### MADILYNN ALESSANDRO

---

#### **Australian English Pronunciation and Transcription** Springer

The complete and accessible guide to learning the Maori language, no matter your knowledge level. Fun, user-friendly and relevant to modern readers, Scotty Morrison's Maori Made Easy is the one-stop resource for anyone wanting to learn the basics of the Maori language. While dictionaries list words and their definitions, and other language guides offer common phrases, Maori Made Easy connects the dots, allowing the reader to take control of their learning in an empowering way. By

committing just 30 minutes a day for 30 weeks, learners will adopt the language easily and as best suits their busy lives. Written by popular TV personality and te reo Maori advocate Scotty Morrison, author of The Raupo Phrasebook of Modern Maori, this book proves that learning the language can be fun, effective — and easy! 'This is not just a useful book, it's an essential one.' —Paul Little, North & South

*Principles and Practice in Second Language Acquisition* Waveland Press

This manual accompanies the main text which focuses on the pronunciation of English in North America as it is spoken by educated native speakers. It teaches vowels, consonants, rhythm, stress and intonation using the principles of articulatory phonetics. It includes spelling patterns.

French Made Simple Heinle & Heinle Pub

A systematic and thorough introduction to the pronunciation of English for use by intermediate and more advanced students.

### **It's No Good Unless You're Understood - Complete Program**

John Wiley & Sons

"This course offers current and prospective teachers of English a comprehensive treatment of pronunciation pedagogy, drawing on both current theory and practice. The text provides: - an overview of teaching issues from the perspective of different methodologies and second language acquisition research - innovative teaching techniques - a thorough grounding in the sound system of North American English - insight into how this sound system intersects with spelling, morphology, listening, and discourse - diagnostic tools and assessment measures - suggestions for syllabus design. Discussion questions and exercises encourage teachers to draw on their personal language learning/teaching experience as they assimilate the contents of each chapter. A training cassette offers practice in assessing learners' pronunciation"--Publishers's website.

Clear Speech Teacher's resource book Routledge

Designed to help students overcome their personal pronunciation problems, this text is suitable for either self-study or class use. Each unit includes explanations of how to produce the target sounds and focuses on possible pronunciation problems. Hints to remember pronunciation rules are given.

Research-based insights Harmony

This book is open access under a CC BY licence. It spans the areas of assessment, second language acquisition (SLA) and pronunciation and examines topical issues and challenges that relate to formal and informal assessments of second language (L2) speech in classroom, research and real-world contexts. It showcases insights from assessing other skills (e.g. listening and writing) and highlights perspectives from research in speech sciences, SLA, psycholinguistics and sociolinguistics, including lingua franca communication, with concrete implications for pronunciation assessment. This collection will help to establish commonalities across research areas and facilitate greater consensus about key issues, terminology and best practice in L2 pronunciation research and assessment. Due to its interdisciplinary nature, this book will appeal to a mixed audience of researchers, graduate students, teacher-educators and exam board staff with varying levels of expertise in pronunciation and assessment and wide-ranging interests in applied linguistics.

### **SECOND EDITION**

Penguin Random House New Zealand Limited

Reduce your accent when pronouncing English, with the expertise from an acclaimed specialist in the area. Developed by acclaimed speech consultant and accent specialist Susan Cameron, *Perfecting Your English Pronunciation* features her successful method, which focuses on the anatomical placement of sound and on the musculature used in articulation. Where other accent reduction/English pronunciation products rely on solely mimicking of audio sounds, this work focuses visually, audibly, and narratively on the physical ability to speak English, noting that many sounds of English may be difficult for you because some tongue positions used in English may not be used in your native language. The 45-minute DVD introduces you to mouth and jaw exercises to prepare you

for English, then demonstrates mouth formations and tongue placement using other nonnative speakers like you. You will see and hear how English sounds--enabling you to become more and more comfortable conversing with native English speakers as you go through the program.

Let's Talk Level 2 Student's Book with Self-study Audio CD Cambridge University Press

A new edition of our best-selling pronunciation title, now in full colour and with a new section on understanding fast, authentic speech. *English Pronunciation in Use Intermediate Second Edition* is a comprehensive reference and practice book for learners of intermediate level and above, suitable for self-study or in the classroom. This pack contains the best-selling *English Pronunciation in Use Intermediate*, four Audio CDs and a CD-ROM. The book contains 60 easy-to-use two-page units covering all aspects of pronunciation, including sounds, stress and intonation. A new section 'Understanding Pronunciation in Use' focuses on the skill of understanding pronunciation in fast speech. The Audio CDs include models for repetition and slowed-down extracts for listening. The CD-ROM provides additional exercises and a 'record yourself' feature.

Sounds, Stress, and Intonation Cambridge University Press

The best-selling *English Pronunciation in Use* is a comprehensive reference and practice book suitable for self-study or classroom work. Sixty easy-to-use units cover all aspects of pronunciation, including individual sounds, word stress, connected speech and intonation. The versions with audio CDs include audio material in a range of accents, supporting each unit. An additional reference section offers a glossary of specialized terms, help with the pronunciation of numbers and geographical names and fun exercises on phonemic symbols and minimal pairs. The version with CD-ROM provides a wide variety of additional interactive activities to reinforce the pronunciation covered in the book, as well as tests, progress checks, games and animated diagrams of the mouth showing learners how to produce individual sounds. Learners can also record themselves and compare their pronunciation with one of the many models provided.

**Buch** Cambridge University Press

*Australian English Pronunciation and Transcription* is the first textbook to clearly describe Australian English speech patterns. Now in its second edition, this ground-breaking work addresses speech production characteristics and provides detailed instruction in both phonetic and phonemic transcription of the dialect. Each chapter features practical exercises to allow readers to develop skills and test their knowledge as they progress through the text. These exercises are complemented by an extensive companion website, which contains valuable explanatory materials, audio examples and accompanying activities for students. A new assessment bank includes exercises of varying difficulty, allowing lecturers to build unique assessment tasks tailored to their students' needs. Drawing on their extensive experience as teachers and researchers in phonetics and phonology, Felicity Cox and new author Janet Fletcher have crafted a comprehensive resource that remains essential reading for students, teachers and practitioners of linguistics, speech pathology and language education.

**Test your English Vocabulary in Use Upper-Intermediate** Cambridge University Press

Student Text/Audio Tape Package for PRONOUNCING AMERICAN ENGLISH. Package includes 8 audio tapes.

*An Introductory Course for Students of English* Cambridge University Press

First published in 1981. Routledge is an imprint of Taylor & Francis, an informa company.

### ENGLISH PRONUNCIATION

Prentice Hall

In this vibrant second edition, the authors have drawn from their own multiple years of teaching and from the knowledge and ideas of 50 linguists and ESL teachers who specialize in particular languages. New to this edition is Part I, an entire section on English spelling as a morphophonemic system. Here, Nilsen and Nilsen clearly explain concepts and patterns of English spelling, pronunciation, and meaning to ease the process of learning English for non-native students as well as their teachers. In addition, the authors provide sample activities that creatively and effectively engage students in grasping a particular concept, and include illustrative examples that show English is a systemic language. In Part II, the authors provide extensive lists of both vowel and consonant contrasts, each with phonetic diagrams and descriptions, minimal pairs (both isolated and in sentences), and specific languages for which the contrast may be problematic. These valuable examples help students hear and produce pronunciation differences that are important in English and bring their pronunciation closer to that of native English speakers. Both prospective and practicing teachers will appreciate the flexibility and freedom afforded by these well-designed materials.

**Simple Ways to Spell and Speak Correctly** John Wiley & Sons

This easy-to-read pronunciation guide helps language learners speak English more clearly and confidently, using everyday language examples and special exercises for both self-study and collaborative work. It shows how speakers of English as a foreign language can avoid being misunderstood in various contexts. The book examines how the Spanish language influences English pronunciation, concentrating on 11 fundamental pronunciation issues that have been observed in Spanish speakers of all ages around the world. The online audios feature native speakers communicating in real-life words and sounds. Learners can practice their listening skills and compare their own speaking to standard English accents and pronunciation.

Multilingual Matters

With a friendly writing style and abundant illustrations, Pronunciation Made Simple (formerly English Pronunciation for International Students) helps students understand and achieve the pronunciation patterns of native English speakers. Appropriate for both classroom use and self-study, this confidence-building text motivates students to practice their skills outside the classroom.

**Pronounce it Perfectly in English** Light Messages Publishing

The present volume examines the relationship between second language practice and what is known about the process of second language acquisition, summarising the current state of second language acquisition theory, drawing general conclusions about its application to methods and materials and describing what characteristics effective materials should have. The author concludes that a solution to language teaching lies not so much in expensive equipment, exotic new methods,

or sophisticated language analysis, but rather in the full utilisation of the most important resources - native speakers of the language - in real communication.

*American English Pronunciation* Pergamon

This is the second edition of a highly successful and widely-used text on pronunciation. It provides a systematic and thorough introduction to the pronunciation of English to help intermediate and more advanced students to improve their production of the spoken language. The particular difficulties of the speakers of certain other languages are noted, including Hindi and Arabic, and remedial exercises provided.

An Introduction Createspace Independent Publishing Platform

This is the complete course; it contains Books One, Two and Three combined. The course is an accent reduction program for international speakers of English. At the same time, it is rich in both formal and informal American expressions. And it contains exercises and cultural notes prompted, for the most part, by questions from students themselves. The program is now in its second edition. It has been based on and proven successful during years of work with students from many countries. Softcover textbook with 6 audio CDs.

English Pronunciation Instruction Allyn & Bacon

The Handbook of English Pronunciation presents a comprehensive exploration of English pronunciation with essential topics for applied linguistics researchers and teachers, including language acquisition, varieties of English, historical perspectives, accent's changing role, and connections to discourse, technology, and pedagogy. Provides thorough descriptions of all elements of English pronunciation Features contributions from a global list of authors, reflecting the finest scholarship available Explores a careful balance of issues and topics important to both researchers and teachers Provides a historical understanding of the importance of pronunciation and examines some of the major ways English is pronounced today throughout the world Considers practical concerns about how research and practice interact in teaching pronunciation in the classroom

**Better English Pronunciation** Pearson Education India

English Pronunciation Instruction: Research-based insights presents recent research on L2 English pronunciation including pedagogical implications and applications, and seeks to bridge the gulf between pronunciation research and teaching practice. The volume's 15 chapters cover a range of aspects that are central to pronunciation teaching, including the teaching of different segmental and suprasegmental features, teachers' and learners' views and practices, types and sources of learners' errors, feedback and assessment, tools and strategies for pronunciation instruction, reactions towards accented speech, as well as the connection between research and teaching. Chapters offer a fully developed section on pedagogical implications with insightful suggestions for classroom instruction. This format and the variety of topics will be informative for researchers, language teachers, and students interested in English pronunciation, as it explores the diverse challenges learners of different L1 backgrounds face, and also provides research-informed techniques and recommendations on how to cope with them.
