Studies the development of man's philosophical views of supreme beings in primitive, Eastern, and Western culture.

THE HEROINE WITH 1001 FACES

Joseph Campbell Foundation

Explore myth as a tool for personal growth and transformation Joseph Campbell famously defined myth as “other people's religion.” But he also said that one of the basic functions of myth is to help each individual through the journey of life, providing a sort of travel guide or map to reach fulfillment — or, as he called it, bliss. For Campbell, many of the world's most powerful myths support the individual's heroic path toward bliss. In Pathways to Bliss, Campbell examines this personal, psychological side of myth. Like his classic best-selling books Myths to Live By and The Power of Myth, Pathways to Bliss draws from Campbell's popular lectures and dialogues, which highlight his remarkable storytelling and ability to apply the larger themes of world mythology to personal growth and the quest for transformation. Here he anchors mythology's symbolic wisdom to the individual, applying the most poetic mythical metaphors to the challenges of our daily lives. Campbell dwells on life's important questions. Combining cross-cultural stories with the teachings of modern psychology, he examines the ways in which our myths shape and enrich our lives and shows how myth can help each of us truly identify and follow our bliss.

Sherlock Holmes HarperCollins

The Writer's Journey is an insider's guide to how master storytellers from Hitchcock to Spielberg have used mythic structure to create powerful stories. This new edition includes analyses of latest

releases such as The Full Monty.

The Mysteries Cambridge University Press

The Second Edition of Johnny Saldaña's international bestseller provides an in-depth guide to the multiple approaches available for coding qualitative data. Fully up to date, it includes new chapters, more coding techniques and an additional glossary. Clear, practical and authoritative, the book: -describes how coding initiates qualitative data analysis -demonstrates the writing of analytic memos -discusses available analytic software -suggests how best to use The Coding Manual for Qualitative Researchers for particular studies. In total, 32 coding methods are profiled that can be applied to a range of research genres from grounded theory to phenomenology to narrative inquiry. For each approach, Saldaña discusses the method's origins, a description of the method, practical applications, and a clearly illustrated example with analytic follow-up. A unique and invaluable reference for students, teachers, and practitioners of qualitative inquiry, this book is essential reading across the social sciences.

Simple Truths for Creating Happiness + Success Princeton University Press

Explore the mysteries of the feminine divine Joseph Campbell brought mythology to a mass audience. His bestselling books, including The Power of Myth and The Hero with a Thousand Faces, are the rare blockbusters that are also scholarly classics. While Campbell's work reached wide and deep as he covered the world's great mythological traditions, he never wrote a book on goddesses in world mythology. He did, however, have much to say on the subject. Between 1972 and 1986 he gave over twenty lectures and workshops on goddesses, exploring the figures, functions, symbols, and themes of the feminine divine, following them through their transformations across cultures and epochs. In this provocative volume, editor Safron Rossi—a goddess studies scholar, professor of mythology, and curator of collections at Opus Archives, which holds the Joseph Campbell archival manuscript collection and personal library—collects these lectures for the first time. In them, Campbell traces the evolution of the feminine divine from one Great Goddess to many, from Neolithic Old Europe to the Renaissance. He sheds new light on classical motifs and reveals how

the feminine divine symbolizes the archetypal energies of transformation, initiation, and inspiration.

A Skeleton Key to Finnegans Wake Crown House Publishing

In this compelling and influential work, Joseph Campbell scours the myths of the world to reveal the characteristics common to heroes from all cultures and periods.

Pathways to Bliss North Point Press

Selections from the writings of Puritans in New England in the first century of colonial life.

The Hero with a Thousand Faces Simon and Schuster

Explore the Hero's Journey in stories as old as humanity and as new as last night's dream The latest incarnation of Oedipus, the continued romance of Beauty and the Beast, stand this afternoon on the corner of 42nd Street and Fifth Avenue, waiting for the traffic light to change. — Joseph Campbell Since its release in 1949, The Hero with a Thousand Faces has influenced millions of readers by combining the insights of modern psychology with Joseph Campbell's revolutionary understanding of comparative mythology. In these pages, Campbell outlines the Hero's Journey, a universal motif of adventure and transformation that runs through virtually all of the world's mythic traditions. He also explores the Cosmogonic Cycle, the mythic pattern of world creation and destruction. As part of the Joseph Campbell Foundation's Collected Works of Joseph Campbell, this third edition features expanded illustrations, a comprehensive bibliography, and more accessible sidebars. As relevant today as when it was first published, The Hero with a Thousand Faces continues to find new audiences in fields ranging from religion and anthropology to literature and film studies. The book has also profoundly influenced creative artists—including authors, songwriters, game designers, and filmmakers—and continues to inspire all those interested in the inherent human need to tell stories. Reviews: “I have returned to no other book more often since leaving college than this one, and every time I discover new insight into the human journey. Every generation will find in Hero wisdom for the ages.” — Bill Moyers “In the three decades since I discovered The Hero with a Thousand Faces, it has continued to fascinate and inspire me. Joseph

Campbell peers through centuries and shows us that we are all connected by a basic need to hear stories and understand ourselves. As a book, it is wonderful to read; as illumination into the human condition, it is a revelation." — George Lucas "Campbell's words carry extraordinary weight, not only among scholars but among a wide range of other people who find his search down mythological pathways relevant to their lives today....The book for which he is most famous, *The Hero with a Thousand Faces* [is] a brilliant examination, through ancient hero myths, of man's eternal struggle for identity." — Time

Mythic Structure for Storytellers and Screenwriters Bollingen Foundation

The uniquely prominent role of French intellectuals in European cultural and political life following World War II is the focus of Tony Judt's newest book. He analyzes this intellectual community's most divisive conflicts: how to respond to the promise and the betrayal of Communism and how to sustain a commitment to radical ideals when confronting the hypocrisy in Stalin's Soviet Union, in the new Eastern European Communist states, and in France itself. Judt shows why this was an all-consuming moral dilemma to a generation of French men and women, how their responses were conditioned by war and occupation, and how post-war political choices have come to sit uneasily on the conscience of later generations of French intellectuals. Judt's analysis extends beyond the writings of fashionable "Existentialist" personalities such as Jean-Paul Sartre, Albert Camus, and Simone de Beauvoir to include a wide intellectual community of Catholic philosophers, non-aligned journalists, literary critics and poets, Communist and non-Communist alike. Judt treats the intellectual dilemmas of the postwar years as an unfinished history. French intellectuals have not fully come to terms with the gnawing sense of what Judt calls the "moral irresponsibility" of those years. The result, he suggests, is a legacy of bad faith and confusion that has damaged France's cultural standing, notably in newly liberated Eastern Europe, and which reflects the nation's larger difficulty in confronting its own ambivalent past.

AN EVERYMAN'S GUIDE TO A MEANINGFUL LIFE

Univ of California Press

Discover Myth "There's no one quite like Joseph Campbell. He knows the vast sweep of man's panoramic past as few men have ever known it." --The Village Voice Joseph Campbell famously compared mythology to a kangaroo pouch for the human mind and spirit: "a womb with a view." In *Myths to Live By*, he examines all of the ways in which myth supports and guides us, giving our lives meaning. Love and war, science and religion, East and West, inner space and outer space — Campbell shows how the myths we live by can reconcile all of these pairs of opposites and bring a sense of the whole. This classic has been newly illustrated and annotated in its first new edition since its original publication, which also marks the first ebook in the *Collected Works of Joseph Campbell* series. In the tradition of *The Power of Myth* and *Pathways to Bliss*, *Myths to Live By* remains one of Joseph Campbell's most enduring, popular, and accessible works.

Mythic Structure for Writers Joseph Campbell Foundation

Sherlock Holmes: The Hero With a Thousand Faces ambitiously takes on the task of explaining the continued popularity of Arthur Conan Doyle's famous detective over the course of three centuries. In plays, films, TV shows, and other media, one generation after another has reimagined Holmes as a romantic hero, action hero, gentleman hero, recovering drug addict, weeping social crusader, high-functioning sociopath, and so on. In essence, Sherlock Holmes has become the blank slate upon which we write the heroic formula that best suits our time and place. Volume One looks at the social and cultural environment in which Sherlock Holmes came to fame. Victorian novelists like Anthony Trollope and William Thackeray had pointedly written "novels without a hero," because in their minds any well-ordered and well-mannered society would have no need for heroes or heroic behavior. Unfortunately, this was at odds with a reality in which criminals like Jack the Ripper stalked the streets and people didn't trust the police, who were generally regarded as corrupt and incompetent. Into this gap stepped the world's first consulting detective, an amateur reasoner of some repute by the name of Sherlock Holmes, who shot to fame in the pages of *The Strand Magazine* in 1891. When Conan Doyle proceeded to kill Holmes off in 1893, it was American playwright, director, and actor William Gillette who brought the character back to life in his 1899 play *Sherlock Holmes*, creating a sensation on both sides of the Atlantic with his romantic version of Holmes, and cementing his place as the definitive Sherlock Holmes until the late 1930s. By that point, Sherlock Holmes had developed a cult following who facetiously maintained that Holmes was a real person, formed clubs like *The Baker Street Irregulars*, and introduced the idea of cosplay to the embryonic world of fandom. These well-educated fanboys subsequently became the

self-assigned protectors of Sherlock Holmes, anxious that their version of the character not be besmirched or defamed in any way. In spite of this, there was considerable besmirching and defaming to be seen in the early silent films featuring Sherlock Holmes, which effectively turned him into an action hero due to the lack of sound. When sound films took the industry by storm in the late 1920s, there were a numbers of pretenders who reached for the Sherlock Holmes crown, including Clive Brook, Reginald Owen, and Raymond Massey, but it took more than a decade before a new definitive Sherlock Holmes would be crowned in 1939 in the person of Basil Rathbone.

The Flight of the Wild Gander New World Library

World-renowned folklorist Maria Tatar reveals an astonishing but long buried history of heroines, taking us from Cassandra and Scheherazade to Nancy Drew and Wonder Woman. The *Heroine with 1,001 Faces* dismantles the cult of warrior heroes, revealing a secret history of heroinism at the very heart of our collective cultural imagination. Maria Tatar, a leading authority on fairy tales and folklore, explores how heroines, rarely wielding a sword and often deprived of a pen, have flown beneath the radar even as they have been bent on redemptive missions. Deploying the domestic crafts and using words as weapons, they have found ways to survive assaults and rescue others from harm, all while repairing the fraying edges in the fabric of their social worlds. Like the tongueless Philomela, who spins the tale of her rape into a tapestry, or Arachne, who portrays the misdeeds of the gods, they have discovered instruments for securing fairness in the storytelling circles where so-called women's work—spinning, mending, and weaving—is carried out. Tatar challenges the canonical models of heroism in Joseph Campbell's *The Hero with a Thousand Faces*, with their male-centric emphases on achieving glory and immortality. Finding the women missing from his account and defining their own heroic trajectories is no easy task, for Campbell created the playbook for Hollywood directors. Audiences around the world have willingly surrendered to the lure of quest narratives and charismatic heroes. Whether in the form of Frodo, Luke Skywalker, or Harry Potter, Campbell's archetypal hero has dominated more than the box office. In a broad-ranging volume that moves with ease from the local to the global, Tatar demonstrates how our new heroines wear their curiosity as a badge of honor rather than a mark of shame, and how their "mischief making" evidences compassion and concern. From Bluebeard's wife to Nancy Drew, and from Jane Eyre to Janie Crawford, women have long crafted stories to broadcast offenses in the pursuit of social justice. Girls, too, have now precociously stepped up to the plate, with Hermione Granger, Katniss Everdeen, and Starr Carter as trickster figures enacting their own forms of extrajudicial justice. Their quests may not take the traditional form of a "hero's journey," but they reveal the value of courage, defiance, and, above all, care. "By turns dazzling and chilling" (Ruth Franklin), *The Heroine with 1,001 Faces* creates a luminous arc that takes us from ancient times to the present day. It casts an unusually wide net, expanding the canon and thinking capaciously in global terms, breaking down the boundaries of genre, and displaying a sovereign command of cultural context. This, then, is a historic volume that informs our present and its newfound investment in empathy and social justice like no other work of recent cultural history.

Mythology and Personal Transformation M J F Books

Picking up the trail with the incredibly influential films of Basil Rathbone and Nigel Bruce, Volume II goes on to explore the antiheroic Sherlock Holmes films of the 1970s, and then the somewhat rocky journey of Holmes into the medium of television (actors Alan Wheatley, Douglas Wilmer, and Peter Cushing all declared their respective TV series as the worst experience of their professional careers). Television finally found its "definitive" Holmes in Jeremy Brett's portrayal for Granada Television, and then the BBC's "Sherlock" had flashed brilliantly across the cultural sky before crashing and burning in spectacular fashion. Still, despite its ignominious end, Benedict Cumberbatch's version of Sherlock Holmes quite literally changed the face of Sherlockian fandom overnight, as studious middle-aged white men now found themselves sharing uneasy ground with a younger, more diverse, and more female audience. Now a full-fledged transmedia phenomenon, Sherlock Holmes can be any gender, ethnicity, or species, and is celebrated in fan fiction and fanvids, as well as conventions that are far more inclusive than Sherlock Holmes societies of the past. Vincent Starrett's poetic notion that Sherlock Holmes is a character "who never lived and so can never die" has never been more true, and the Digital Age promises any number of new versions of Sherlock Holmes to come.

A Historical Novel Columbia University Press

In March 2017, Niamh Fitzpatrick's life fell apart overnight. Her beloved sister Dara was killed in a helicopter crash. Soon afterwards, Niamh's marriage disintegrated, and she feared she would lose

her house. Life as she knew it had ended and the loss she suffered was staggering. A psychologist for many years, Niamh's job was to guide clients through the worst times in their lives. Drawing on everything she learned, first to survive and then, in time, to begin to thrive, *Tell Me the Truth* about Loss is a psychologist's journey through loss, grief and the worst of times, while finding hope along the way. A beautiful book for when life isn't what you expect it to be.

THE HERO WITH A THOUSAND FACES

SAGE

A.J. Liebling's classic New Yorker pieces on the "sweet science of bruising" bring vividly to life the boxing world as it once was. It depicts the great events of boxing's American heyday: Sugar Ray Robinson's dramatic comeback, Rocky Marciano's rise to prominence, Joe Louis's unfortunate decline. Liebling never fails to find the human story behind the fight, and he evokes the atmosphere in the arena as distinctly as he does the goings-on in the ring—a combination that prompted *Sports Illustrated* to name *The Sweet Science* the best American sports book of all time.

A LitRPG Adventure New World Library

The national bestseller, now available in a non-illustrated, standard format paperback edition *The Power of Myth* launched an extraordinary resurgence of interest in Joseph Campbell and his work. A preeminent scholar, writer, and teacher, he has had a profound influence on millions of people—including *Star Wars* creator George Lucas. To Campbell, mythology was the "song of the universe, the music of the spheres." With Bill Moyers, one of America's most prominent journalists, as his thoughtful and engaging interviewer, *The Power of Myth* touches on subjects from modern marriage to virgin births, from Jesus to John Lennon, offering a brilliant combination of intelligence and wit. This extraordinary book reveals how the themes and symbols of ancient narratives continue to bring meaning to birth, death, love, and war. From stories of the gods and goddesses of ancient Greece and Rome to traditions of Buddhism, Hinduism and Christianity, a broad array of themes are considered that together identify the universality of human experience across time and culture. An impeccable match of interviewer and subject, a timeless distillation of Campbell's work, *The Power of Myth* continues to exert a profound influence on our culture.

Emotional Equations Oxford University Press

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

PAST IMPERFECT

Little, Brown Books for Young Readers

Hercules, Zeus, Thor, Gilgamesh—these are the figures that leap to mind when we think of myth. But to David Leeming, myths are more than stories of deities and fantastic beings from non-Christian cultures. Myth is at once the most particular and the most universal feature of civilization, representing common concerns that each society voices in its own idiom. Whether an Egyptian story of creation or the big-bang theory of modern physics, myth is metaphor, mirroring our deepest sense of ourselves in relation to existence itself. Now, in *The World of Myth*, Leeming provides a sweeping anthology of myths, ranging from ancient Egypt and Greece to the Polynesian islands and modern science. We read stories of great floods from the ancient Babylonians, Hebrews, Chinese, and Mayans; tales of apocalypse from India, the Norse, Christianity, and modern science; myths of the mother goddess from Native American Hopi culture and James Lovelock's *Gaia*. Leeming has culled myths from Aztec, Greek, African, Australian Aboriginal, Japanese, Moslem, Hittite, Celtic, Chinese, and Persian cultures, offering one of the most wide-ranging collections of what he calls the collective dreams of humanity. More important, he has organized these myths according to a number of themes, comparing and contrasting how various societies have addressed similar concerns, or have told similar stories. In the section on dying gods, for example, both Odin and Jesus sacrifice themselves to renew the world, each dying on a tree. Such traditions, he proposes, may have their roots in societies of the distant past, which would ritually sacrifice their kings to renew the tribe. In *The World of Myth*, David Leeming takes us on a journey "not through a maze of falsehood but through a marvellous world of metaphor," metaphor for "the

story of the relationship between the known and the unknown, both around us and within us." Fantastic, tragic, bizarre, sometimes funny, the myths he presents speak of the most fundamental human experience, a part of what Joseph Campbell called "the wonderful song of the soul's high adventure."

MYTHS TO LIVE BY

Gill & Macmillan Ltd

Jason wakes up in a mysterious world of magic and monsters. It's not easy making the career jump from office-supplies-store middle manager to heroic interdimensional adventurer. At least, Jason

tries to be heroic, but it's hard to be good when all your powers are evil. He'll face off against cannibals, cultists, wizards, monsters...and that's just on the first day. He's going to need courage, he's going to need wit, and he's going to need some magic powers of his own. But first, he's going to need pants. After cementing itself as one of the best-rated serial novels on Royal Road with an astonishing 13 million views, He Who Fights with Monsters is now available on Kindle. It's perfect for fans of Pirate Aba, Dakota Krout, and Luke Chmilenko.

THE HERO WITH A THOUSAND EYES

Andrews UK Limited

Literary studies are at a tipping point. . " There is broad agreement that the discipline is in "crisis" - that it is aimless, that its intellectual energy is spent, that all of the trends are bad, and that fundamental change will be required to set things right. But there is little agreement on what those changes should be, and no one can predict which way things will ultimately tip. Literature, Science, and a New Humanities represents a bold new response to the crisis in academic literary studies. This book presents a total challenge to dominant paradigms of literary analysis and offers a sweeping critique of those paradigms, and sketches outlines of a new paradigm inspired by scientific theories, methods, and attitudes.
