GK WIN DEGREE SYSTEM OF ASTROLOGY

V&S Publishers

It is a simple method for prediction through which, even a person with a basic knowledge of astrology can give predictions based on the birth chart. The method utilizes the degrees of the planets in the birth chart. The planets in the highest degree and lowest degree are taken into account. Even planets which are 6/8 positions away from each other, will be combined when their degrees are close. Through this method we can predict whose relationship will be beneficial for him/her. We can also predict the planets which will support him though out his/her life, the gods whom should be worship and

so on. Predictions together with the planets in the transit and the birth chart are also easily given.

Foretelling Widowhood All India Federation of Astrologers' Societies

This book was the end product of life experiences, thoughts and intellectual wanderings of the author, who through his career and for the last twenty years was always serving all the three aspects of a Psychiatrist: He is a clinician, a researcher and an academic teacher. The book includes a comprehensive history of Psychiatry since antiquity and until today, with an emphasis not only on main events but also specifically and with much detail and explanations, on the chain of events that led to a particular development. At the center of this work is the question 'What is mental illness?' and 'Does free will exist?'. These are questions which tantalize Psychiatrists, neuroscientists, psychologists, philosophers, patients and their families and the sensitive and

educated lay persons alike. Thus, the book includes a comprehensive review and systematic elaboration on the definition and the concept of mental illness, a detailed discussion on the issue of free will as well as the state of the art of contemporary Psychiatry and the socio-political currents it has provoked. Finally the book includes a description of the academic, social and professional status of Psychiatry and Psychiatrists and a view of future needs and possible developments. A last moment addition was the chapter on conspiracy theories, as a consequence of the experience with the social media and the public response to the COVID-19 outbreak which coincided with the final stage of the preparation of the book. Their study is an excellent opportunity to dig deep into the relation among human psychology, mental health, the society and politics and to swim in intellectually dangerous waters.

It is common knowledge that the 12 star-signs map the sky and set the stage for the drama of life. This book expands this awareness manifold by revealing that it is the 27 constellations, and not the 12 signs, which truly map the ecliptic and provide the celestial backdrop for affairs on earth. Instead of taking away from the widely recognized meanings and significations of the 12 signs, they enrich them with a whole new depth of perspective and interpretation.

CHEIRO'S NUMEROLOGY

German critic Walter Benjamin wrote some immensely influential words on the work of art in the age of mechanical reproduction. Luxury fashion houses would say something shorter and sharper and much more legally binding on the rip-off merchants who fake their products.

Marcus Boon, a Canadian English professor with an accessible turn of phrase, takes us on an erudite voyage through the theme in a serious but engaging encounter with the ideas of thinkers as varied as Plato, Hegel, Orson Welles, Benjamin, Heidegger, Louis Vuitton, Takashi Murakami and many more, on topics as philosophically taxing and pop-culture-light as mimesis, Christianity, capitalism, authenticity, Uma Thurman's handbag and Disneyland.

THE TIMING OF EVENTS fulfils an important need of Vedic Astrology. Predictive astrology aims at identifying the specific period for the occurrence of a specific event. Several principles on this subject have been indicated in classical texts. Many of them are not available to a large

number of modern students. The present study on the subject by Bepin Behari gives various principles on the subject in a very lucid and readable manner. It discussed Dasa system, transits of planets, Astakavarga, Annual Horoscopy and the principles laid down in Tajaka Nilkanthi. It is down in Tajaka Nilkanthi. It is expected that the students and practitioners of Vedic Astrology will find the book immensely helpful.

Dr. David Frawley, the well known Vedic scholar, writes of Mr. Trivedi - "India's most insightful young astrologer offers what is probably the longest, most researched and most original book on the Lunar Nodes published in modern times. This book is worthy of serious examination by all students of Astrology and all those interested in the great mysteries of life, death, karma and transformation."

Analysis of Longevity - An Astrologer can only give an Indication of what promise the future holds. Only Brahma, the

creator, can say with certainty what will definitely happen. This applies most appropriately to Longevity determination. Matters like longevity cannot be decided by us mortals. They are in the hands of the supreme power and an Astrologer who wishes indulge in longevity determination, needs help of this super power to make the correct judgement. Ayu Nirnay is a very serious and a deep subject $\frac{1}{4}xw < + o$ xEHkhj fo" k; $\frac{1}{2}$ and it involves much more than just the mathematical calculation. Even after checking longevity by many methods, the Astrologer is almost forbidden to disclose the person's death to him. At the most he can give a very subtle hint. There are about 32 methods of calculation of longevity, but there is no one method which gives perfect result. After calculating it by a number of methods, if similar Ayu is found, then it can be relied upon, to a certain extent. There are many stories in our religion like those of Savitri and Satyavan and Markandeya Rishi, in which people whose life span has come to an end, have been granted more life by God himself. This shows that the length of life can be increased by Gods blessings. Length of life

can also be increased or decreased by the persons own karmas in this life. People who lead a good regulated life from childhood, who follow good moral conduct, who eat less, and who respect god and the learned men, live up to their mathematically estimated life span or even longer. The people who do just the opposite have an untimely end. This shows that a person can reduce his life-span by his own kukarmas. Till a child is of twelve years of age his ayu nirnay should not be done. The first four years of his life and governed by the poorva karmas of his mother, the next four years are governed by the karmas of his father and the next four years are governed by his own karmas. Till twelve years, even prediction of his horoscope should not be done, because whatever the horoscope shows, can get altered because of these super imposing factors. For this reason till that age, every child should be protected through propitiation of planets, medical help and proper care. Only after he has crossed this age, his Ayu Nirnay should be done. This book contains all methods of determination of longevity of a native. Calculation of the longevity of a native is

not an easy task. All expert astrologers believe that before interpreting a horoscope it is essential to determine the longevity of native. There are different methods of determining longevity but none of them can be termed as very accurate so it shall be better to follow various methods. In the field of astrology and especially in determining the longevity of a native the role of intuition is most important. Astrologer can develop intuition by continuous meditation and other spiritual practices. One should remember it always that nobody can control life and death. There is only one method of giving shape to our future and that is to bring improvement in our deeds. The summary of our scriptures is embedded in two words- *Punya*(holy/sacred/meritorious action) and *Paap*(sin). Our whole existence revolves around these two words only. It is the proposal of the author to keep it in the background of this book. This book contains all important methods of determination of longevity of a native. *Motilal Banarsidass Publ.* *Light on Life* brings the insight and wisdom of Indian astrology to the Western reader.

Jyotish, or Indian astrology, is an ancient and complex method of exploring the nature of time and space and its effect upon the individual. Formerly a closed book to the West, the subject has now been clarified and explained by Hart de Fouw and Dr. Robert Svoboda, two experts and long-term practitioners. In *Light on Life* they have created a complete and thorough handbook that can be appreciated and understood by those with very little knowledge of astrology.

Recommended by Bill Gates and included in GatesNotes "Elaborating on the science as well as the business behind the fight against cystic fibrosis, Trivedi captures the emotions of the families, doctors, and scientists involved in the clinical trials and their 'weeping with joy' as new drugs are approved, and shows how cystic fibrosis, once a 'death sentence,' became, for many, a manageable condition. This is a rewarding and challenging work."

—Publishers Weekly Cystic fibrosis was once a mysterious disease that killed infants and children. Now it could be the key to healing millions with genetic diseases of every type—from Alzheimer's and Parkinson's to diabetes and sickle cell anemia. In 1974, Joey O'Donnell was born with strange symptoms. His insatiable appetite, incessant vomiting, and a relentless cough—which shook his tiny, fragile body and made it difficult to draw breath—confounded doctors and caused

his parents agonizing, sleepless nights. After six sickly months, his salty skin provided the critical clue: he was one of thousands of Americans with cystic fibrosis, an inherited lung disorder that would most likely kill him before his first birthday. The gene and mutation responsible for CF were found in 1989—discoveries that promised to lead to a cure for kids like Joey. But treatments unexpectedly failed and CF was deemed incurable. It was only after the Cystic Fibrosis Foundation, a grassroots organization founded by parents, formed an unprecedented partnership with a fledgling biotech company that transformative leaps in drug development were harnessed to produce groundbreaking new treatments: pills that could fix the crippled protein at the root of this deadly disease. From science writer Bijal P. Trivedi, *Breath from Salt* chronicles the riveting saga of cystic fibrosis, from its ancient origins to its identification in the dank autopsy room of a hospital basement, and from the CF gene's celebrated status as one of the first human disease genes ever discovered to the groundbreaking targeted genetic

therapies that now promise to cure it. Told from the perspectives of the patients, families, physicians, scientists, and philanthropists fighting on the front lines, *Breath from Salt* is a remarkable story of unlikely scientific and medical firsts, of setbacks and successes, and of people who refused to give up hope—and a fascinating peek into the future of genetics and medicine.

It is a serious work that will greatly facilitate further research and inquiry on the part of lovers of the Vedic tradition." Penny Farrow

This study traces the growth of the concept of divorce through the Dharmasastra, custom, case-law and legislation with special reference to the interpretation of the relevant provisions under the Hindu Marriage Act, 1955,

pointing out how the law has influenced society and vice versa. The work is comparative and presents a picture of the

role played by English judicial precedent in Hindu law. For the legal profession as well

as the student of modern comparative law this book should prove a valuable compact study.
