The Organ Music of Diane Bish Mel Bay Publications

This collection aims to provide a comprehensive survey of a highly significant part of the Christian Year: Ash Wednesday and Lent, Passiontide, Palm Sunday, Maundy Thursday, Good Friday, and Easter. Its contents span all musical periods of what is a marvellously rich area of church music and it contains much that is not widely available elsewhere under one cover. Ash Wednesday to Easter for Choirs includes a number of less familiar works together with new or recent arrangements of well-

known tunes, such as Philip Ledger's 'This joyful Eastertide', Simon Lindley's 'Now the green blade riseth', and Bob Chilcott's setting of 'Were you there?'. Some of the anthems, for example Richard Shephard's 'Sing, my tongue' and Grayston Ives' 'Ride on', have been newly commissioned specifically for this collection, thus filling certain gaps. Wherever possible new practical performing editions of 16th-century repertoire have been prepared, reflecting current scholarship and including an English singing translation and, where, the original had none, a dynamic scheme. Such dynamics are the editors' suggestions only and may be freely ignored or adapted. Note values have in some instances been halved. Unaccompanied items include keyboard

reductions for rehearsal.

Playable arrangements for organ written for playing an organ with carillon, chimes or handbell stops. Hymn tunes in this book: At the Lamb's High Feast We Sing

Christ the Lord is Risen Today Thine is the Glory Crown him with Many Crowns Christ the Lord is Ris'n Today Christ is Made the Sure Foundation Let Us, With a Gladsome Mind O Sons and Daughters Hail the Day that Sees Him Rise I Know that My Redeemer Lives All Creatures of Our God and King Zwyciezca Smierci Christus Vincit! Victimae Paschali Laudes Linksma Diena Mums Prasvito Carillon bells once were only heard by people outside the church, while only chimes were sometimes heard playing with the organ. Today carillon bells can be heard inside the church as well, some due to using microphones in the steeple carrying the sound to speakers in the church, but more commonly today through digital bell carillon systems that may also play from the organ and be

heard in the church. This series of playable arrangements of hymn tunes are written to expand the scope of music for organ playing with carillon, chimes and organ handbell stops. With the richer sound of carillon bells and handbells, the series includes pieces that are composed to as Preludes but also as Postludes. By keeping with the standard keys of these hymns, they are useful when introducing hymns that are already well-known by the congregation, adding a new dimension to the church service. Handbell parts are included, very useful for a beginning choir, and also as a quick substitute when ringers are absent - no reason to announce the bells won't be playing if you have prepared a few of these as backup pieces. They may be played by a small number of ringers or

even a solo ringer. A solo ringer may play these with an organist to create interest in a church interested in restarting a handbell program or start one with a new set of bells. The music is written out on two staves. Pedals are optional for the organist. Pedals may also be played using a Bass coupler. Composer Noel Jones is an Associate of the American Guild of Organists and worked as church musician in the United States and Europe. He was organist for the Church Center for the United Nations and accompanied the United Nations Singers in concert. Frog Music Press has published collections of playable hymns in three parts for organists as well as a Guide to Hymnplaying for Organists. The website address is www.frogmusic.com.
