The purpose of this case study was to examine the effects of using an interactive story and questions on an iPad to improve reading comprehension versus a book and paper and pencil assessment with a 9th grade student with severe to profound developmental disabilities. The author sought to determine whether or not using the iPad increased reading comprehension skills. The student received instruction using both methods. To

determine the effectiveness of each, the percentage of questions answered correctly were compared between the two methods. Both methods included reading passages at a first grade reading level. Progress was monitored by observation and data collection of reading comprehension questions and grade level advances or regression. The study showed that using an iPad for reading instruction did increase comprehension better than the book format.

It's late summer 1793, and the streets of Philadelphia are abuzz with mosquitoes and rumors of fever. Down near the docks, many have taken ill, and the fatalities are mounting. Now they include Polly, the serving girl at the Cook Coffeehouse. But fourteen-year-old Mattie Cook doesn't get a moment to mourn the passing of her childhood playmate. New customers have overrun her family's coffee shop, located far from the mosquito-infested river, and Mattie's concerns of fever are all but overshadowed by dreams of growing her family's small business into a thriving enterprise. My Home is Far Away is the most precisely autobiographical of Powell's fifteen novels. In this family chronicle set in early twentieth century Ohio, young Marcia Willard's family struggles to keep up with the rapidly changing times, and Marcia endures disillusionment, cruelty, and betrayal to forge a survivor's sense of independence. John Updike has compared Powell with Theodore Dreiser, Willa Cather, Sherwood Anderson, "and those other Midwestern writers who felt something epic in the national shift from rural to urban, from provincial sequestration to metropolitan liberation." By 1941, when Powell set to work on My Home Is Far Away, she was better known for the smart, boozy, bawdy, hilarious send-ups of Manhattan high and low life. She had begun to attain a reputation for high sophistication and nothing could be less "sophisticated" – in the glittering, all-knowing, furiously present-tense, big-city manner Powell had perfected – than My Home Is Far Away. This was the month of cherries and peaches, of green apples beyond the grape arbor, of little dandelion ghosts in the grass, of sour grass and four-leaf clovers, of still dry heat holding the smell of nasturtiums and dying lilacs. This was the best month of all and the best day. It was not birthday, Easter, Christmas, or picnic, but all these things and something else, something wonderful, something utterly unknown. The two little girls in embroidered white Sunday dresses knew no way to express their secret joy but by whirling each other dizzily over the lawn crying, "We're moving, we're

moving! We're moving to London Junction!" My Home Is Far Away is one of the very few examples of a book written for adults, with an adult command of the language, that maintains the vantage point of a hungry, serious child throughout. It might be likened to a memoir that has been penned not with the usual tranquility of distance but rather with the sense that everything happening to the characters is happening right now, without any promise of eventual escape, without any assurance that childhood, too, shall pass away. My Home is Far Away had been out of print for sixty years when Steerforth reissued it in 1995. It received immediate widespread acclaim, and was featured on the cover of the New York Times Book Review, where Terry Teachout called it "one of the permanent masterpieces of childhood, comparable with David Copperfield, What Maisie Knew and the early reminiscences of Colette," and where he proclaimed Powell to be "one of this country's least recognized great novelists."

One of the liveliest areas of research in the social sciences is reading. Scholarly activity is currently proceeding along a number of different disciplinary lines, addressing a multitude of questions and issues about reading. A short list of disciplines involved in the study of reading would include linguistics, psychology, education, history, and gerontology. Among the important questions being addressed are some long-standing concerns: How are reading skills acquired? What are the basic components of reading skill? How do skilled readers differ from less skilled ones? What are the best ways to approach instruction for different groups of readers—young beginning readers, poor readers with learning problems, and teenage and adult illiterates? How can reading skill best be

measured—what standardized instruments and observational techniques are most useful? The large volume of textbooks and scholarly books that issue forth each year is clear evidence of the dynamic nature of the field. The purpose of this volume is to survey some of the best work going on in the field today and reflect what we know about reading as it unfolds across the life span. Reading is clearly an activity that spans each of our lives. Yet most accounts of it focus on some narrow period of development and fail to consider the range of questions that serious scholarship needs to address for us to have a richer understanding of reading. The book is divided into four parts.
