Combining theory, research, and applications, this popular text guides college students on how to become self-regulated learners. Students gain knowledge about human motivation and learning as they improve their study skills. The focus is on relevant information and features to help students to identify the components of academic learning that contribute to high achievement, to master and practice effective learning and study strategies, and then to complete self-regulation studies that teach a process for improving their academic behavior. A framework organized around motivation, methods of learning, time management, control of the physical and social environment, and monitoring performance makes it easy for students to recognize what they need to do to become academically more successful. Pedagogical features include Exercises, Follow-Up Activities, Student Reflections, Chapter-end

Reviews, Key Points, and a Glossary. New in the Fifth Edition Discussion of the importance of sleep in learning and memory Revised and updated chapter on self-regulation of emotions Current research on impact of students' use of technology including digital learning platforms and tools, social media, and online learning Updated Companion Website resources for students and instructors

Skills for Success Houghton Mifflin College Division ON COURSE: STRATEGIES FOR CREATING SUCCESS IN COLLEGE AND IN LIFE, STUDY SKILLS PLUS EDITION was created for educators who would like to promote student growth and self-awareness, and whose goal it is to empower their students while providing more extensive instruction in study skills. The Study Skills Plus Edition engages students in a learner-centered construction of study skills knowledge, and gives students practice in applying empowerment strategies. The ON COURSE STUDY SKILLS PLUS EDITION demonstrates the choices that successful students make. This new text highlights the very process of learning how to solve academic challenges with improved study skills so that students learn the empowering process of critical and creative problem solving that will enable

them to achieve greater success in all parts of their lives. This is accomplished through case studies, where students can apply strategies they learn to scenarios before creating their own academic skills plan. A self-assessment tool at the beginning of the text helps students to identify behaviors and beliefs they may wish to change in order to achieve more of their potential in college and in life. Students have an opportunity to revisit their self-assessment at the conclusion of the text. Written in a positive, motivational style, ON COURSE empowers students with the tools they need to take charge of their success in college and in life. Downing's powerful guided journal entries are retained from the ON COURSE text to help students develop essential life skills by encouraging exploration of personal responsibility, self-motivation, interdependence, and self-esteem.

Newton Education Group presents *Study Skills: 50 Strategies for Success*. The self-guided activities in this program will help students acquire and practice effective learning strategies that will last a lifetime. Each lesson develops skills related to a specific study strategy. The lessons are organized in such a way that each new skill builds off a previous skill. Scaffolding instruction in this way reinforces what has been learned, building confidence as students develop and apply new skills. Students will also develop metacognitive awareness of their own learning styles and strengths, enabling them to personalize their learning experiences and adapt study methods to the way they process information best. By the time students finish *Study Skills, 50 Strategies for Success*, they will have learned 50 essential strategies to improve all areas of their learning, such as how to take notes, manage homework, write reports, set goals, using reference materials, managing text anxiety, and how to prepare for various kinds of testing and testing formats. There are two levels to the *Study Skills: 50 Strategies for Success* program. Book 1 is tailored for students in grades 3 through 5 (or students in upper grades who need more skill building or need to work at a gentler pace). Book 2 is tailored for students in grades 6 through 8 and builds off of level one, providing greater challenge; extending concepts. The self-guided structure of the program allows for easy integration into any existing curriculum. Each book in the *Study Skills: 50 Strategies for Success* program is divided into 10 units. Each unit focuses on a particular set of strategies, such as classroom preparation, organizing assignments, and setting goals. Student Resources within each book can be used throughout the school year to strengthen writing and editing skills. An answer key is included at the end of each book. Students complete each unit in the order presented or

you may customize the program to meet individual student's needs. Options for Targeted Instruction: After students complete a comprehensive self-assessment. The self-assessment allows student to evaluate their approaches to learning and studying and is an effective metacognitive tool for self-discovery. It allows students to discover first-hand where changes need to be made and the motivation to make the necessary adjustments. For the teacher, the completed assessment reveals where improvements are needed in order to target specific study-skills instruction for each and every student. The categories of questions in the Student Self-Assessment align with the units in Study Skills: 50 Strategies for Success. This allows the teacher to readily determine which specific strategies to target. Targeted instruction allows for flexibility in the classroom and complements a variety of classroom strategies, such as differentiated instruction and personalized learning. Completed assessments can be placed in a student portfolio where it can be later used to show progress over time after study-skills instruction has been initiated.
