Prepare O Bethlehem is a collection of pastoral reflections on the Scripture readings that appear during the Christmas-Epiphany season. At Christmas, we prepare to once again receive Jesus into our lives, first as an infant, but also as our Lord, King and Savior. Ultimately, however, we receive him as the Word made flesh and we have "beheld his glory, glory as of the only Son from the Father." (John 1:14). Th is Word comes to us through the very words of scripture, for it is here, in the Old and New Testaments where we encounter the good news of our salvation. As we read through the scripture lessons for Christmas, Epiphany, and the Meeting of the Lord we are reminded that we are given the greatest gift of all, who is Jesus Christ himself. Unfortunately, the true "reason for the season" is oft en forgotten as we are bombarded by a myriad of holiday planning, parties, and activities that surround the holiday season. Hopefully we can take a few precious moments out of our busy schedules and patiently read the Word of God as we once again prepare to meet our Lord and Savior Jesus Christ, the Son of God.

How we worship determines what we believe. Prosper of Aquitaine, a disciple of Augustine, once wrote ut legem credendi lex statuat supplicandi, the law of prayer determines the law of belief. This is significant for it expresses that how we pray determines what we believe. Exploring Worship engages in a comparative study of Catholic, Evangelical, and Orthodox teachings on corporate worship and suggests classic practices that help deepen the understanding and experience of worship. This is significant in at least four ways. Theologically, it contributes to the important and continuing dialogue among Catholics, Evangelicals, and Orthodox. Historically, it highlights the integrative potential between these three groups, contrary to its history of distrust and outright animosity. Spiritually, many Christians are seeking a deeper devotional expression. Exploring Worship provides an examination of worship rooted in the rich history and traditions of the Church. Pedagogically, this will suggest practices that help deepen the understanding and experience of worship. Exploring Worship invites us to more critically, intentionally, and sympathetically reflect on the ways we worship and its place in our churches.

Since its first publication thirty years ago, Timothy Ware's book has become established throughout the English-speaking world as the standard introduction to the Orthodox Church. Orthodoxy continues to be a subject of enormous interest among Western Christians, and the author believes that an understanding of its standpoint is necessary before the Roman Catholic and Protestant churches can be reunited. He explains the Orthodox views on such widely ranging matters as ecumenical councils, sacraments, free will, purgatory, the papacy and the relation between the different Orthodox churches.

The Septuagint is the term commonly used to refer to the corpus of early Greek versions of Hebrew Scriptures. The collection is of immense importance in the history of both Judaism and Christianity. The renderings of individual books attest to the religious interests of the substantial Jewish population of Egypt during the Hellenistic and Roman periods, and to the development of the Greek language in its Koine phase. The narrative ascribing the Septuagint's origins to the work of seventy translators in Alexandria attained legendary status among both Jews and Christians. The Septuagint was the version of Scripture most familiar to the writers of the New Testament, and became the authoritative Old Testament of the Greek and Latin Churches. In the early centuries of Christianity it was itself translated into several other languages, and it has had a continuing influence on the style and content of biblical translations. The Oxford Handbook of the Septuagint features contributions from leading experts in the field considering the history and manuscript transmission of the version, and the study of translation technique and textual criticism. The collection provides surveys of previous and current research on individual books of the Septuagint corpus, on alternative Jewish Greek versions, the Christian 'daughter' translations, and reception in early Jewish and Christian writers. The Handbook also includes several conversations with related fields of interest such as New Testament studies, liturgy, and art history.

A Living Continuity with the Synagogue, the Temple, and the Early Church Wm. B. Eerdmans Publishing

Drawing on the hermeneutical reflections of John Howard Yoder, Stanley Hauerwas, and Mikhail Bakhtin, Cartwright challenges the way twentieth-century American Protestants have engaged the problem of the use of scripture in Christian ethics, and issues a summons for a new debate oriented by a communal approach to hermeneutics. By analyzing particular ecclesial practices that stand within living traditions of Christianity, the politics of scriptural interpretation can be identified along with the criteria for what a good performance of scripture should be. This approach to the use of scripture in Christian ethics is displayed in historical discussions of two Christian practices through which scripture is read ecclesially: the Eastern Orthodox liturgical celebration of the Eucharist and the Anabaptist practice of binding and loosing or the rule of Christ. When American Protestants consider performances of scripture such as these alongside one another within more ecumenical contexts, they begin to confront the ecclesiological problem with their attempts to use the Bible in Christian ethics: the relative absence of constitutive ecclesial practices in American Protestant congregations that can provide moral orientation for their interpretations of Christian scripture.

The Character of David in Judaism, Christianity and Islam Fortress Press

Two thousand years ago Jesus Christ walked the earth for three years-teaching, ministering, working miracles, dying on the cross and being Resurrected from the dead. Disciples who believed He was the promised Messiah followed Him and listened to His teachings. A disciple is a student. An apostle is one who recruits disciples and teaches them to follow after Christ. After the Resurrection, Jesus commissioned His disciples to become apostles. As Christians, the first thing we are called to do is be a disciple, to learn about Christ, to believe and to follow. However, that is not all we are called to do. Like the first disciples, we are also commissioned to be apostles, to go and spread the Christian

faith to all nations. Commissioned to Be Apostles: Love, Worship, Community, Learning Service contains 151 short reflections offering practical instruction on what it means to be an apostle of Christ. It contains practical and easy ways to model and spread the message of Christianity, both in a church community and in our personal lives. It begins with the Great Commission and examines how the early church spread the message of the Gospel. It discusses our personal foundation as Christians that we receive at baptism and gives instruction on how to effectively participate in the life of the Church. Finally, it discusses how to transform the Church from what it is to what Christ intends for it to be, examining the chasm between the two and how to bridge this gulf. The title of this book reflects not only our commission to be apostles; it reflects five core values-love, worship, community, learning and service-that will help us fulfill this commission. Front-ranking theologians speak out on the crisis of biblical authority and interpretation in the church, focusing in particular on the adequacy of the historical-critical method of hermeneutics. The essays in this volume address from various perspectives the notorious gap between the historical critical approach to the study of the Bible and the church's liturgical and dogmatic transmission of biblical faith. The authors, following the central theme suggested by Brevard S. Childs's "canonical method" of biblical interpretation, argue that the historical-critical method does not suffice of itself apart from faith and the church.
