When an unidentified 'monster' threatens international shipping, French oceanographer Pierre Aronnax and his unflappable assistant Conseil join an expedition organized by the US Navy to hunt down and destroy the menace. After months of fruitless searching, they finally grapple with their quarry, but Aronnax, Conseil, and the brash Canadian harpooner Ned Land are thrown overboard in the attack, only to find that the 'monster' is actually a futuristic

submarine, the Nautilus, commanded by a shadowy, mystical, preternaturally imposing man who calls himself Captain Nemo.

Penguin Readers is an ELT graded reader series. Please note that the eBook edition does NOT include access to the audio edition and digital book. Written for learners of English as a foreign language, each title includes carefully adapted text, new illustrations and language learning exercises. Titles include popular classics, exciting contemporary fiction,

and thought-provoking non-fiction, introducing language learners to bestselling authors and compelling content. The eight levels of Penguin Readers follow the Common European Framework of Reference for language learning (CEFR). Exercises at the back of each Reader help language learners to practise grammar, vocabulary, and key exam skills. Before, during and after-reading questions test readers' story comprehension and develop vocabulary. Twenty Thousand Leagues Under the Sea, a Starter level Reader, is A1 in the CEFR framework. Starter level is ideal for readers who are learning English for the first time. Short sentences contain a

maximum of two clauses, using the present simple and continuous tenses, possessives, regular and irregular verbs, and simple adjectives. Illustrations support the text throughout, and many titles at this level are graphic novels. There is a new animal in the sea, and it is killing people . . . "We can find it!" says Captain Farragut. But what do they find? And can they stop it? Visit the Penguin Readers website Register to access online resources including tests, worksheets and answer keys. Exclusively with the print edition, readers can unlock a digital book and audio edition (not available with the eBook).

This eBook edition of "20,000 Leagues Under the Sea" has been formatted to the highest digital standards and adjusted for readability on all devices. Twenty Thousand (20,000) Leagues Under the Sea (French: Vingt mille lieues sous les mers) is a classic science fiction novel by French writer Jules Verne published in 1870. It tells the story of Captain Nemo and his submarine Nautilus as seen from the perspective of Professor Pierre Aronnax. As the story begins in 1866, a mysterious sea monster, theorized by some to be a giant narwhal, is sighted by ships of several

nations; an ocean liner is also damaged by the creature. The United States government finally assembles an expedition in New York City to track down and destroy the menace. Professor Pierre Aronnax, a noted French marine biologist and narrator of the story, who happens to be in New York at the time and is a recognized expert in his field, is issued a last-minute invitation to join the expedition, and he accepts. This ebook edition contains all 70 original illustrations by Alphonse de Neuville and Édouard Riou.

Twenty Thousand

Leagues Under the Sea
(French: Vingt mille
lieues sous les mers:
Tour du monde sous-
marin, literally Twenty
Thousand Leagues
Under the Seas: An
Underwater Tour of the
World) is a classic
science fiction novel by
French writer Jules
Verne published in
1870. The novel was
originally serialized
from March 1869
through June 1870 in
Pierre-Jules Hetzel's
periodical, the Magasin
d'Éducation et de
Récréation. The deluxe
illustrated edition,
published by Hetzel in
November 1871,
included 111
illustrations by
Alphonse de Neuville
and Édouard Riou. The
book was highly
acclaimed when
released and still is
now; it is regarded as
one of the premiere

adventure novels and one of Verne's greatest works, along with *Around the World in Eighty Days* and *Journey to the Center of the Earth*. The description of Nemo's ship, called the *Nautilus*, was considered ahead of its time, as it accurately describes features on submarines, which at the time were very primitive vessels. Thus, the book has been able to age well because of its scientific theories, unlike some of Verne's other works, like *Journey to the Center of the Earth*, which are not scientifically accurate and serve more simply as adventure novels.

Twenty Thousand Leagues Under the Sea by Jules Verne.

Illustrated with 116 color and black and white Illustrations by Alphonse de Neuville, Édouard Riou and engravings by Hildibrand. This is a classic science fiction novel by French writer Jules Verne published

in 1870. It tells the story of Captain Nemo and his submarine Nautilus as seen from the perspective of Professor Pierre Aronnax. The title refers to the distance traveled while under the sea and not to a depth, as 20,000 leagues is over six times the diameter of Earth. As the story begins, a mysterious sea monster, theorized by some to be a giant narwhal, is sighted by ships of several nations; an ocean liner is also damaged by the creature. The United States government finally assembles an expedition in New York City to track down and destroy the menace. Professor Pierre Aronnax, a noted French marine biologist and narrator of the story. Canadian master

harpoonist Ned Land and Aronnax's faithful assistant Conseil are also brought on board.

"Twenty Thousand Leagues Under The Sea" is a classic science fiction novel by Jules Verne published in 1870. It tells the story of Captain Nemo and his submarine Nautilus, as seen from the perspective of Professor Pierre Aronnax. The title refers to the distance travelled while under the sea and not to a depth, as 20,000 leagues is over six times the diameter, and nearly three times the circumference of the Earth. The greatest depth mentioned in the book is four leagues. The book uses metric

leagues, which are four kilometres each. A literal translation of the French title would end in the plural "seas", thus implying the "seven seas" through which the characters of the novel travel. The book was highly acclaimed when released and still is now; it is regarded as one of the premiere adventure novels and one of Verne's greatest works. Jules Verne (1828-1905) was a French novelist, poet, and playwright best known for his adventure novels and his profound influence on the literary genre of science fiction.

ABOUT THE BOOK

Given the very long shadow it has cast on culture and pop culture

since its initial publication in 1870, it's difficult to overstate just how indelible and long-lasting the impact of author Jules Verne's seminal seafaring epic *Twenty Thousand Leagues Under the Sea* has been, both upon the literary world and the world at large. With its meditations on evergreen themes such as man, nature, and the inherent conflicts therein, and its depiction of new technologies decades before their eventual invention, *Twenty Thousand Leagues Under the Sea* remains an unquestionable classic of modern literature and has also transcended the page to leave a mark on a variety of other media. My first encounter with Verne's story happened at the ripe

old age of seven, when I had opportunity to watch Richard Fleischer's 1954 film adaptation for producer Walt Disney, starring legendary screen star Kirk Douglas as the stolidly heroic Ned Land and featuring a haunting, unforgettable turn by James Mason as charismatic anti-hero Captain Nemo. The film's grand scale and memorable set pieces, including the elegant depiction of Nemo's mighty Nautilus submarine designed by Harper Goff, was all it took for me to hungrily seek out and dive headfirst into the original text. This in turn allowed me to discover firsthand the magnificent undersea world Jules Verne imagined for us during a time when the very

notion of travelling under the sea was as much of a fantasy as the idea of travelling in space. EXCERPT FROM THE BOOK Though Verne was a lifelong devotee of all things nautical and oceanic, the true genesis of what eventually became *Twenty Thousand Leagues Under The Sea* was first planted in the author's mind via an offhand comment in an 1865 communiqué from French author George Sand. Waxing rhapsodic about the author's then-latest opus, 1864's *Journey to the Center of the Earth*, Madame Sand playfully prodded Verne to, in his next work, "take us to the depths of the sea...in diving vessels that your science and

imagination will manage to improve." Diving into this challenge with gusto, Verne began development on what eventually became *Twenty Thousand Leagues that same year*. From the beginning, he was uncertain of precisely how large a distance his submarine would travel, with working titles ranging from *Twenty-Five Thousand Leagues Under the Waters* to *A Thousand Leagues Under the Oceans* to the more-familiar *Twenty Thousand Leagues Under the Waters* before arriving at the book's final designation (at one point he even considered titling it simply *Voyage Under the Waters*). "The deepest parts of
the ocean are totally

unknown to us," admits Professor Aronnax early in this novel. "What goes on in those distant depths? What creatures inhabit, or could inhabit, those regions twelve or fifteen miles beneath the surface of the water? It's almost beyond conjecture." Jules Verne (1828-1905) published the French equivalents of these words in 1869, and little has changed since. 126 years later, a Time cover story on deep-sea exploration made much the same admission: "We know more about Mars than we know about the oceans." This reality begins to explain the dark power and otherworldly fascination of *Twenty Thousand Leagues Under the Sea*.
