Although Herman Melville's *Moby-Dick* is beloved as one of the most profound and enduring works of American fiction, we rarely consider it a work of nature writing—or even a novel of the sea. Yet Pulitzer Prize-winning author Annie Dillard avers *Moby-Dick* is the “best book ever written about nature,” and nearly the entirety of the story is set on the waves, with scarcely a whiff of land. In fact, Ishmael's sea yarn is in conversation with the nature writing of Emerson and Thoreau, and Melville himself did much more than live

for a year in a cabin beside a pond. He set sail: to the far remote Pacific Ocean, spending more than three years at sea before writing his masterpiece in 1851. A revelation for *Moby-Dick* devotees and neophytes alike, Ahab's *Rolling Sea* is a chronological journey through the natural history of Melville's novel. From white whales to whale intelligence, giant squids, barnacles, albatross, and sharks, Richard J. King examines what Melville knew from his own experiences and the sources available to a reader in the mid-1800s, exploring how and why Melville might have twisted what was known to serve his fiction. King then climbs to the

crow's nest, setting Melville in the context of the American perception of the ocean in 1851—at the very start of the Industrial Revolution and just before the publication of *On the Origin of Species*. King compares Ahab's and Ishmael's worldviews to how we see the ocean today: an expanse still immortal and sublime, but also in crisis. And although the concept of stewardship of the sea would have been entirely foreign, if not absurd, to Melville, King argues that Melville's narrator Ishmael reveals his own tendencies toward what we would now call environmentalism. Featuring a coffer of illustrations and an array of interviews with contemporary

scientists, fishers, and whale watch operators, Ahab's Rolling Sea offers new insight not only into a cherished masterwork and its author but also into our evolving relationship with the briny deep—from whale hunters to climate refugees.

*Moby-Dick; or, The Whale* (1851) is a novel by Herman Melville considered an outstanding work of Romanticism and the American Renaissance. Ishmael narrates the monomaniacal quest of Ahab, captain of the whaler *Pequod*, for revenge on Moby Dick, a white whale that on a previous voyage destroyed Ahab's ship and severed his leg at the knee. Although the

novel was a commercial failure and out of print at the time of the author's death in 1891, its reputation as a Great American Novel grew during the 20th century. William Faulkner confessed he wished he had written it himself, and D. H. Lawrence called it "one of the strangest and most wonderful books in the world", and "the greatest book of the sea ever written". "Call me Ishmael" is one of world literature's most famous opening sentences.

Historien om en ærlig overbevisende galning forfølger en uhellig krig mod en væsen som stor og farlig og uvidende som havet

selv. Men mere end blot en roman af eventyr, mere end en encyklopædi af hvalfangst lore og legende, kan bogen ses som en del af forfatterens livslange meditation på Amerika. Skrevet med vidunderligt redemptive humor, er hvalen også en dybtgående undersøgelse af karakter, tro og naturens opfattelse.

### **Queequeg's Coffin**

Univ of California Press  
In The Errant Art of "Moby-Dick," one of America's most distinguished critics reexamines Melville's monumental novel and turns the occasion into a meditation on the history and implications of canon formation. In Moby-Dick—a work virtually ignored and

discredited at the time of its publication—William V. Spanos uncovers a text remarkably suited as a foundation for a "New Americanist" critique of the ideology based on Puritan origins that was codified in the canon established by "Old Americanist" critics from F. O. Matthiessen to Lionel Trilling. But Spanos also shows, with the novel still as his focus, the limitations of this "New Americanist" discourse and its failure to escape the totalizing imperial perspective it finds in its predecessor. Combining Heideggerian ontology with a sociopolitical perspective derived primarily from Foucault, the reading of *Moby-Dick* that forms the center of this

book demonstrates that the traditional identification of Melville's novel as a "romance" renders it complicitous in the discourse of the Cold War. At the same time, Spanos shows how New Americanist criticism overlooks the degree to which *Moby-Dick* anticipates not only America's self-representation as the savior of the world against communism, but also the emergent postmodern and anti-imperial discourse deployed against such an image. Spanos's critique reveals the extraordinary relevance of Melville's novel as a post-Cold War text, foreshadowing not only the self-destructive end of the historical formation of the American cultural

identity in the genocidal assault on Vietnam, but also the reactionary labeling of the current era as "the end of history." This provocative and challenging study presents not only a new view of the development of literary history in the United States, but a devastating critique of the genealogy of ideology in the American cultural establishment.

Ignoring prophecies of doom, the seafarer Ishmael joins the crew of a whaling expedition that is an obsession for the ship's captain, Ahab. Once maimed by the White Whale, Moby Dick, Ahab has set out on a voyage of revenge. With godlike ferocity, he surges into dangerous waters-- immune to the madness of his vision, refusing to be bested by the forces of nature. An exhilarating whaling yarn, an apocalyptic theodicy, a tragic confessional, and a profound allegory, *Moby Dick* encompasses all that it means to be human-- from the physical and metaphysical to the spiritual and emotional. Full of strange wisdom and wild digressive energy, it's a singular literary performance

universally regarded as one of the great American novels.

It was an obsession that would destroy them all... On a cold December night, a young man called Ishmael rents a room at an inn in Massachusetts. He has come from Manhattan to the north-east of America to sign up for

a whaling expedition.

Later that same night, as Ishmael is sleeping, a heavily tattooed man wielding a blade enters his room. This chance meeting is just the start of what will become the greatest adventure of his life.

The next day, Ishmael joins the crew of a ship known as the *Pequod*. He is approached by a man dressed in rags who warns him that, if he sails under the command of Captain Ahab, he may never come back.

Undaunted, Ishmael returns early the next morning and leaves for the high seas. For the crew of the *Pequod*, their voyage is one of monetary gain. For Captain Ahab, however, it is a mission driven by hatred, revenge, and his growing obsession with

the greatest creature of the sea.

Exerpt: "Consider the subtleness of the sea; how its most dreaded creatures glide under water, unapparent for the most part, and treacherously hidden beneath the loveliest tints of azure.....

Consider all this; and then turn to this green, gentle , and most docile earth; consider them both, the sea and the land; and do you not find a strange analogy to something in yourself?" ### **A GRAND OPERA FOR THE 21ST CENTURY**

Routledge  
The confrontation between European and native peoples in the Americas is often portrayed as a conflict between literate civilization and illiterate savages. That perception ignores the many indigenous forms of writing that were not alphabet-based, like Mayan pictographs, Iroquois wampum, Ojibwe birchbark scrolls, and Incan quipus. Queequeg's Coffin offers a new definition of writing that comprehends the dazzling diversity of

literature in the Americas before and after European arrivals. From a 1645 French-Haudenosaunee Peace Council to Herman Melville's youthful encounters with Polynesian "hieroglyphics," this groundbreaking study recovers previously overlooked moments of textual reciprocity in the colonial sphere. By recovering the literatures and textual practices that were indigenous to the Americas, Brigit Brander Rasmussen reimagines the colonial conflict as one organized by alternative but equally rich forms of literacy. From Central Mexico to the Northeastern shores, in the Andes and across the American continents, indigenous people and

European newcomers engaged each other in dialogues about ways of writing and recording knowledge. In Queequeg's Coffin, such exchanges become the foundation for a new kind of early American literary studies.

Moby Dick

Well over a century after its publication, Moby-Dick still stands as an indisputable literary classic. It is the story of an eerily compelling madman pursuing an unholy war against a creature as vast and dangerous and unknowable as the sea itself. But more than just a novel of adventure, more than an encyclopedia of whaling lore and

legend, Moby-Dick is a haunting, mesmerizing, and important social commentary populated with several of the most unforgettable and enduring characters in literature. Written with wonderfully redemptive humor, Moby-Dick is a profound and timeless inquiry into character, faith, and the nature of perception. No composer contributed more to film than Bernard Herrmann, who in over 40 scores enriched the work of such directors as Orson Welles, Alfred Hitchcock, François Truffaut, and Martin Scorsese. In this first major biography of the composer, Steven C. Smith explores the interrelationships between Herrmann's music and his turbulent personal life, using much previously unpublished information to illustrate Herrmann's often outrageous behavior, his working methods, and why his music has

had such lasting impact. From his first film (Citizen Kane) to his last (Taxi Driver), Herrmann was a master of evoking psychological nuance and dramatic tension through music, often using unheard-of instrumental combinations to suit the dramatic needs of a film. His scores are among the most distinguished ever written, ranging from the fantastic (Fahrenheit 451, The Day the Earth Stood Still) to the romantic (Obsession, The Ghost and Mrs. Muir) to the terrifying (Psycho). Film was not the only medium in which Herrmann made a powerful mark. His radio broadcasts included Orson Welles's Mercury Theatre on the Air and

The War of the Worlds. His concert music was commissioned and performed by the New York Philharmonic, and he was chief conductor of the CBS Symphony. Almost as celebrated as these achievements are the enduring legends of Herrmann's combativeness and volatility. Smith separates myth from fact and draws upon heretofore unpublished material to illuminate Herrmann's life and influence. Herrmann remains as complex as any character in the films he scored—a creative genius, an indefatigable musicologist, an explosive bully, a generous and compassionate man who desperately sought friendship and love. Films scored by Bernard Herrmann:

Citizen Kane, The Ghost and Mrs. Muir, Vertigo, Psycho, Fahrenheit 451, Taxi Driver, The Magnificent Ambersons, The Man Who Knew Too Much, North By Northwest, The Birds, The Snows of Kilimanjaro, Cape Fear, Marnie, Torn Curtain, among others
