HAVE YOU SEEN MY COUNTRY LATELY?

The Red River Campaign in the spring of 1864 was one of the most destructive of the Civil War. The agricultural wealth of the Red River Valley tempted Union General Nathaniel P. Banks to invade with 30,000 troops in an attempt to seize control of the river and confiscate as much cotton as possible from local plantations. After three months of chaos, during which the countryside was destroyed and many slaves freed themselves, Banks was defeated by a smaller Confederate force under General Richard Taylor. This book takes a fresh look at the fierce battles at Mansfield and Pleasant Hill, the Union army's escape from Monett's Ferry and the burning of Alexandria, and explains the causes

and consequences of the war in Central Louisiana.

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up."

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

When General Motors and Chrysler declared bankruptcy in 2009 and immediately targeted thousands of dealerships for closure, tens of thousands of jobs and billions of dollars were on the line. Staring down two of the largest manufacturers in the world - as well as President Obama's Automotive Task Force - a determined triumvirate of car dealers banded together and went to Washington, D.C. to make their voices heard. Alan and Alison Spitzer's fast-paced memoir takes readers behind the scenes as "citizen's lobbyists" traverse throughout all of the major corridors of power in the nation's capital to make their case and bring justice to thousands of small business across the country.

"I've seen my country lately. Frankly, I don't like what I see. Nevertheless, it's not too late to restore the great and unique wonder that is the United States. We are the beacon of hope for the world, and we will remain so as long as we stand up for our principles." In keeping with his no-holds-barred on-air style, conservative radio talk show host Jerry Doyle has the guts to ask the tough questions about the state of our nation today. In this informative, entertaining, and challenging narrative, he urges Americans to take back the things that make our country great, and delivers his hard-hitting and oftentimes humorous spin on: • ECONOMIC FASCISM—the rapid government domination that began with the egregious takedown of GM • BAILOUTS—the missteps, wrong moves, and rules of salary caps, bank buy-ins, and bonuses that changed from day to day • EDUCATION—how our "everybody wins" obsession is destroying teaching and fostering an obnoxious self-entitlement trend • THE OBAMA PRESIDENCY—will American capitalism survive this administration? . . . and much more. If you like your politics straight up, with a commonsense chaser and a shot of dry wit, you'll be galvanized and enlightened by Jerry Doyle—the man, his story, and his insights into America today.

Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit

tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

From the Chrysler Six of 1924 to the front-wheel-drive vehicles of the 70s and 80s to the minivan, Chrysler boasts an impressive list of technological "firsts." But even though the company has catered well to a variety of consumers, it has come to the brink of financial ruin more than once in its seventy-five-year history. How Chrysler has achieved monumental success and then managed colossal failure and sharp recovery is explained in *Riding the Roller Coaster*, a lively, unprecedented look at a major force in the American automobile industry since 1925. Charles Hyde tells the intriguing story behind Chrysler-its products, people, and performance over time-with particular focus on the company's management. He offers a lens through which the reader can view the U.S. auto industry from the perspective of the smallest of the automakers who, along with Ford and General Motors, make up the "Big Three." The book covers Walter P. Chrysler's life and automotive career before 1925, when he founded the Chrysler Corporation, to 1998, when it merged with Daimler-Benz. Chrysler made a late entrance into the industry in 1925 when it emerged from Chalmers and Maxwell, and further grew when it absorbed Dodge Brothers and American Motors Corporation. The author traces this journey, explaining the company's leadership in automotive engineering, its styling successes and failures, its changing management, and its activities from auto racing to defense production to real estate. Throughout, the colorful personalities of its leaders-including Chrysler himself and Lee Iacocca-emerge as strong forces in the company's development, imparting a risk-taking mentality that gave the company its verve.

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." - *The Globe and Mail* *Lemon-Aid* shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His *Lemon-Aid* is more potent and provocative than ever.
