With a Voice of Singing Simon and Schuster

“A smart, rich country noir” from the acclaimed author Kentucky Straight and The Good Brother (Stewart O’Nan, bestselling author of Henry, Himself). Chris Offutt is an outstanding literary talent, whose work has been called “lean and brilliant” (The New York Times Book Review) and compared by reviewers to Tobias Wolff, Ernest Hemingway, and Raymond Carver. He’s been awarded the

Whiting Writers Award for Fiction/Nonfiction and the American Academy of Arts and Letters Fiction Award, among numerous other honors. His first work of fiction in nearly two decades, Country Dark is a taut, compelling novel set in rural Kentucky from the Korean War to 1970. Tucker, a young veteran, returns from war to work for a bootlegger. He falls in love and starts a family, and while the Tuckers don’t have much, they have the love of their home and each other. But when his family is threatened, Tucker is pushed into violence, which changes everything. The story of people living off the land and by their wits in a backwoods Kentucky world of shine-runners and laborers

whose social codes are every bit as nuanced as the British aristocracy, Country Dark is a novel that blends the best of Larry Brown and James M. Cain, with a noose tightening evermore around a man who just wants to protect those he loves. It reintroduces the vital and absolutely distinct voice of Chris Offutt, a voice we’ve been missing for years. “[A] fine homage to a pocket of the country that’s as beautiful as it is prone to tragedy.”—The Wall Street Journal “A pleasure all around.”—Daniel Woodrell, author of Winter’s Bone

Notes from the Hyena's Belly The Jedburghs Ghettostadt is the terrifying examination of the Jewish ghetto's

place in the Nazi worldview. Exploring ghetto life in its broadest context, it deftly maneuvers between the perspectives and actions of Łódź's beleaguered Jewish community, the Germans who oversaw and administered the ghetto's affairs, and the "ordinary" inhabitants of the once Polish city.

On her thirtieth birthday, Gwendolyn Reese receives an unexpected present from her widowed Aunt Bea: a grand tour of Europe in the company of Bea's Sudoku and Mahjongg Club. The prospect isn't entirely appealing. But when the gift she is expecting--an engagement ring from her boyfriend--doesn't materialize, Gwen decides to go. At first, Gwen approaches the trip as if it's the math homework she assigns her students, diligently checking monuments off her must-see list. But amid the bougainvillea and stunning vistas of southern Italy, something changes. Gwen begins to live in the moment--skipping down stone staircases in Capri, running her fingers over a glacier in view of the Matterhorn, racing through the Louvre, and taste-testing pastries at a Marseilles cafe. Reveling in every new experience--especially her attraction to a charismatic British physics professor--Gwen discovers that the ancient wonders around her are nothing compared to the renaissance unfolding within. . . "A thinking woman's love story, it swept me away to

breathtaking places with a cast of endearing characters I won't soon forget. Bravissima!" --Susan McBride, author of *Little Black Dress* Praise for Marilyn Brant's *According to Jane* "A warm, witty and charmingly original story." --Susan Wiggs, *New York Times* bestselling author "Brant infuses her sweetly romantic and delightfully clever tale with just the right dash of Austen-esque wit." --Chicago Tribune "An engaging read for all who have been through the long, dark, dating wars, and still believe there's sunshine, and a Mr. Darcy, at the end of the tunnel." --Cathy Lamb, author of *Such a Pretty Face*

The Writing Teacher's Companion Henry Holt and Company (BYR)

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the *Guide to Imagery* series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

As human beings we are constantly engaging and disengaging in everything we do. We engage and disengage at work, in marriage, as parents, in our quest for health and well-being, in personal finances, environmentally, politically, and, of course, we engage or disengage spiritually. If you walk into any Catholic church next Sunday and look around, you will discover that some people are highly engaged, others are massively disengaged, and the majority are somewhere in between. Why? What is the difference between highly engaged Catholics and disengaged Catholics? Answering this question is essential to the future of the Catholic Church. If we truly want to engage Catholics and reinvigorate parish life, we must first discover what drives engagement among Catholics. Matthew Kelly explores this question in his groundbreaking new book, and the simplicity of what he discovers will amaze you. Four things make the difference between highly engaged Catholics and disengaged Catholics: the four signs of a Dynamic Catholic. Whether you are ready to let God take your spiritual life to the next level or want to help reinvigorate your parish, *The Four Signs of a Dynamic Catholic* promises to take you on a journey that will help you live out the genius of Catholicism in your everyday life.

"A CRACKING-GOOD READ!"-- People, Best New Books A deft and irresistible retelling of Charlotte Brontë's beloved classic Jane Eyre--from the point of view of the dashing, mysterious Mr. Rochester himself. For 170 years, Edward Fairfax Rochester has stood as one of literature's most complex and captivating romantic heroes. Sometimes cruel, sometimes tender, Jane Eyre's mercurial master at Thornfield Hall has mesmerized, beguiled, and, yes, baffled fans of Charlotte Brontë's masterpiece for generations. But his own story has never been told. We first meet this brilliant, tormented hero as a motherless boy roaming Thornfield's lonely corridors. On the morning of Edward's eighth birthday, his father issues a decree: He is to be sent away to get an education, exiled from all he ever loved. Young Edward's journey will take him across working-class England and the decadence of continental Europe before he lands on the warm, languid shores of faraway Jamaica, where his inheritance lies. That island, however, holds secrets of its own, and Edward soon grows entangled in morally dubious business dealings and a

passionate, whirlwind love affair with the town's ravishing heiress, Bertha Antoinetta Mason. Eventually, in the wake of a devastating betrayal, Edward must return to England with his increasingly unstable wife to take over as master of Thornfield. And it is there, on a twilight ride, that he meets the stubborn, plain young governess who will steal his heart and teach him how to love again. Mr. Rochester is a sweeping coming-of-age story and a stirring tale of adventure, romance, and deceit. Faithful in every particular to Brontë's original yet full of unexpected twists and riveting behind-the-scenes drama, this novel will completely, deliciously, and forever change how we read and remember Jane Eyre.

The story of the Special Forces in World War II has never fully been told before. Information about them began to be declassified only in the 1980s. Known as the Jedburghs, these Special Forces were selected from members of the British, American, and Free French armies to be dropped in teams of three deep behind German lines. There, in preparation for D-Day, they carried out what we now know as unconventional warfare: supporting the French Resistance in guerrilla attacks, supply-route disruption, and the harassment and obstruction of German reinforcements. Always, they operated against extraordinary odds. They had to be prepared to survive pitched battles with German troops and Gestapo manhunts for weeks and months while awaiting the arrival of Allied ground forces. They were, in short, heroes. The Jedburghs finally tells their story and offers a new perspective on D-Day itself. Will Irwin has selected seven of the Jedburgh teams and told their stories as gripping personal narratives. He has gathered archival documents, diaries and correspondence, and interviewed Jed veterans and family members in order to present this portrait of their crucial role - a role recognized by Churchill

and Eisenhower - in the struggle to liberate Europe in 1944-45. This is narrative history at its most compelling; a vivid drama of the battle for France from deep behind enemy lines.

Success and career growth in academic life depend upon reaching and influencing the widest audience possible. To do so, scientists strive to develop personalized trust. They do so by establishing a large number of connections through networking and also through the strength of their arguments and the validity and reliability of their research. To secure increasingly rare tenure positions and achieve salary increases, promotions, and recognition, scholars place themselves on a continuum of priorities ranging from total emphasis on networking to complete focus on advancing knowledge, trying to find some middle ground between the two extremes. Anton Oleinik argues that when scholars prioritize networking, science reproduces features of a "small world," in which personal connections prevail. Who knows whom matters more than who knows what. In this scenario, one's status derives more from affiliation with a specific group of scholars or a particular university than from contributing to advancing knowledge. Acknowledging that it would be a mistake to consider networking the main source of evils in science, Oleinik instead criticizes the decisions scholars make while struggling to find that middle ground between networking and advancing knowledge, and managing conflicts between these priorities. The fierce competition for increasingly scarce research funds, and the difficulty of finding jobs in academia underlines the growing importance of the choices made by an academic. Though Oleinik focuses particularly on the social sciences, his ideas are just as relevant to other disciplinary areas.
