The Art of Mingling Macmillan
In this long-awaited sequel Kirk Johnson

and Ray Troll are back on a road trip—driving, flying, and boating their way from Baja, California to northern Alaska in search of the fossil secrets of North America's Pacific coast. They hunt for fossils, visit museums, meet

scientists and paleoneerds, and sleuth out untold stories of extinct worlds. As one of the oldest coasts on earth, the west coast is a rich ground for fossil discovery. Its wonders include extinct marine mammals, pygmy mammoths, oyster bears, immense ammonites, shark-bitten camels, polar dinosaurs, Alaskan palms, California walruses, and a lava-baked rhinoceros. Join in for a fossil journey through deep time and discover how the west coast became the place it is today.

A comprehensive picture of the architecture of crustal magmatic systems The composition of igneous rocks - their minerals, melts, and fluids - reveals the physical and chemical conditions under which magmas form,

evolve, interact, and move from the Earth's mantle through the crust. These magma dynamics affect processes on the surface including crustal growth and eruptive behaviour of volcanoes. *Crustal Magmatic System Evolution: Anatomy, Architecture, and Physico-Chemical Processes* uses analytical, experimental, and numerical approaches to explore the diversity of crustal processes from magma differentiation and assimilation to eruption at the surface. Volume highlights include: Physical and chemical parameterization of crustal magmatic systems Experimental, theoretical and modelling approaches targeting crustal magmatic processes Timescales of crustal magmatic processes, including storage, recharge, and ascent through volcanic conduits *The American*

EASY, FUN, AND PROVEN TECHNIQUES FOR MASTERING ANY ROOM

The Art of Mingling Fun and Proven Techniques for Mastering Any Room Poetry. Latino/Latina Studies. In THE ART OF EXILE, William Archila asks readers in the United States to engage with a subject seldom explored in American

poetry: the unrest in El Salvador in the 1980s and its impact on Central American immigrants who now claim this country as home. In language that is poignant and often harrowing, the poet takes us on a journey from Santa Ana, El Salvador, to Los Angeles, California. Archila bridges race and class, metaphor and reality with astuteness, mingling humor and pain with a skill that denigrates neither.

With Palace of Books, Roger Grenier invites us to explore the domain of literature, its sweeping vistas and hidden recesses. Engaging such fundamental questions as why people feel the need to write, or what is involved in putting

one's self on the page, or how a writer knows she's written her last sentence, Grenier marshals apposite passages from his favorite writers: Chekhov, Baudelaire, Proust, James, Kafka, Mansfield and many others. Those writers mingle companionably with tales from Grenier's half-century as an editor and friend to countless legendary figures, including Albert Camus, Romain Gary, Milan Kundera, and Brassai,.

Curating Lively Objects explores the role of things as catalysts in imagining futures beyond disciplines for museums and exhibitions. Authors describe how their curatorial collaborations with diverse objects, from rocks to robots, generate new ways of organising and

sharing knowledge. Bringing together leading artists and curators from Australia and Canada, this volume addresses object liveliness from a range of entwined perspectives, including new materialism, decolonial thinking, Indigenous epistemologies, environmentalism, feminist critique and digital aesthetics. Foregrounding practice-based curatorial scholarship, the book focuses on rigorous reflexive accounts of how curating is done. It contributes to global topics in curatorial research, including time and memory beyond and before disciplinarity; the relationship between human and non-human across different ontologies; and the interaction between Indigenous knowledge and disciplinary expertise in interpreting museum collections.

Curating Lively Objects will be of interest to scholars and students in the fields of curatorial studies, museum studies, cultural heritage, art history, Indigenous studies, material culture and anthropology. It also provides a vital resource for professionals working in museums and galleries around the world who are seeking to respond creatively, ethically and inclusively to the challenge of changing disciplinary boundaries.

Culture will keep you fit and healthy.
Culture will bring communities together.
Culture will improve your education. This

is the message from governments and arts organisations across the country; however, this book explains why we need to be cautious about culture. Offering a powerful call to transform the cultural and creative industries, Culture is bad for you examines the intersections between race, class, and gender in the mechanisms of exclusion in cultural occupations. Exclusion from culture begins at an early age, the authors argue, and despite claims by cultural institutions and businesses to hire talented and hardworking individuals, women, people of colour, and those from working class backgrounds are systematically disbarred. While the inequalities that characterise both workforce and audience remain unaddressed, the positive contribution

culture makes to society can never be fully realised.

Weekly When Alizée Benoit, an American painter working for the Works Progress Administration (WPA), vanishes in New York City in 1940, no one knows what happened to her. Not her Jewish family living in German-occupied France. Not her artistic patron and political compatriot, Eleanor Roosevelt. Not her close-knit group of friends, including Mark Rothko, Jackson Pollock, and Lee Krasner. And, some seventy years later, not her great-niece, Danielle Abrams, who while working at Christie's auction house uncovers enigmatic paintings hidden behind works by those now-famous Abstract Expressionist artists. Do they hold answers to the questions surrounding her missing aunt?

"Inspiring, tragic, and at times heart-

rendingly funny." —People
Unsentimental, unexpectedly funny, and incredibly honest, *Tragedy Plus Time* is a love letter to every family that has ever felt messy, complicated, or (even momentarily) magnificent. Meet the Magnificent Cayton-Hollands, a trio of brilliant, acerbic teenagers from Denver, Colorado, who were going to change the world. Anna, Adam, and Lydia were taught by their father, a civil rights lawyer, and mother, an investigative journalist, to recognize injustice and have their hearts open to the universe—the good, the bad, the heartbreaking (and, inadvertently, the anxiety-inducing and the obsessive-compulsive disorder-fueling). Adam chose to meet life's tough breaks and cruel realities with stand-up comedy; his

older sister, Anna, chose law; while their youngest sister, Lydia, struggled to find her place in the world. Beautiful and whip-smart, Lydia was witty, extremely sensitive, fiercely stubborn, and always somewhat haunted. She and Adam bonded over comedy from a young age, running skits in their basement and obsessing over episodes of *The Simpsons*. When Adam sunk into a deep depression in college, it was Lydia who was able to reach him and pull him out. But years later as Adam's career takes off, Lydia's own depression overtakes her, and, though he tries, Adam can't return the favor. When she takes her own life, the family is devastated, and

Adam throws himself into his stand-up, drinking, and rage. He struggles with disturbing memories of Lydia's death and turns to EMDR therapy to treat his post-traumatic stress disorder when he realizes there's a difference between losing and losing it. Adam Cayton-Holland is a tremendously talented writer and comedian, uniquely poised to take readers to the edges of comedy and tragedy, brilliance and madness. *Tragedy Plus Time* is a revelatory, darkly funny, and poignant tribute to a lost sibling that will have you reaching for the phone to call your brother or sister by the last page.
