major transformations of the economy. These developments are accompanied by a wide range of social movements and by complex and varied religious and ideological debates. This textbook is a pioneering study providing an introduction to and overview of the debates and questions that have emerged regarding Islam and modernity. Key issues are selected to give readers an understanding of the complexity of the

phenomenon from a variety of disciplinary perspectives. The various manifestations of modernity in Muslim life discussed include social change and the transformation of political and religious institutions, gender politics, changing legal regimes, devotional practices and forms of religious association, shifts in religious authority, and modern developments in Muslim religious thought.

No legal system in the world has aroused as much public interest as Sharia. However, the discourse around Sharia law is largely focussed on its development and the theories, principles and rules that inform it. Less attention has been given to studying the consequences of its operation, particularly in the area of Islamic criminal law. Even fewer studies explore the actual practice of Islamic criminal law in contemporary societies. This book aims to fill these gaps in our understanding of Sharia law in practice. It deals specifically with the consequences of enforcing Islamic criminal law in Pakistan, providing an in-depth and critical analysis of the application of the Islamic law of Qisas and Diyat (retribution and blood money) in the Muslim world today. The empirical evidence adduced more broadly demonstrates the complications of

applying traditional Sharia in a modern state.

"This book provides the first ever overview of the history and development of Islam in Afghanistan. It covers every era from the conversion of Afghanistan through the medieval and early modern periods to the present day. Based on primary sources in Arabic, Persian, Pashto, Urdu and Uzbek, its depth and scope of coverage is unrivalled by any existing publication on Afghanistan. As well as state-sponsored religion, the chapters cover such issues as the rise of Sufism, Sharia, women's religiosity, transnational Islamism and the Taliban. Islam has been one of the most influential social and political forces in Afghan history. Providing idioms and organizations for both anti-state and anti-foreign mobilization, Islam has proven to be a vital socio-political resource in modern Afghanistan. Even as it has been deployed as the national cement of a multi-ethnic 'Emirate' and then 'Islamic Republic,' Islam has been no less a destabilizing force in dividing Afghan society. Yet despite the universal scholarly recognition of the centrality of Islam to Afghan history, its developmental trajectories have received relatively little sustained attention outside monographs and essays devoted to particular moments or movements. To help develop a more comprehensive, comparative and developmental picture of Afghanistan's Islam from the eighth century to the present, this edited volume brings together specialists on different periods, regions and languages. Each chapter

forms a case study 'snapshot' of the Islamic beliefs, practices, institutions and authorities of a particular time and place in Afghanistan"--Provided by publisher

The chant of "Azadi!"—Urdu for "Freedom!"—is the slogan of the freedom struggle in Kashmir against what Kashmiris see as the Indian Occupation. Ironically, it also became the chant of millions on the streets of India against the project of Hindu Nationalism. Even as Arundhati Roy began to ask what lay between these two calls for Freedom—a chasm or a bridge?—the streets fell silent. Not only in India, but all over the world. The coronavirus brought with it another, more terrible understanding of Azadi, making a nonsense of international borders, incarcerating whole populations, and bringing the modern world to a halt like nothing else ever could. In this series of electrifying essays, Arundhati Roy challenges us to reflect on the meaning of freedom in a world of growing authoritarianism. The essays include meditations on language, public as well as private, and on the role of fiction and alternative imaginations in these disturbing times. The pandemic, she says, is a portal between one world and another. For all the illness and devastation it has left in its wake, it is an invitation to the human race, an opportunity, to imagine another world.

An "artfully presented [and] engaging" look at the insidious effects of financialization on our lives and politics by the author of *Treasure Islands* (The Boston Globe). How did the banking sector grow from a supporter of business to the biggest business in the world? Financial journalist Nicholas Shaxson takes us on a terrifying journey through the world economy, exposing tax havens, monopolists, megabanks, private equity firms, Eurobond traders, lobbyists, and a menagerie of scoundrels quietly financializing our entire society, hurting both business and individuals. Shaxson shows how we got here, telling the story of how finance re-engineered the global economic order in the last half-century, with the aim not of creating wealth but extracting it from the underlying economy. Under the twin gospels of "national competitiveness" and "shareholder value," megabanks and financialized corporations have provoked a race to the bottom between states to provide the most subsidized environment for big business, encouraged a brain drain into finance, fostered instability and inequality, and turned a blind eye to the spoils of organized crime. From Ireland to Iowa, he shows the insidious effects of financialization on our politics and on communities who were promised paradise but got poverty wages instead. We need a strong financial system—but when it grows too big it becomes a monster. The Finance Curse is the explosive story of how finance got a stranglehold on society, and reveals how we might release ourselves from its grasp. Revised with new chapters "[Discusses] corrupt financiers in London and New York City, geographically obscure tax havens, the bizarre realm of wealth managers in South Dakota, a ravaged newspaper in New Jersey, and a shattered farm economy in Iowa . . . A vivid demonstration of how corruption and greed have become the main organizing principles in the finance industry." —Kirkus Reviews

Annotation. In the aftermath of 9/11 Islamic seminaries or madrasas received much media attention in India, mostly owing to the alleged link between madrasa education and forms of violence. Yet, while ample information on madrasas for boys is available, similar institutions of Islamic learning for girls have for the greater part

escaped public attention so far. This study investigates how madrasas for girls emerged in India, how they differ from madrasas for boys, and how female students come to interpret Islam through the teachings they receive in these schools. Observations suggest that, next to the official curriculum, the 'informal' curriculum plays an equally important role. It serves the madrasa's broader aim of bringing about a complete reform of the students' morality and to determine their actions accordingly. This title can be previewed in Google Books -

STORIES FROM THE HADITH Edinburgh University Press

Sufism is a religion which emphasizes direct knowledge of the divine within each person, and meditation, music, song, and dance are seen as crucial spiritual strides toward attaining unity with God. Sufi paths of mysticism and devotion, motivated by Islamic ideals, are still chosen by men and women in countries from Morocco to China, and there are nearly one hundred orders around the world, eighty of which are present and thriving in the United States. The Chishti Sufi order has been the most widespread and popular of all Sufi traditions since the twelfth-century. Sufi Martyrs of Love offers a critical perspective on Western attitudes towards Islam and Sufism, clarifying its contemporary importance, both in the West and in traditional Sufi homelands. Finally, it provides access to the voices of Sufi authorities, through the translation of texts being offered in English for the first time.

This text is an original investigation in the complex relationship between women, gender, and language in a Muslim, multilingual, and multicultural setting. Moroccan women's use of monolingualism (oral literature) and multilingualism (code-switching) reflects their agency and gender-role subversion in a heavily patriarchal society.

This "splendidly satirical novel" by the award-winning Pakistani author "beautifully captures the absurdity and folly of war and its ineluctable impact" (Booklist, starred review). An American pilot crash lands in the desert and finds himself on the outskirts of the very camp he was supposed to bomb. After days spent wandering and hallucinating from dehydration, Major Ellie is rescued by one of the camp's residents, a teenager named Momo, whose money-making schemes are failing while his family falls apart. His older brother left for his first day of work at an American base and never returned; his parents are at each other's throats; his dog is having a very bad day;

and a well-meaning aid worker has shown up wanting to research him for her book on the Teenage Muslim Mind. To escape the madness, Momo sets out to search for his brother, and hopes his new Western acquaintances might be able to help find him. But as the truth of Ali's whereabouts begin to unfold, the effects of American "aid" on this war-torn country are revealed to be increasingly pernicious. In *Red Birds*, acclaimed author Mohammed Hanif reveals critical truths about the state of the world with his trademark wit and keen eye for absurdity.

How do religious traditions create strangers and neighbors? How do they construct otherness? Or, instead, work to overcome it? In this exciting collection of interdisciplinary essays, scholars and activists from various traditions explore these questions. Through legal and media studies, they reveal how we see religious others. They show that Jewish, Christian, Islamic, and Sikh texts frame others in open-ended ways. Conflict resolution experts and Hindu teachers, they explain, draw on a shared positive psychology. Jewish mystics and Christian contemplatives use powerful tools of compassionate perception. Finally, the authors explain how Christian theology can help teach respectful views of difference. They are not afraid to discuss how religious groups have alienated one another. But, together, they choose to draw positive lessons about future cooperation.
