THE ENCYCLOPÆDIC DICTIONARY

Little, Brown

Alphabetically arranged and followed by an index of terms at the end, this handy reference of literary terms is bound to be of invaluable assistance to any student of English literature.

A Dictionary of Modern English Usage Springer Nature
Renowned scholar George Steiner explores the power and

presence of the unseen in art. "It takes someone of [his] stature to tackle this theme head-on" (The New York Times). There is a philosophical school of thought that believes the presence of God in art, literature, and music—in creativity in general—is a vacant metaphor, an eroded figure of speech, a ghost in humanity's common parlance. George Steiner posits the opposite—that any coherent understanding of language and art, any capacity to communicate meaning and feeling, is premised on God. In doing

so, he argues against the kind of criticism that obscures, instead of elucidates, meaning. From the power of language to vital philosophical tenets, *Real Presences* examines the role of meaning and of the spiritual in art throughout history and across cultures.

THE ENCYCLOPEDIA DIC DICTIONARY

A Paradigm of Comparative Lexicology

Over 15 years in the making, an unprecedented one-volume reference work. Many of today's students and teachers of literature, lacking a familiarity with the Bible, are largely ignorant of how Biblical tradition has influenced and infused English literature through the centuries. An invaluable research tool. Contains nearly 800 encyclopedic articles written by a distinguished international roster of 190 contributors. Three detailed annotated bibliographies. Cross-references throughout. *Encyclopaedic Dictionary* Wordsworth Editions

Ever since Einstein's study of Brownian Motion, scientists have understood that a little disorder can actually make systems more effective. But most people still shun disorder-or suffer guilt over the mess they can't avoid. No longer! With a spectacular array of true stories and case studies of the hidden benefits of mess, *A Perfect Mess* overturns the accepted wisdom that tight schedules, organization, neatness, and consistency are the keys to success. Drawing on examples from business, parenting, cooking, the war on terrorism, retail, and even the meteoric career of Arnold Schwarzenegger, coauthors Abrahamson and Freedman demonstrate that moderately messy systems use resources more efficiently, yield better solutions, and are harder to break than neat ones. Applying this idea on scales both large (government, society) and small (desktops, garages), *A Perfect Mess* uncovers all the ways messiness can trump neatness, and will help you assess the right amount of disorder for any system. Whether it's your company's management plan or your hallway closet that bedevils you, this book will show you why to say yes to mess.

A Paradigm of Comparative Lexicology Springfield, Mass : Merriam

Learn the language of Nebraska . . . and 49 other states With more entries than any other reference of its kind, McGraw-Hill's *Dictionary of American Idioms and Phrasal Verbs* shows you how American English is spoken today. You will find commonly used

phrasal verbs, idiomatic expressions, proverbial expressions, and clichés. The dictionary contains more than 24,000 entries, each defined and followed by one or two example sentences. It also includes a Phrase-Finder Index with more than 60,000 entries.

The ideal guide to choosing the right word. Entries go beyond the word lists of a thesaurus, explaining important differences between synonyms. Provides over 17,000 usage examples. Lists antonyms and related words.

A Sense of the World Wordsworth Editions

This book examines Larkin's evocation of place and space, along with the opportunities for self-discovery offered by the act and thought of travel. From his canonical verse to his lesser-known juvenilia and dream diaries, this title unveils a new Larkin; a man whose religious, political and ontological affiliations are often as wide-ranging and experimental as the very form and symbolic licence used to express them. Whether exploring Larkin's fondness for deictics ('pointing' words, like here/there), his fascination with death, or his interest in the sexual opportunities of an itinerant lifestyle, this monograph provides fresh critical approaches bound to appeal to established Larkin scholars and newcomers alike.

Dictionary of Modern English Grammar Cornell University Press

Many of us don't know what a homonym is, yet we use them every day. The *Wordsworth Dictionary of Homonyms*, the first of its type published in Britain, will bring enlightenment. Do you get confused between 'to', 'too' and 'two'? Do you need to know the five definitions of 'fluke'? If so, then this is the book for you. A boon for crossword addicts, a treasure trove for punsters and an endless source of fascination for anyone interested in the English language.

Webster's New Dictionary of Synonyms Springfield, Mass. : Merriam

Great writers of the past whose works we still read and love will be read forever. They will survive the test of time. We remember authors of true genius because their writings are simply the best. Or . . . might there be other reasons that account for an author's

literary fate? This original book takes a fresh look at our beliefs about literary fame by examining how it actually comes about. H. J. Jackson wrestles with entrenched notions about recognizing genius and the test of time by comparing the reputations of a dozen writers of the Romantic period—some famous, some forgotten. Why are we still reading Jane Austen but not Mary Brunton, when readers in their own day sometimes couldn't tell their works apart? Why Keats and not Barry Cornwall, who came from the same circle of writers and had the same mentor? Why not that mentor, Leigh Hunt, himself? Jackson offers new and unorthodox accounts of the coming-to-fame of some of Britain's most revered authors and compares their reputations and afterlives with those of their contemporary rivals. What she discovers about trends, champions, institutional power, and writers' conscious efforts to position themselves for posterity casts fresh light on the actual processes that lead to literary fame.

The Encyclopaedic Dictionary Wm. B. Eerdmans Publishing German Dictionary.

Encyclopedia of Language & Linguistics Routledge

This work of fiction is a tale of pirates and villains, maps, treasure and shipwreck. When young Jim Hawkins finds a package in Captain Flint's sea chest, he could not know that the map inside it would lead him to unimaginable treasure. Mutiny and mayhem ensue.

Whitaker's Books in Print Wordsworth Editions

This monumental collection of new and recent essays from an international team of eminent scholars represents the best contemporary critical thinking relating to both literary and philosophical studies of literature. law, the media, medicine & computer science. The most authoritative, up-to-date, comprehensive, and international reference source in its field

A COMPANION TO THE PHILOSOPHY OF LITERATURE

Wordsworth Editions

guide to precise phrases, grammar, and pronunciation can be key; it can even be admired. But beloved? Yet from its first appearance in 1926, Fowler's was just that. Henry Watson Fowler initially aimed his Dictionary of Modern English Usage, as he wrote to his publishers in 1911, at "the half-educated Englishman of literary proclivities who wants to know Can I say so-&-so?" He was of course obsessed with, in Swift's phrase, "proper words in their proper places." But having been a schoolmaster, Fowler knew that liberal doses of style, wit, and caprice would keep his manual off the shelf and in writers' hands. He also felt that description must accompany prescription, and that advocating pedantic "superstitions" and "fetishes" would be to no one's advantage. Adepts will have their favorite inconsequential entries - from burgle to brood, truffle to turgid. Would that we could quote them all, but we can't resist a couple.

Merriam-Webster's Dictionary of Synonyms Merriam-Webster Clarifies the distinctions between synonyms, explains the differences in their shades of meaning, and illustrates their use in sample sentences.

THE IMPERIAL ENCYCLOPAEDIC DICTIONARY

Wordsworth Editions

This book is a study of voice in poetry, beginning in the 1920s

when modernism rose to the surface of poetry and other arts, and when radio expanded suddenly in the United States.

The Encyclopaedic Dictionary Yale University Press

Intended to bridge the gap between two languages of the Indo-European family, this is the first comprehensive bifocal approach to lexicological aspects. Through its theoretical distinctions and applications, the book recommends itself to language professionals and to any reader interested in learning more about words. It starts with a brief theoretical account of overlapping terms, which are given crystal-clear disambiguations. The book then focuses on structural representations of word formations and word relationships, outlining their hierarchicalness and branching directions and revealing various levels of materialization entailed by lexical productivity and frequency of occurrence. Each of these hierarchies defines its related techniques and explains lexical creations, adaptations or adoptions and interrelationships. The approach adopted here proves English to be consistent with formative and sense-related hierarchies, and shows it to have reached a climax in language evolution with its status of a global language, making it the standard in comparative linguistics.

A Dictionary of Biblical Tradition in English Literature

This dictionary aims to help users to find the most appropriate word to use on a wide range of occasions. It is designed in particular for students, those writing reports, letters and speeches, and crossword solvers, but is also useful as a general word reference. Special features include: an alphabetical A-Z listing; numbered senses for words with more than one meaning; British and American variants; and specially marked colloquial uses.
