"Rivers at the End of the End of Nature in the Anthropocene: Ethical Trajectories of Grand Narrative or Dramatic Accounts of the Place of the Human." Celia Deane-Drummond | Center for Theology, Science, and ... According to authors Calvin Mercer and Tracy J. Trothen there is tension between religion and transhumanists, particularly the Abrahamic traditions, with regards to morphological freedom. While religion generally recognizes the need to heal people and improve their situation from a medical perspective they are generally hesitant to promote a wholesale modification of the body as they see it ultimately belonging to their god. Morphological freedom - Wikipedia This collection vigorously addresses the religious implications of extreme human enhancement technology. Topics covered include cutting edge themes, such as moral enhancement, common ground to both transhumanism and religion, the meaning of death, desire and transcendence, and virtue ethics. Religion and Human Enhancement - Death, Values, and ... A belief of counter-transhumanism is that transhumanism can cause unfair human enhancement in many areas of life, but specifically on the social plane. This can be compared to steroid use, where athletes who use steroids in sports have an advantage over those who do not.
