Historical Dictionary of Hobbes's Philosophy Historical Dictionaries of Religion
 The Historical Dictionary of Hinduism relates the history of Hinduism through a chronology, an introductory essay, photos, an extensive bibliography, and over 1,000 cross referenced dictionary entries on Hindu terminology, names of major historical figures and movements, gods and goddesses, prominent temples, terms for items used in Hindu practice, major texts, philosophical concepts, and more. This book is an excellent access point for students, researchers, and anyone wanting to know more about Hinduism.

HISTORICAL DICTIONARY OF BERTRAND RUSSELL'S PHILOSOPHY

Rowman & Littlefield
 Gottfried Wilhelm Leibniz (1646-1716) was one of the first Modern philosophers, and as such, one of the most significant. His contributions were often pathbreaking and his imprint still remains on fields such as logic, mathematics, science, international law, and ethics. While publishing relatively little during his life, he was in regular correspondence with important philosophers and even political leaders. The Historical Dictionary of Leibniz's Philosophy sheds light not only on his philosophical thought but also the impact it had on the thinking of his contemporaries. They, and he, are described in numerous cross-referenced dictionary entries. Also included are other entries that present his writings, explain his concepts, and trace his action in specific fields. The introduction sums much of this up and, along with the bibliography, provides a strong foundation for further study.

Historical Dictionary of Organized Labor

Rowman & Littlefield
 Historical Dictionary of Feminism
Historical Dictionary of the Baptists Rowman & Littlefield
 Few philosophers have been as popular, prolific, and controversial as Friedrich Nietzsche, who has left his imprint not only on philosophy but on all the arts. Whether it is his concept of the übermensch or his nihilistic view of the world, Nietzsche's writings have aroused enormous interest, as well as anathema, in scholars for centuries. This third edition of Historical Dictionary of Nietzscheanism covers the history of this philosophy through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 400 hundred cross-referenced entries on his major writings, his contemporaries, and his successors. This book is an excellent access point for students, researchers, and anyone wanting to know more about Friedrich Nietzsche.

HISTORICAL DICTIONARY OF RADICAL CHRISTIANITY

Libraries Unlimited
 This second edition of Historical Dictionary of Utopianism contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 1000 cross-referenced entries on broad conceptual entries; narrower entries about specific works; and narrower entries about specific intentional communities or movements.

HISTORICAL DICTIONARY OF METHODISM

Rowman & Littlefield
 Philosophy has not just excluded women. It has also been shaped by the exclusion of women. As the field grapples with the reality that sexism is a central problem not just for the demographics of the field but also for how philosophy is practiced, many philosophers have begun to rethink the canon. Yet attempts to broaden European and Anglophone philosophy to include more women in the discipline's history or to acknowledge alternative traditions will not suffice as long as exclusionary norms remain in place. In *Where Are the Women?*, Sarah Tyson makes a powerful case for how redressing women's exclusion can make philosophy better. She argues that engagements with historical thinkers typically afforded little authority can transform the field, outlining strategies based on the work of three influential theorists: Genevieve Lloyd, Luce Irigaray, and Michèle Le Doeuff. Following from the possibilities they open up, at once literary, linguistic, psychological, and political, Tyson reclaims two passionate nineteenth-century texts—the Declaration of Sentiments from the 1848 Seneca Falls Convention and Sojourner Truth's speech at the 1851 Akron, Ohio,

Women's Convention—showing how the demands for equality, rights, and recognition sought in the early women's movement still pose quandaries for contemporary philosophy, feminism, and politics. *Where Are the Women?* challenges us to confront the reality that women's exclusion from philosophy has been an ongoing project and to become more critical both of how we see existing injustices and of how we address them.

Historical Dictionary of Hegelian Philosophy

Rowman & Littlefield
 The reader will find entries on major sects, philosophical trends, and the responses by Islamic movements to issues of 21st century politics, such as the inroads of Westernization in the Islamic world. A chronology lists important dates from the sixth to the end of the 20th century and an introductory chapter outlines the history of Islam and religion to modern days.

Feminist Philosophies A-Z

Scarecrow Press
 Not so long ago hardly anything was said of the Lesbian Liberation Movement and the Gay Liberation Movement, indeed, the terms gay and lesbian were not even used if some other expression could be found. Today, by contrast, hardly a day passes when something important does not occur, and is carried by the major media and disseminated on more personal levels through blogs and the social media. If anything, there is perhaps too much "news" and not enough "information." Obviously, a book like this cannot keep up with the news, but it can do something equally important when it comes to information, by reminding us of the past and what has been going and just how fast events are moving. The Historical Dictionary of the Lesbian and Gay Liberation Movements covers the history of this movement through a cross-referenced dictionary with over 1000 entries on specific countries and regions, influential historical figures, laws that criminalized same-sex sexuality, various historical terms that have been used to refer to aspects of same-sex love, and contemporary events and legal decisions. Including a comprehensive chronology and bibliography, this book is an excellent access point for students, researchers, and anyone interested in learning more about the struggle for equality.

Recommended Reference Books for Small and Medium-sized Libraries and Media Centers Scarecrow Press

Thomas Hobbes (1588-1679) is one of the most important early modern thinkers. Though Hobbes is best known for *Leviathan* (1651) and the theory of absolute sovereignty, his works discuss virtually all the major problems of philosophy as well as science and mathematics, and contain the translations of classical texts like Thucydides' *History of the Peloponnesian War*, a verse church history, and various essays. Hobbes spent most of his adult life in the service of the influential Cavendish family. The Historical Dictionary of Hobbes's Philosophy offers a comprehensive guide to the many facets of Hobbes's work. Through its chronology, introductory essay, bibliography, and hundreds of cross-referenced dictionary entries on concepts, people, works, and technical terms, Hobbes's impact on philosophy and related fields is made accessible to the reader in this must-have reference. Intended as a reference to learn about particular aspects of Hobbes, it also serves as a quick guide to check information and find the relevant secondary literature on Hobbes. It is an excellent access point for students, researchers, and anyone wanting to know more about Thomas Hobbes.

HISTORICAL DICTIONARY OF FEMINIST PHILOSOPHY

Scarecrow Press
 This Second Edition is an essential resource for librarians, scholars, and students. This succinct handbook includes more than 1,000 entries covering the persons, organizations, campaigns and court cases, goals and achievements, and current and future directions of the feminist movement, 75 percent of which are new and revised from the first edition. This second edition also features a more internationally focused introduction that provides an overview of the history and development of feminism as a movement and as a philosophy. Rounding out this new edition are an expanded chronology, and an updated bibliography that brings attention to many feminist online resources and periodicals, and emphasizes global and third-wave feminism, both new developments in the field since the publication of the first edition. Paying tribute to the struggles of the women, and men, who have worked to change and to improve the living conditions for women in the world, this book promises a comprehensive historical overview for readers of all interest levels.

Historical Dictionary of Aesthetics

Rowman & Littlefield
 Edmund Husserl (1859-1938) is widely regarded as the founding figure of the philosophical movement of 'phenomenology.' Husserl's philosophical program was both embraced and rejected by many, but in either case, his ideas set the stage for and exercised an enormous influence on the

development of much of the philosophy that followed. In particular, his thought provides the backdrop and impetus for movements such as existentialism, hermeneutics, and deconstruction. Also, because of his career-long concerns with logic and mathematics, there are many points of contact between Husserl's phenomenology and so-called 'analytical philosophy,' further cementing study of Husserl's thought across the philosophical spectrum. The *Historical Dictionary of Husserl's Philosophy* provides the means to approach the texts of Husserl, as well as those of his major commentators. This is done through a chronology, an introductory essay, an extensive bibliography, and hundreds of cross-referenced dictionary entries on key terms and neologisms, as well as brief discussions of Husserl's major works and of some of his most important predecessors, contemporaries, and successors.

Historical Dictionary of Wittgenstein's Philosophy Walter de Gruyter

This second edition of *Historical Dictionary of Schopenhauer's Philosophy* contains a chronology, an introduction, an appendix, and an extensive bibliography. The dictionary section has over 300 cross-referenced entries on all of Schopenhauer's books, significant philosophical ideas and concepts, as well as entries covering significant figures in his life and those influenced by this thinking.. This book is an excellent access point for students, researchers, and anyone wanting to know more about Arthur Schopenhauer.

Historical Dictionary of Feminism Rowman & Littlefield

Covers a broad range of subjects that detail the shifting definitions of this socio-economic, political, and intellectual movement and describe its antecedents and pioneers. With an introduction, chronology and detailed bibliography.

Historical Dictionary of Medical Ethics Scarecrow Press

The *Historical Dictionary of Radical Christianity* covers the history of this movement and includes an introductory essay and a bibliography. The dictionary section has over 400 cross-referenced entries. The dictionary entries selected reflect the leading groups, movements, and sects from each major era of Christian history. Especially in the contemporary period, the great proliferation of radical thinkers and groups has necessitated a selection process with those selected exhibiting sustained group activity, possessing an identifiable following, and demonstrating a significant cultural impact. This book is an excellent access point for students, researchers, and anyone wanting to know more about Radical Christianity.

Historical Dictionary of the Welfare State Scarecrow Press

Organized labor is about the collective efforts of employees to improve their economic, social, and political position. It can be studied from many different points of view—historical, economic, sociological, or legal—but it is fundamentally about the struggle for human rights and social justice. As a rule, organized labor has tried to make the world a fairer place. Even though it has only ever covered a minority of employees in most countries, its effects on their political, economic, and social systems have been generally positive. History shows that when organized labor is repressed, the whole society suffers and is made less just. The *Historical Dictionary of Organized Labor* looks at the history of organized labor to see where it came from and where it has been. This is done through a chronology, an introductory essay, appendixes, a glossary of terms, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on most countries, international as well as national labor organizations, major labor unions, leaders, and other aspects of organized labor such as changes in the composition of its membership. This book is an excellent access point for students, researchers, and anyone wanting to know more about organized labor.

The Dictionary of Feminist Theory Rowman & Littlefield

This third edition of *Historical Dictionary of Judaism* covers the history of the Jewish religion through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 800 cross-referenced entries on important personalities in Jewish religious history.

HISTORICAL DICTIONARY OF CATHOLICISM

Rowman & Littlefield

Martin Heidegger's thinking is a complex, and his terminology is as nuanced, as any thinker in the

history of philosophy. As the historian of philosophy par excellence, he also exhibits both a greater appreciation and mastery of previous thinkers than any almost any other philosopher before or since. The *Historical Dictionary of Heidegger's Philosophy*, Third Edition addresses this dual challenge of reading, understanding, and interpreting Heidegger's vast writings. The book provides a comprehensive and detailed account of the key terms shaping Heidegger's philosophy, as well as outlining the development of his thought spanning the entirety of his career spanning almost sixty years. The Dictionary also includes a discussion of Heidegger's seminal writings, the spanning his entire Gesamtausgabe (Complete Edition) up through volume 99 (of the projected 102 volumes). This third edition of *Historical Dictionary of Heidegger's Philosophy*, Third Edition contains a chronology, an introduction, appendixes and an extensive bibliography. The dictionary section has over 800 cross-referenced entries that provides a clear and comprehensive exposition of the key developments in his life and his thought. This book is an excellent resource for students, researchers, and anyone wanting to know more about Martin Heidegger.

Historical Dictionary of Medieval Philosophy and Theology Scarecrow Press

The most comprehensive guide to the terminology and history of feminist theory available. This established and much admired dictionary provides succinct definitions of more than 600 terms, topics, movements and approaches as well as influential feminist thinkers, activists and critics within feminist theory. Entries cover a wide range of cross-cultural issues relating to family, work, sexuality, gender, race, imperialism and representation. There are also explanations of terms within Anglo-American and French feminist literary theory that have come into common usage, including 'Backlash', 'Postcolonialism', 'Postmodernism' and 'Queer Theory'. From 'Autobiography' to 'Writing the Body', from 'Abortion' to 'Work' and from 'Anzaldua' to 'Zimmerman', the Dictionary is a valuable source for anyone interested in the ideas behind feminism or those approaching contemporary feminist thought for the first time.

HISTORICAL DICTIONARY OF HINDUISM

Rowman & Littlefield Publishers

Aesthetics is not a 'factual' discipline; there are no aesthetic facts. The word itself is derived from the Greek word for 'feeling' and the discipline arises because of the need to find a place for the passions within epistemology, the branch of philosophy that investigates our beliefs. Aesthetics is more than just the study of beauty; it is a study of that which appeals to our senses, most often in connection with the classification, analysis, appreciation, and understanding of art. The *Historical Dictionary of Aesthetics* covers its history from Classical Greece to the present, including entries on non-western aesthetics. The book contains a chronology, a list of acronyms and abbreviations, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on the main concepts, terminology, important persons (philosophers, critics, and artists), and the rules and criteria we apply in making judgments on art. By providing concise information on aesthetics, this dictionary is not only accessible to students, but it provides details and facts to specialists in the field.

Historical Dictionary of Husserl's Philosophy Scarecrow Press

Calvinism is named after 16th century Reformer, John Calvin whose overall theology is contained in his *Institutes of the Christian Religion* (1559). Calvin's theology and ecclesiology provided the foundation upon which the Reformed Churches of Europe were built. It was a comprehensive and carefully expounded alternative to the doctrines of the Roman Catholic Church and was designed to expose their weaknesses and present a view of the Christian Faith that was a reformed version of the old faith. The *Historical Dictionary of Calvinism* relates the history of its founder John Calvin, the Reformed Church, and the impact that Calvinism has had in the modern world along with an account of modern and contemporary developments within the religious, political, and social culture it has created. This is done through a chronology, an introductory essay, an extensive bibliography, and over 300 cross-referenced dictionary entries on concepts, significant figures, places, activities, and periods. This book is an excellent access point for students, researchers, and anyone wanting to know more about Calvinism.
