Among believers, it is no mystery that God grants us gifts to use in service of His kingdom. For those of us called to create in His name, whether we stand firmly upon a lifetime of faith or have only recently come to know our God, any bit of art, music, poetry, or prose that can touch another person's life is a treasure direct from Heaven. For some, create though we may, it can be a challenge to release our words into the world; many of us simply require a push. The Scribe is one author's response to this calling upon his life. Teeming with original poems, thought-provoking explorations of faith, and short fiction, this collection from author L.T. Judd brings together key selections from a body of work spanning decades. Whether you're looking for imaginative fiction saturated in themes of faith, essays that dig deep into a range of topics concerning the church, or verse that falls somewhere in between, The Scribe is likely to meet you where you are. Join in and see what God may have put in here just for you.

Ophthalmic Nursing provides an overview for those just setting out in a role within ophthalmic nursing. It includes basic and comprehensible anatomy and physiology – the foundations for understanding how the eye functions and why and how problems occur – and relates them to the care and needs of the patient. This accessible text includes evidence-based procedure guidelines and the inclusion of reflective activities in most chapters allows readers to apply their knowledge to the realities of the care setting. Also covered are the most recent National Institute for Health and Care Excellence (NICE) guidelines for glaucoma and age-related macular degeneration. Since the publication of the fourth edition, there have been many advances in the care and management of the ophthalmic patient. The authors have updated the chapters accordingly and included new colour images and diagrams. References, further reading and websites have also been updated to reflect current trends. A valuable resource for nurses in practice and training, this book continues to be the 'go-to' source for those caring for the ophthalmic patient.
