A new recruit makes the mistake of asking Blutch to tell him about the infamous battle of Bull Run ... in public! The hostility of the other Union soldiers is immediate, yet Blutch eventually explains the reason for it. That battle, the first major one of the war, which had seemed to the North like such an inevitable victory that masses of civilians had gone to watch it as spectators, ended in a complete rout. And Blutch and Chesterfield were there ...

The Red Deer Rebels are in a rebuilding year. But their rookie head coach, Luke Nestor, is not accustomed to losing. As a player, he has led numerous teams to championships in junior

and minor pro leagues. But this year his challenge is a big one. Relying on the talents of his prodigious but reluctant superstar, Will Topplehorn, and his short-fused Russian goaltender, Vanek Vilisi, Nestor will attempt to lead an unproven but determined group of fledgling junior players to the ultimate junior hockey prize: the Memorial Cup. But as is true of real life, each player brings with him his own baggage: his own history, issues, values, aspirations, and demons. Memorial follows the lives of Coach Nestor and seven of his players as they attempt to figure out their own lives and their place in the turbulent elite hockey world. The stories of eight main characters converge into one in this fast-paced emotional roller coaster that delves into friendship, trust, acceptance, betrayal, and forgiveness, while illuminating all the adrenaline and vividness of junior hockey. This true-to-life story spares the reader none of the hard realities of this world

and its participants.

After a series of bloody battles, the 22nd Cavalry is once again depleted. Sent on a recruiting drive, Chesterfield meets only failure - between the reputation of their unit and Blutch's constant sabotage efforts, finding volunteers is almost impossible. Until fate brings them to a penitentiary where some very unsavoury characters are about to hang. Offered a choice, the criminals will pick the uniform over the noose, but can they be controlled?

General Alexander's Union army is out of horses, and it is now facing none other than Robert E. Lee himself. To rebuild the Northern Cavalry before the coming battle, Blutch and Chesterfield are sent to

buy new mounts, with the help of legendary horse trainer Ben "Bronco Benny" Wilcox. But, first, they'll have to cross Rebel lines, face angry Indians, and deal with Benny's fascination with a very special horse named "Traveller"...

Two companies are competing to build the intercontinental railway. When one sends saboteurs to intercept the powder needed to pierce tunnels through the mountains, the other calls upon Lucky Luke to protect a last chance convoy. The problem is, it's not powder that gets loaded onto the train this time - it's nitroglycerin! And as if that wasn't enough, the saboteurs are still around ... and the Daltons are convinced the train is full of gold!

Flying birds have a thick coat of down and feathers that protect their body a specialized circulatory system constricts blood flow to their specialized versatile feet, and a digestive system quickly converts food into energy that begins with the bill. Migration is genetic with cold weather destroying food. Alterations in temperature and light stimulate the pituitary and adrenal glands into releasing two hormones that encourage fat storage for fuel used in migrating. Birds that fly have the abilities to learn and use tools to solve problems. The brain in humans and birds is the seat of the mind which interacts with the body through the senses and muscles. It receives sensory information from eyes and ears. The sensor cells in the nervous system transition external stimuli into electrical impulses that are conducted through the sensory nerves to regions in the brain. Penguins are genetically programmed to walk in single file 70 or more miles from the ocean to their rookeries

where they meet their mates, build nest, lay eggs and hatch their young keeping the egg warm while the other mate walks back to the sea to eat and get food to bring back to the young.

Tijdens de laatste slagvelden zijn er veel paarden omgekomen, het Noordelijk leger zit daarom verlegen om paarden. Bij de laatste zending bij het station Hickory wood, zijn alleen enkele kreupele paarden en kamelen gebracht. Daarom besluit de generale staf om Sgt. Chesterfield en Blutch op een gevaarlijke missie te sturen, ze moeten bij de Zuidelijken paarden gaan kopen op paardenfarms, ze krijgen de paardentemmer Bronco Benny mee om de nog wilde paarden te temmen.

War rages on, and the wounded pile up - including Blutch, courtesy of Confederate artillery. The Union Army doctors are swamped. In order to address his shortage of healers, General Alexander brings in a

quartet of female nurses. But while he did also recruit a foul-tempered 'matron' of sorts to discourage anyone more interested in flirting than doing their duty, he may not have planned for the possibility of one of the nurses falling for a certain small, unruly, bald corporal ...

Wanneer hij terugkomt van een missie ontdekt Blutch dat Arabesk, zijn dierbare merrie die tijdens charges voor dood speelt, door een andere noordelijke eenheid is gevorderd. Uitzinnig van woede verwoest hij alles wat op zijn pad komt, met inbegrip van de officiersmess. Uiteindelijk kan hij Chesterfield overtuigen samen zijn paard te gaan zoeken. Wat volgt is een gevaarlijke en hilarische

roadmovie, waarin de gruwelen van de Burgeroorlog zichtbaar worden. Onderweg ontmoeten ze een oude vijand en zullen ze een paar keer nipt aan de dood ontsnappen... Dit is een album om van te genieten want Lambil toont opmerkelijker dan ooit dat hij de kunst van het paarden tekenen onder de knie heeft. Maar ook omdat het de allerlaatste De Blauwbloezen van Raoul Cauvin is, die met zijn 64 avonturen méér dan stripgeschiedenis heeft geschreven.

Even as the sea blockade by the Union Navy slowly strangles the South, the picket ships begin to mysteriously blow up one after another. Lincoln, worried that the war could stretch on too long if the Rebels are resupplied, orders that the Confederates' secret weapon be identified. That means sending spies to Charleston, though, in the heart of the enemy's territory. And who will be the two unlucky fools the brass entrusts with such a dangerous mission ... ?

Leo often felt that he was in the wrong place at the wrong time. On June 4, 1994, he was in a white Ford Bronco on Highway 405 outside of Los Angeles. Every law enforcement officer within one hundred miles was looking for a white Bronco and a fugitive named O. J. Simpson. And so Leo did what any Vietnam veteran suffering from post-traumatic stress disorder would do: he ditched the beer, threw the joint out the window, and panicked. He steered off the freeway and into the unsuspecting life of an

angel. The ride that had started in a Los Angeles suburb tripped through Southeast Asia, New England, the Florida Keys, New York City, and Palm Springs and finally ran out of steam in Hawaii, and along the way, Leo found his life and his love.

While out on patrol, Blutch and Chesterfield encounter an unusual soldier: a woman wearing a Union uniform, who has come to join the army to look for her brother and uphold the family's honour. Blutch is unconvinced, but the sergeant, won over by the combination of bravery and a pretty face, agrees to help her. That, however, means taking her along for Captain Stark's demented charges – a prospect that could drive anyone to shirk their duty or desert...
