THE WESTERN HERITAGE

Prentice Hall

In 1989, the Cold War abruptly ended and it seemed as if the world was at last safe for democracy. But a spirit of uneasiness, discontent, and world-weariness soon arose and has persisted in Europe, in America, and elsewhere for two decades. To discern the meaning of this malaise we must investigate the nature of liberal democracy, says the author of this provocative book, and he undertakes to do so through a detailed investigation of the thinking of Montesquieu, Rousseau, and Tocqueville. Paul A. Rahe argues that these political thinkers anticipated the modern liberal republic's propensity to drift in the direction of "soft despotism"—a condition that arises within a democracy when paternalistic state power expands and gradually undermines the spirit of self-government. Such an eventuality, feared by

Tocqueville in the nineteenth century, has now become a reality throughout the European Union, Canada, Australia, New Zealand, and the United States. So Rahe asserts, and he explains what must be done to reverse this unfortunate trend.

ESSAYS FOR A RAINY DAY

Cambridge University Press

Written by leading scholars in the field, this survey of Western Civilization presents a strong, clear narrative account of the central developments in Western history with a focus on several key themes -- the development of political freedom and constitutional government; the shifting relations among religion, society, and the state; the development of science and technology and their impact on thought and social institutions; and the major religious and intellectual currents that have shaped Western culture.

Disequilibrium, Polarization, and Crisis Model Xlibris Corporation

This highly visual, brief survey of Western civilization provides an exceptionally balanced survey of the political, social, and cultural

development of Western civilization—its strengths and weaknesses, and the controversies surrounding it. From 1650 to the present, this volume provides a broad survey of western civilization. For those interested in a lively account of western heritage.

HOW CAN YOU STILL BE CATHOLIC?

Yale University Press

Earn College Credit with REA's Test Prep for CLEP* Western Civilization I Everything you need to pass the exam and get the college credit you deserve. CLEP* is the most popular credit-by-examination program in the country, accepted by more than 2,900 colleges and universities. For over 15 years, REA has helped students pass the CLEP* exam and earn college credit while reducing their tuition costs. Our test prep for CLEP* Western Civilization I and the free online tools that come with it, allow you to create a personalized CLEP* study plan that can be customized to fit you: your schedule, your learning style, and your current level of knowledge. Here's how: Diagnostic exam at the REA Study Center Our online diagnostic exam pinpoints your strengths and shows you exactly where you need to focus your study. Armed with this information, you can personalize your prep and review where you need it the most. Complete subject review for CLEP* Western Civilization I Our targeted review covers all the material you'll be expected to know for the exam and includes a glossary of must-know terms. Full-length practice exams The online REA Study Center gives you 2 full-length practice tests and the most powerful scoring analysis and diagnostic tools available today. Instant score reports help you

zero in on the CLEP* Western Civilization I topics that give you trouble now and show you how to arrive at the correct answer - so you'll be prepared on test day. REA is the acknowledged leader in CLEP* preparation, with the most extensive library of CLEP* titles available. Our test preps for CLEP* exams help you earn valuable college credit, save on tuition, and get a head start on your college degree.

The Western Heritage University of Toronto Press

This work poses a straightforward - yet at the same time perplexing - question about World War I: Why did it happen? Several of the oft-cited causes are reviewed and discussed. The argument of the alliance systems is inadequate, lacking relevance or compelling force. The arguments of mass demands, those focusing on nationalism, militarism and social Darwinism, it is argued, are insufficient, lacking indications of frequency, intensity, and process (how they influenced the various decisions). The work focuses on decision-making, on the choices made by small coteries, in Austria-Hungary, Germany, Russia, France, Britain and elsewhere. The decisions made later by leaders in Japan, the Ottoman Empire, Italy, the Balkans, and the United States are also explored. The final chapters review the 'basic causes' once again. An alternative position is advanced, one focused on elites and coteries, their backgrounds and training, and on their unique agendas.

Dangerous Nation Pearson

Ordering America, painting a felicitous portrait of Western civilization, shows that its defining ideals--rooted in man's common human nature, a perception newly substantiated by modern evolutionary psychology--were best fulfilled by realization

of the American founding order. Twentieth-century progressivism and postmodern multiculturalism detoured America down the way of social constructionism--human nature and equality are produced by culture and the state, through groups. The book sets a course to revive the Western ideals and return to an opportune center-right American order, applying latest scientific insights and restoring individual responsibility and reciprocity under more limited, still energetic government befitting our century.

THE WESTERN HERITAGE

Prentice Hall

Explore the changing nature of the West Rather than looking at Western civilization only as the history of Europe from ancient times to the present, this groundbreaking book examines the changing nature of the West--how the definition of the West has evolved and has been transformed throughout history. It explores the ways Western civilization has changed as a result of cultural encounters with different beliefs, ideas, technologies, and peoples, both outside the West and within it. Presenting a balanced treatment of political, social, religious, and cultural history, this text emphasizes the ever-shifting boundaries of the geographic and cultural realm of the West. MyHistoryLab is an integral part of the Levack program. Key learning applications include Closer Looks, MyHistoryLibrary, and writing assessment. A better teaching and learning experience This program will provide a better teaching and learning experience--for you and your students. Here's how: Personalize Learning- MyHistoryLab is online learning. MyHistoryLab engages students through personalized learning and helps instructors from course

preparation to delivery and assessment. Improve Critical Thinking-Critical thinking questions throughout the text help students focus on what they need to learn. Engage Students-Fine art and photos engage students in the material. Support Instructors- A full set of supplements, including MyHistoryLab, provides instructors with all the resources and support they need. *The Western Heritage Since 1650* Lulu.com An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

SOFT DESPOTISM, DEMOCRACY'S DRIFT

Documents Set, *The Western Heritage, Volume II: Since 1648, Seventh Edition*, Donald Kagan, Steven Ozment, Frank M. Turner
The Western Heritage

This book adds a social psychological component to the analysis of why nations, sections, or states enter into armed conflict. The Disequilibrium, Polarization, and Crisis Model is introduced, drawing from prospect theory, realism, liberalism, and constructivism. Three case studies are included, demonstrating this model and its six process stages.

THE WESTERN HERITAGE TO 1715

Prentice Hall

This is a collection of eleven essays, laced with humor and irony, on the Dawn of Man, Mesopotamia, Egypt, Hebrews, Minoans and Mycenaens, classical Greece, Alexander the Great, the Hellenistic world, Rome's Republic and Empire, and several church fathers (Irenaeus, Tertullian, Jerome, and Augustine) who influenced the Primitive Church. Tinsley highlights current research while

showcasing themes of contemporary as well as ancient significance - misogyny, the manipulation of rhetoric to justify privilege, the contributions of the anonymous to the well-being of the famous, the paradox of progress, the distortion of prophecy, the use and misuse of myth and other media, the exploitation of spiritual, intellectual, physical, and sexual resources, the comforts and perils of provincialism versus the dangers and benefits of organization - spiritual, imperial, or both.

PERSPECTIVES

Cambridge Scholars Publishing

Christopher Sparks asked Facebook friends to finish the question: "How can you still be Catholic when ... ?" The replies came swiftly and forcefully. With that, Sparks went to work. Here is the result. In this book, he addresses the biggest issues people grapple with when they think about the Catholic Church: the Inquisition, the Crusades, the Church's role in a state, homosexuality, the role of women in the Church, and many others. For skeptics and non-Catholics, this book is an invitation to understanding the faith, a way for outsiders to hear one contemporary Catholic's worldview, and to see through Catholic eyes, even if they remain unconvinced. For Catholics, this book is an introduction to an array of answers and resources for delving more deeply into and defending the faith.

CLEP WESTERN CIVILIZATION I WITH ONLINE PRACTICE EXAMS

Research & Education Assoc.

The book calls attention to the development of political freedom

and constitutional government; the shifting relations among religion, society, and the state; the development of science and technology and their impact on thought and social institutions; and the major religious and intellectual currents that have shaped Western culture.

Books in Print Supplement Prentice Hall

This book traces the history of the ancient Khazar Empire, a major but almost forgotten power in Eastern Europe, which in the Dark Ages converted to Judaism. Khazaria was finally wiped out by the forces of Ghengis Khan, but evidence indicates that the Khazars themselves migrated to Poland and formed the cradle of Western Jewry.

ROYALISTS, RADICALS, AND LES MISÉRABLES

Susquehanna University Press

To enhance the nation's economic productivity and improve the quality of life worldwide, engineering education in the United States must anticipate and adapt to the dramatic changes of engineering practice. The Engineer of 2020 urges the engineering profession to recognize what engineers can build for the future through a wide range of leadership roles in industry, government, and academia-not just through technical jobs. Engineering schools should attract the best and brightest students and be open to new teaching and training approaches. With the appropriate education and training, the engineer of the future will be called upon to become a leader not only in business but also in nonprofit and government sectors. The book finds that the next several decades will offer more opportunities for engineers, with exciting possibilities expected from nanotechnology, information

technology, and bioengineering. Other engineering applications, such as transgenic food, technologies that affect personal privacy, and nuclear technologies, raise complex social and ethical challenges. Future engineers must be prepared to help the public consider and resolve these dilemmas along with challenges that will arise from new global competition, requiring thoughtful and concerted action if engineering in the United States is to retain its vibrancy and strength.

From Rome to Reformation Macmillan College

For one-quarter/semester introductory-level survey courses in Western Civilization and European History and Civilization; or a supplemental text in Art History or other basic cultural history surveys. This concise survey of Western civilization (based on the best-selling *The Western Heritage*, Seventh Edition), provides an exceptionally balanced survey of the political, social, and cultural development of Western civilization its strengths and weaknesses, and the controversies surrounding it. This brief edition condenses the central narrative without compromising on vocabulary or conceptual level to make it more fully accessible to today's students, and to allow instructors greater opportunity to supplement the course with extensive outside readings, if desired.

SINCE 1648, SEVENTH EDITION, DONALD KAGAN,
STEVEN OZMENT, FRANK M. TURNER**

Prentice Hall

Stosunek do własnej historii i roli dziejowej często różni się od sposobu jej postrzegania przez innych. Zjawisko kreowania wizji i

interpretacji historycznych stanowi nieodłączny element procesu edukacyjnego. Percepcja oraz sposoby prezentacji polskiej historii i kultury w amerykańskich podręcznikach szkolnych i akademickich w zakresie przedmiotów historii powszechnej, historii europejskiej oraz historii cywilizacji zachodniej były w XX i na początku XXI wieku kształtowane pod wpływem zmieniającej się sytuacji społecznej i politycznej oraz dominujących tendencji naukowych. W koncepcjach filozoficznych i intelektualnych, rozwijanych w Europie Zachodniej i Stanach Zjednoczonych od czasów oświecenia do końca okresu zimnej wojny, najczęściej wykluczono narody oraz państwa Europy Środkowej i Wschodniej z kręgu dominującej w świecie cywilizacji zachodniej. W konsekwencji Polska, jej historia i kultura były traktowane marginalnie. Autorka analizuje nie tylko zawartość podręczników, lecz także przyczyny, dla których ciągle jeszcze trudno znaleźć informacje m.in. na temat udziału Polaków w drugiej wojnie światowej, Katynia czy powstania warszawskiego.

CUNEGONDE'S KIDNAPPING

Simon & Schuster Books For Young Readers

Since the Roman Empire, leaders have used ideology to organize the masses and instil amongst them a common consciousness, and equally to conquer, assimilate, or repel alternative ideologies. Ideology has been used to help create, safeguard, expand, or tear down political communities, states, empires, and regional or world systems. This book explores the multiple effects that competing ideologies have had on the world system for the past 1,700 years: the author examines the nature and content of Christianity, Islam, Confucianism, Protestantism, secularism,

balance-of-power doctrine, nationalism, imperialism, anti-imperialist nationalism, liberalism, communism, fascism, Nazism, ethno-nationalism, and transnational radical Islamism; alongside the effects their originators sought to craft and the consequences they generated. This book argues that for centuries world actors have aspired to propagate through the world arena a structure of meaning that reflected their own system of beliefs, values and ideas: this would effectively promote and protect their material interests, and - believing their system to be superior to all others - they felt morally obliged to spread it. Radical transnational Islamism, Hybel argues, is driven by the same set of goals. This book will be of interest to students and scholars of international politics, international relations theory, history and political philosophy.
