Marketing attempts to influence the way consumers behave. These attempts have implications for the organizations making the attempt, the consumers they are trying to influence, and the society in which these attempts occur. We are all consumers and we are all members of society, so consumer

behavior, and attempts to influence it, are critical to all of us. This text is designed to provide an understanding of consumer behavior. This understanding can make us better consumer, better marketers, and better citizens. A primary purpose of this text is to provide the student with a usable, managerial understanding of consumer behavior.-Pref.

This work shows how the various elements of consumer analysis fit together in an integrated framework, called the Wheel of Consumer Analysis. Psychological, social and behavioural theories are shown as useful for understanding consumers and developing more effective marketing strategies. The aim is to enable students to develop skills in analyzing consumers from a marketing management perspective and in using this knowledge to develop and evaluate marketing strategies. The text identifies three groups of concepts - affect and cognition, behaviour and the environment - and shows how these they influence each other as well as marketing strategy. The focus of the text is managerial, with a distinctive emphasis on strategic issues and problems. Cases and questions are included in each chapter.

Having a grasp on what appeals to consumers and how consumers are making purchasing decisions is essential to the success of any organization that thrives by offering a product or service. Despite the importance of consumer knowledge and understanding, research-based insight into the buying patterns and consumption habits of individuals in emerging nations remains limited. The Handbook of Research on Consumerism and Buying Behavior in Developing Nations takes a critical look at the often overlooked opportunities available for driving consumer demand and interest in developing countries. Emphasizing the power of the consumer market in emerging economies and their overall role in the global market system, this edited volume features research-based perspectives on consumer perception, behavior, and relationship management across industries. This timely publication is an essential resource for marketing professionals, consumer researchers, international business strategists, scholars, and graduate-level students.
