*USA Stars & Lights* A&C Black United States Lighthouse Society photographer David Zapatka travels to 17 states capturing historic beacons from when they have always been meant to be seen: at night, under glorious star-filled skies. Follow David on his journeys as he recounts the perils of visiting unfamiliar locations deep into the night: marvel at the wonderful historic architecture of our nation's lighthouses; and learn the fascinating history of more than 160 beautiful towers. This followup to *Stars & Lights: Darkest of Dark Nights*, is David's second photography coffee table book, and is a perfect compliment as he presents dozens of unique lighthouse images never before published. Now a collaboration with the United States Lighthouse Society, the photographs are presented as individual portraits followed by tales of nighttime adventures.

**Dreams and Realities** Princeton University Press

In this revisionary study, Barbara Foley challenges prevalent myths about left-wing culture in the Depression-era U.S. Focusing on a broad range of proletarian novels and little-known archival material, the author recaptures an important literature and rewrites a segment of American cultural history long obscured and distorted by the anti-Communist bias of contemporaries and critics. Josephine Herbst, William Attaway, Jack

Conroy, Thomas Bell and Tillie Olsen, are among the radical writers whose work Foley reexamines. Her fresh approach to the U.S. radicals' debates over experimentalism, the relation of art to propaganda, and the nature of proletarian literature recasts the relation of writers to the organized left. Her grasp of the left's positions on the "Negro question" and the "woman question" enables a nuanced analysis of the relation of class to race and gender in the proletarian novel. Moreover, examining the articulation of political doctrine in different novelistic modes, Foley develops a model for discussing the interplay between politics and literary conventions and genres. *Radical Representations* recovers a literature of theoretical and artistic value meriting renewed attention from those interested in American literature, American studies, the U. S. left, and cultural studies generally.

*Bulletin of the Public Library of the City of Boston* Hudson Hills

In contemporary societies privatization has long ceased to be just an economic concept; rather, it must increasingly be made to refer to the ongoing shrinking of the public space under the impact of the representation of individual lives and images, which cuts across all discourses, genres and media to become one of the primary means of production of culture. This volume is intended to cover such an historical, social and intellectual ground, where self-representation comes to the fore. Targeting mostly an academic readership but certainly also of interest to the general educated public, it collects a wide range of essays dealing

with diverse modes of life writing and portraying from a variety of perspectives and focusing on different historical periods and media. It thus offers itself as a major contribution to a better understanding of the world we live in: its past legacy and present configuration.

Finalist for the 2016 Dorothea

Lange/Paul Taylor Prize Featured on The Washington Post, The Daily Mail, and The Huffington Post, USA Today,

Business Insider, Refinery29 Based on the popular online photo series and now published in print for the first time, The Debt Project collects 99 portraits of debt across the US, featuring people of all different backgrounds and stories, to recontextualize an often stigmatized experience. In 2012, Brittany Powell made the difficult decision to file for bankruptcy for her photography business. She found herself in a significant amount of debt, a position many Americans across the country still share, a common yet isolating and private experience often steeped in shame. Her personal experience, bolstered by the 99-Percent movement, brought her to start The Debt Project, an exploration of the role debt and finance plays in our personal identity and social structure. This book presents an intimate look into 99 different lives: each shares an arrestingly honest portrait in the person's home, surrounded by all their belongings, accompanied by a handwritten note of the amount of debt that person is in and the story behind the numbers. The Debt Project, with a foreword by writer and filmmaker Astra Taylor, examines the social and personal hold debt has on us and invites others into a private world, while at the same empowering people to share their stories and overcome the shame they may feel.

A gorgeous publication that reveals the historical importance of first ladies through portraiture. Each first lady has brought her own priorities and flair to the position that has never been officially defined. They have served as hostesses, trendsetters, activists, and political players. First Ladies of the United States features 84 portraits of the nation's first ladies, as varied in style and representation as the individual women they depict. From watercolors and oil paintings to engravings and photographs, this book celebrates the legacy of first ladies throughout history. First ladies are some of the most scrutinized public figures in the country, praised or criticized on everything from their fashion to their level of political involvement. There's no better way to explore their visibility and lasting impact than with First Ladies of the United States, which places remarkable portraits alongside an insightful essay and lively entries that illuminate the history of the women who have shaped the White House.

"This is the first study of the portraits Barack Obama (2018) and Michelle Obama (2018), their reception, and their significance. The book includes essays by historians examining the influence of the paintings and what they reveal about contemporary portraiture, particularly in relation to American and African American history and culture. The book also features interviews with the artists, transcripts of the remarks made by the Obamas at the unveiling, and a selection

of images, including behind-the-scenes photography by Pete Souza, the official photographer for the Obamas, made during the portrait sittings"--

Here's Looking at You: Hollywood, Film & Politics examines the tangled relationship between politics and Hollywood, which manifests itself in celebrity involvement in political campaigns and elections, and in the overt and covert political messages conveyed by Hollywood films. The book's findings contradict the film industry's assertion that it is simply in the entertainment business, and examines how, while the majority of Hollywood films are strictly commercial ventures, hundreds of movies - ranging from Birth of a Nation to Fahrenheit 9/11 - do indeed contain political messages. Here's Looking at You serves as a basic

text for political film courses and as a supplement in American government and film studies courses, and will also appeal to film buffs and people in the film industry.

#1 NEW YORK TIMES BESTSELLER • In this powerful new collection of oil paintings and stories, President George W. Bush spotlights the inspiring journeys of America's immigrants and the contributions they make to the life and prosperity of our nation. The issue of immigration stirs intense emotions today, as it has throughout much of American history. But what gets lost in the debates about policy are the stories of immigrants themselves, the people who are drawn to America by its promise of economic opportunity and political and religious freedom—and who strengthen our nation in countless ways. In the tradition of Portraits of Courage, President Bush's #1 New York Times bestseller, *Out of Many, One* brings together forty-three full-color portraits of men and women who have immigrated to the United States, alongside stirring stories of the unique ways all of them are pursuing the American Dream. Featuring men and women from thirty-five countries and nearly every region of the world, *Out of Many, One* shows how hard work, strong values, dreams, and determination know no borders or boundaries and how immigrants embody values that are often viewed as distinctly American: optimism and gratitude, a willingness to strive and to risk, a deep sense of patriotism, and a spirit of self-reliance that runs deep in our immigrant heritage. In these pages, we meet a North Korean refugee fighting for human

rights, a Dallas-based CEO who crossed the Rio Grande from Mexico at age seventeen, and a NASA engineer who as a girl in Nigeria dreamed of coming to America, along with notable figures from business, the military, sports, and entertainment. President Bush captures their faces and stories in striking detail, bringing depth to our understanding of who immigrants are, the challenges they face on their paths to citizenship, and the lessons they can teach us about our country's character. As the stories unfold in this vibrant book, readers will gain a better appreciation for the humanity behind one of our most pressing policy issues and the countless ways in which America, through its tradition of welcoming newcomers, has been strengthened by those who have come here in search of a better life.

After a sunset concert at the pavilion, they walked home by the harbor. Finn asked her to sit for a while with him, and then he declared himself. He took her hand and said, "Molly, my beautiful one, I have loved you from the time I moved into your family's house. I can't hold back any longer, and I am asking if you would consider being my wife." Her eyes widened with surprise, and then she said, "I love you more than anything, and I want to be with you forever."

**Here's Looking at You** Springer  
#1 NEW YORK TIMES BESTSELLER • A vibrant collection of oil paintings and stories by President George W. Bush honoring the sacrifice and courage of America's military veterans. With Forewords by former First Lady Laura Bush and General Peter Pace, 16th Chairman of the Joint Chiefs of Staff. Growing out of President Bush's own outreach and the ongoing work of the George W. Bush Institute's Military Service Initiative, *Portraits of Courage* brings together sixty-six full-color portraits and a four-panel mural painted by President Bush of members of the United States military who have served our nation with honor since 9/11—and

whom he has come to know personally. Our men and women in uniform have faced down enemies, liberated millions, and in doing so showed the true compassion of our nation. Often, they return home with injuries—both visible and invisible—that intensify the challenges of transitioning into civilian life. In addition to these burdens, research shows a civilian-military divide. Seventy-one percent of Americans say they have little understanding of the issues facing veterans, and veterans agree: eighty-four percent say that the public has "little awareness" of the issues facing them and their families. Each painting in this meticulously produced hardcover volume is accompanied by the inspiring story of the veteran depicted, written by the President. Readers can see the faces of those who answered the nation's call and learn from their bravery on the battlefield, their journeys to recovery, and the continued leadership and contributions they are making as civilians. It is President Bush's desire

that these stories of courage and resilience will honor our men and women in uniform, highlight their family and caregivers who bear the burden of their sacrifice, and help Americans understand how we can support our veterans and empower them to succeed. President Bush will donate his net author proceeds from PORTRAITS OF COURAGE to the George W. Bush Presidential Center, a non-profit organization whose Military Service Initiative works to ensure that post-9/11 veterans and their families make successful transitions to civilian life with a focus on gaining meaningful employment and overcoming the invisible wounds of war.
