Musician, composer, producer: Brian Eno is unique in contemporary music. Best known in recent years for producing U2's sensational albums, Eno began his career as a synthesizer player for Roxy Music. He has since released many solo albums, both rock and ambient, written music for film and television soundtracks, and collaborated with David Bowie, David Byrne, Robert Fripp, and classical and experimental composers. His pioneering ambient sound has been enormously influential, and without him today's rock would have a decidedly different sound. Drawing on Eno's own words to examine his influences and ideas, this book—featuring a new afterword and an updated discography and bibliography—will long remain provocative and definitive.

African Musical Symbolism in Contemporary Perspective World Scientific Publishing

Jazz is the most colorful and varied art form in the world and it was born in one of the most colorful and varied cities, New Orleans. From the seed first planted by slave dances held in Congo Square and nurtured by early ensembles led by Buddy Belden and Joe "King" Oliver, jazz began its long winding odyssey across America and around the world, giving flower to a thousand different forms--swing, bebop, cool jazz, jazz-rock fusion--and a thousand great musicians. Now, in *The History of Jazz*, Ted Gioia tells the story of this music as it has never been told before, in a book that brilliantly portrays the legendary jazz players, the breakthrough styles, and the world in which it evolved. Here are the giants of jazz and the great moments of jazz history--Jelly Roll Morton ("the world's greatest hot tune writer"), Louis Armstrong (whose O-keh recordings of the mid-1920s still stand as the most significant body of work that jazz has produced), Duke Ellington at the Cotton Club, cool jazz greats such as Gerry Mulligan, Stan Getz, and Lester Young, Charlie Parker's surgical precision of attack, Miles Davis's 1955 performance at the Newport Jazz Festival, Ornette Coleman's experiments with atonality, Pat Metheny's visionary extension of jazz-rock fusion, the contemporary sounds of Wynton Marsalis, and the post-modernists of the Knitting Factory. Gioia provides the reader with lively portraits of these and many other great musicians, intertwined with vibrant commentary on the music they created. Gioia also evokes the many worlds of jazz, taking the reader to the swamp lands of the Mississippi Delta, the

bawdy houses of New Orleans, the rent parties of Harlem, the speakeasies of Chicago during the Jazz Age, the after hours spots of corrupt Kansas city, the Cotton Club, the Savoy, and the other locales where the history of jazz was made. And as he traces the spread of this protean form, Gioia provides much insight into the social context in which the music was born. He shows for instance how the development of technology helped promote the growth of jazz--how ragtime blossomed hand-in-hand with the spread of parlor and player pianos, and how jazz rode the growing popularity of the record industry in the 1920s. We also discover how bebop grew out of the racial unrest of the 1940s and '50s, when black players, no longer content with being "entertainers," wanted to be recognized as practitioners of a serious musical form. Jazz is a chameleon art, delighting us with the ease and rapidity with which it changes colors. Now, in Ted Gioia's *The History of Jazz*, we have at last a book that captures all these colors on one glorious palate. Knowledgeable, vibrant, and comprehensive, it is among the small group of books that can truly be called classics of jazz literature.

Advancing to higher levels of ritual magic with purpose and power requires an exaltation of consciousness—a spiritual transformation that can serve as an antidote to the seeming banality of modern life. Based on Kabbalistic techniques, the teachings of the Hermetic Order of the Golden Dawn, and an Hermetic tradition spanning nearly two thousand years, this innovative new work introduces the history of the Golden Dawn and its mythology, the Tree of Life, Deities, demons, rules for practicing magic, and components of effective ritual. A comprehensive course of self-initiation using Israel Regardie's seminal Golden Dawn as a key reference point, Kabbalah, Magic and the Great Work of Self-Transformation guides you through the levels of the Golden Dawn system of ritual magic. Each grade in this system corresponds with a sphere in the Kabbalistic Tree of Life and includes daily rituals, required reading, written assignments, projects, and additional exercises. Knowledgeable and true to tradition, author Lyam Thomas Christopher presents a well-grounded and modern step-by-step program toward spiritual attainment, providing a lucid gateway toward a more awakened state. This book comes with no CDs. You will need four CDs to work with this book. These CDs can be bought separately or you may download MP3 files from various on-line vendors. Contextual Ear Training is a major expansion of the "One Note" exercise from the "Fanatic's Guide to Sight Singing and Ear Training." Much of the material from the first few chapters of "Fanatic's Guide" is included in this book. This is because some students may be purchasing this book and not the "Fanatic's Guide." It's recommend that you first work with the "Fanatic's Guide" before using this book, although you can certainly work with both simulta-neously, to good effect. For some students working without the "Fanatic's Guide" may be fine but "Contextual Ear Training" assumes you have a fair degree of proficiency with the "One Note" exercise in "Fanatic's Guide." So to reiterate, if you find this book and associated CD too hard it would be suggest that first work with the "Fanatic's Guide." Although the "One Note" exercise is just the first exercise in "Fanatic's Guide" it's really the key to the whole methodology. Many students can easily sing through all exercises in the Fanatic's Guide once they have mastered the "One Note" exercise. However, It would still recommend getting the "Fanatic's Guide" because cases have be seen where a person has mastered the "One Note" technique but still has problems with the other "Fanatic's Guide" exercises, so it's prudent to make sure you are not one of those people. If you are new to this Ear Training Series its also recommend that you work with "Ear Training One Note Complete" book as a companion to this method. The "One Note" exercise is an extremely good exercise and thefour CDs that are available separately from this book really help a student to focus in on this technique in a structured way. Contextual Ear Training includes a music theory section and FAQ sec

Seven Ideas that Shook the Universe Shepherd's Heart Music

WINNER OF THE AUGUST DERLETH AND ARTHUR C. CLARKE AWARDS • A masterpiece brimming with scientific splendor, magical intrigue, and fierce characters, from the author who “has reshaped modern fantasy” (The Washington Post) “[China Miéville’s] fantasy novels, including a trilogy set in and around the magical city-state of New Crobuzon, have the refreshing effect of making Middle-earth seem plodding and flat.”—The New York Times The metropolis of New Crobuzon sprawls at the center of the world. Humans and mutants and arcane races brood in the gloom beneath its chimneys, where the river is sluggish with unnatural effluent and foundries pound into the night. For a thousand years, the Parliament and its brutal militias have ruled over a vast economy of workers and artists, spies and soldiers, magicians, crooks, and junkies. Now a stranger has arrived, with a pocketful of gold and an impossible demand. And something unthinkable is released. The city is gripped by an alien terror. The fate of millions lies with a clutch of renegades. A reckoning is due at the city’s heart, in the vast edifice of brick and wood and steel under the vaults of Perdido Street Station. It is too late to escape.

A Natural History of the Senses Johns Hopkins University Press

A dazzling, irresistible collection of the ten most groundbreaking and beautiful experiments in scientific history. With the attention to detail of a historian and the storytelling ability of a novelist, New York Times science writer George Johnson celebrates these groundbreaking experiments and re-creates a time when the world seemed filled with mysterious forces and scientists were in awe of light, electricity, and the human body. Here, we see Galileo staring down gravity, Newton breaking apart light, and Pavlov studying his now famous dogs. This is science in its most creative, hands-on form, when ingenuity of the mind is the most useful tool in the lab and the rewards of a well-considered experiment are on exquisite display.

Sylvia Plath began keeping a diary as a young child. By the time she was at Smith College, when this book begins, she had settled into a nearly daily routine with her journal, which was also a sourcebook for her writing. Plath once called her journal her “Sargasso,” her repository of imagination, “a litany of dreams, directives, and imperatives,” and in fact these pages contain the germs of most of her work. Plath’s ambitions as a writer were urgent and ultimately all-consuming, requiring of her a heat, a fantastic chaos, even a violence that burned straight through her. The intensity of this struggle is rendered in her journal with an unsparing clarity, revealing both the frequent desperation of her situation and the bravery with which she faced down her demons. Written in electrifying prose, The Journals of Sylvia Plath provide unique insight, and are essential reading for all those who have been moved and fascinated by Plath’s life and work.

Since the turn of the century the world has been swept by a succession of Black American dance beats, from Ragtime to Rap - followed in recent years by the popular "world" music of Africa itself. This book examines why all this Black "roots" and ethnic music has become the dominant sound of our global age. The book 's first section, deals with the symbolic knowledge of Sub-Saharan Africa embedded in its music and traditional worldviews. Its second section examines how some areas of recent scientific research have moved away from the mechanistic and deterministic ethos of industrialism towards relativistic, holistic, circular, and participatory ideas that are, surprisingly, in tune with the old African symbols discussed in the first section. In short, the old insights and musical wisdom of Africa and its Diaspora are helping provide the contemporary age with the means of harmonizing our heads and feet,mind and matter, inner and outer and generally putting breathing-space, play and "swing" into a materialist world. John Collins has been active in the Ghanaian/West African music scene since 1969 as a guitarist, band leader, music union activist, journalist and writer. He obtained his B.A.degree in sociology/archaeology from the University of Ghana in 1972 and his PhD in Ethnomusicology from SUNY Buffalo in 1994. He began teaching at the Music Department of the University of Ghana in 1995,obtained a Full Professorship there in 2002 and in 2003 became Head of Department. He is currently manager of Bokoore Recording Studio, chairman of the BAPMAF African Music Archives Foundation, a consultant for several Ghana music unions and coleader of the Local Dimension Highlife Band.

"In *Literary Executions*, John Barton analyzes nineteenth-century representations of, responses to, and arguments for and against the death penalty in the United States. The author creates a generative dialogue between artistic relics and legal history. Novels, short stories, poems, and creative nonfiction engage with legislative reports, trial transcripts, legal documents, newspaper and journal articles, treatises, and popular books (like *The Record of Crimes and The Gallows*, *the Prison*, and *the Poor House*), all of which participated in the debate over capital punishment. Barton focuses on several canonical figures--James Fenimore Cooper, Nathaniel Hawthorne, Lydia Maria Child, Walt Whitman, Herman Melville, and Theodore Dreiser--and offers new readings of their work in light of the death penalty controversy. Barton also gives close attention to a host of then-popular-but-now-forgotten writers--particularly John Neal, Slidell MacKenzie, William Gilmore Simms, Sylvester Judd, and George Lippard--whose work helped shape or was in turn shaped by the influential anti-gallows movement. As illustrated in the book's epigraph by Samuel Johnson -- "Depend upon it Sir, when a man knows he is to be hanged in a fortnight, it concentrates his mind wonderfully" -- Barton argues that the high stakes of capital punishment dramatize the confrontation between the citizen-subject and sovereign authority. In bringing together the social and the aesthetic, Barton traces the emergence of the modern State's administration of lawful death. The book is intended primarily for literary scholars, but cultural and legal historians will also find value in it, as will anyone interested in the intersections among law, culture, and the humanities"--

STEVENS' POETRY OF THOUGHT

Brill

With Fred D'Aguiar and Caribbean Literature: Metaphor, Myth, Memory, Leo Courbot offers the first research monograph entirely dedicated to a

comprehensive reading of the verse and prose works of Fred D'Aguiar, prized American author of Anglo-Guyanese origin. "Postcolonial" criticism, when related to the history of the African diaspora, regularly inscribes itself in the wake of Sartrean philosophy. However, Fred D'Aguiar's both typical

and untypical Caribbean background, in addition to the singularity of his diction, call for a different approach, which Leo Courbot convincingly carries out by reading literature in the light of Jacques Derrida and Édouard Glissant's less conventional sense of the intrinsically metaphorical and cross-cultural nature of language.
