What we can do when there's no plan B. Based on the hit ABC series - don't leave earth without it Most Australians accept that climate change is real. However, many of us don't know what we can do about it and feel powerless about how to make a difference. In Fight for Planet A, the book of the hugely popular 3-part ABC series of the same name, presenter Craig Reucassel explores solutions and practical day-to-day changes that each and every one of us can make to reduce our carbon footprint and help minimise the impact of climate change. Looking at our relationship with food, energy and transport, the former Chaser comedian and presenter of the enormously popular War

on Waste ABC series demonstrates the scale of the problem and a myriad of solutions in ways that are entertaining, informative, emotionally engaging and, best of all, easy to understand. Fight for Planet A will contain far more info than the show: one problem Reucassel encountered while making the series was how much he had to leave out.
