## HARRINGTON MARISSA

**Attack with Mikhail Tal** Simon and Schuster

#1 New York Times #1 Wall Street Journal

#1 Los Angeles Times #1 Entertainment

Weekly #1 Publishers Weekly Stephanie

Plum is thinking her career as a fugitive

apprehension agent has run its course.

She's been shot at, spat at, cussed at, fire-

bombed, mooned, and attacked by dogs.

Time for a change, Stephanie thinks. Time

to find the kind of job her mother can tell

her friends about without making the sign

of the cross. So Stephanie Plum quits.

Resigns. No looking back. No changing her

mind. She wants something safe and

normal. As it turns out, jobs that are safe

and normal for most people aren't

necessarily safe and normal for Stephanie Plum. Trouble follows her, and the kind of trouble she had at the bail bonds office can't compare to the kind of trouble she finds herself facing now. Her past has come back to haunt her. She's stalked by a maniac returned from the grave for the sole purpose of putting her into a burial plot of her own. He's killed before, and he'll kill again if given the chance. Caught between staying far away from the bounty hunter business and staying alive, Stephanie reexamines her life and the possibility that being a bounty hunter is the solution rather than the problem. After disturbingly brief careers at the button factory, Kan Klean Dry Cleaners, and Cluck-in-a-Bucket, Stephanie takes an office position in security, working for Ranger, the sexiest, baddest bounty hunter and businessman on two

continents. It might not be the job she'll keep for the rest of her life, but for now it gives her the technical access she needs to find her stalker. Tempers and temperatures rise as competition ratchets up between the two men in her life---her on-again, off-again boyfriend, tough Trenton cop Joe Morelli, and her bad-ass boss, Ranger. Can Stephanie Plum take the heat? Can you? Between the adventure and the adversity there's attitude, and Stephanie Plum's got plenty in her newest misadventure from Janet Evanovich, *Eleven on Top*.

### A. O. BARNABOOTH: HIS DIARY

Grandmaster Repertoire

This is a story of summer 1940, of a little known territorial battalion and an almost forgotten British military disaster. In April 1940 the Princess Louise's Kensington Regiment left England to join the British

Expeditionary Force in France. It was attached to the 51st (Highland) Division which was moving to the Saar region to defend the Maginot Line. From May until mid-June the Kensingtons were in continuous action, first on the Saar, then on the Somme, and finally in a fighting withdrawal along the channel coast in an attempt to reach Le Havre. Outnumbered four to one the division was cornered at the little seaside town of St Valery en Caux and forced to surrender on 13 June. Three companies of the Kensingtons launched a daring escape through Le Havre to return to England and take part in the invasion defences on the Kent coast.

### **THREE DANGEROUS MEN: RUSSIA, CHINA, IRAN AND THE RISE OF IRREGULAR WARFARE**

Verso Books

How three key figures in Moscow, Beijing, and Tehran built ruthless irregular warfare campaigns that are eroding American power. In *Three Dangerous Men*, defense expert Seth Jones argues that the US is woefully unprepared for the future of global competition. While America has focused on building fighter jets, missiles, and conventional warfighting capabilities, its three principal rivals—Russia, Iran, and China—have increasingly adopted irregular warfare: cyber attacks, the use of proxy forces, propaganda, espionage, and disinformation to undermine American power. Jones profiles three pioneers of irregular warfare in Moscow, Beijing, and Tehran who adapted American techniques and made huge gains without waging traditional warfare: Russian Chief of Staff Valery Gerasimov; the deceased Iranian Major General Qassem Soleimani; and vice chairman of China's Central Military Commission Zhang Youxia. Each has spent his career studying American power and devised techniques to avoid a conventional or nuclear war with the US. Gerasimov helped oversee a resurgence of Russian irregular warfare, which included attempts to undermine the 2016 and 2020 US presidential elections and the SolarWinds cyber attack. Soleimani was so effective in expanding Iranian power in the Middle East that Washington targeted him for assassination. Zhang Youxia presents the most alarming challenge because China has more power and potential at its disposal. Drawing on interviews with dozens of US military, diplomatic, and intelligence officials, as well as hundreds of documents translated from Russian, Farsi, and Mandarin, Jones shows how America's rivals have bloodied its

reputation and seized territory worldwide. Instead of standing up to autocratic regimes, Jones demonstrates that the United States has largely abandoned the kind of information, special operations, intelligence, and economic and diplomatic action that helped win the Cold War. In a powerful conclusion, Jones details the key steps the United States must take to alter how it thinks about—and engages in—competition before it is too late.

### **BLACK SKIN, WHITE MASKS**

New York Review of Books

One of the hardest tasks competitive chess-players face is the development of an opening repertoire suited to their own style of play. In view of the limited time most players have to study, an economic and well designed repertoire is essential, but it is sometimes difficult to know where to start. In this book, translated by Ken Neat, Grandmaster Gufeld makes the job easier by providing an ideal framework for a practical opening repertoire, specifically tailored for those who relish attacking play.

For fans of *The 7 1/2 Deaths of Evelyn Hardcastle* and *David Mitchell*, a genre bending, time twisting alternative history that asks whether it's worth changing the past to save the future, even if it costs you everyone you've ever loved. Joe Tournier has a bad case of amnesia. His first memory is of stepping off a train in the nineteenth-century French colony of England. The only clue Joe has about his identity is a century-old postcard of a Scottish lighthouse that arrives in London the same month he does. Written in illegal English-instead of French-the postcard is signed only with the letter "M," but Joe is certain whoever wrote it knows him far better than he currently knows himself, and he's determined to find the writer. The search for M, though, will drive Joe from French-ruled London to rebel-owned Scotland and finally onto the battle ships of a lost empire's Royal Navy. Swept out to sea with a hardened British sea captain named Kite, who might know more about Joe's past than he's willing to let on, Joe will remake history, and himself. From bestselling author Natasha Pulley, *The Kingdoms* is an epic, romantic, wildly original novel that bends genre as easily as it twists time.

**Blood Meridian** The History Press

The start of a WWII series from Iain Gale, author of *Alamein*.

**SCUM Manifesto** Peter Lang

The authoritative biography of the 60s countercultural icon who wrote *SCUM Manifesto*, shot Andy Warhol, and made an unforgettable mark on feminist history. Valerie Solanas is one of the most polarizing figures of 1960s counterculture. A cult hero to some and vehemently denounced by others, she has been dismissed but never forgotten. Known for shooting Andy Warhol in 1968 and for writing the infamous *SCUM Manifesto*, Solanas became one of the most famous women of her era. But she was also diagnosed with paranoid schizophrenia and spent much of her life homeless or in mental hospitals. Solanas's *SCUM Manifesto*, a sui generis vision of radical gender dystopia, predicted ATMs, test-tube babies, the Internet, and artificial insemination long before they existed. It has sold more copies and been translated into more languages than nearly all other feminist texts of its time. And yet, shockingly little work has investigated the life of its author. This book is the first biography about Solanas, including original interviews with family, friends (and enemies), and numerous living Warhol associates. It reveals surprising details about Solanas's life: the children nearly no one knew she had, her drive for control over her own writing, and her elusive personal and professional relationships. Valerie Solanas reveals the tragic, remarkable life of an iconic figure. It is "not only a remarkable biographical feat but also a delicate navigation of an unwieldy, demanding, and complex life story" (*BOMB Magazine*).

Penguin

The massive intentional destruction of cultural heritage during the 1992-1995 Bosnian War targeting a historically diverse identity provoked global condemnation and became a seminal marker in the discourse on cultural heritage. It prompted an urgent reassessment of how cultural property could be protected in times of conflict and led to a more definitive recognition in international humanitarian law that destruction of a people's cultural heritage is an aspect of genocide. Yet surprisingly little has been published on the subject. This wide-ranging book provides the first comprehensive overview and critical analysis of the destruction of Bosnia-Herzegovina's cultural heritage and its far-reaching impact. Scrutinizing the responses of the international community during the war (including bodies like UNESCO and the Council of Europe), the

volume also analyses how, after the conflict ended, external agendas impinged on heritage reconstruction to the detriment of the broader peace process and refugee return. It assesses implementation of Annex 8 of the Dayton Peace Agreement, a unique attempt to address the devastation to Bosnia's cultural heritage, and examines the treatment of war crimes involving cultural property at the International Criminal Tribunal for the former Yugoslavia (ICTY). With numerous case studies and plentiful illustrations, this important volume considers questions which have moved to the foreground with the inclusion of cultural heritage preservation in discussions of the right to culture in human rights discourse and as a vital element of post-conflict and development aid.

### BLACK FLAGGED VEKTOR

Random House

Using games by Kramnik, Shirov, Nunn and Kasparov, and complete illustrative games to highlight the key ideas, this book offers an examination of one of the most dramatic forms of defence in chess. In the Sveshnikov Sicilian, Black aims for maximum piece activity at the cost of a shattered pawn structure, seeking to seize the initiative regardless of cost. If Black is successful, the pawns will look after themselves. On the other hand, White is aiming to use Black's weaknesses as springboards for an attack of his own. Kensington to St Valery en Caux Everyman Chess

To find her abducted father and keep her sister safe from the lecherous politicians of 1899 New York City, seventeen-year-old Clara must journey to the wintry kingdom of Cane, where Anise, queen of the faeries, has ousted the royal family in favor of her own totalitarian, anti-human regime. Valerie Solanas Gambit Publications Now in English for the first time, the prequel to Vasily Grossman's *Life and Fate*, the War and Peace of the twentieth Century. In April 1942, Hitler and Mussolini meet in Salzburg where they agree on a renewed assault on the Soviet Union. Launched in the summer, the campaign soon picks up speed, as the routed Red Army is driven back to the industrial center of Stalingrad on the banks of the Volga. In the rubble of the bombed-out city, Soviet forces dig in for a last stand. The story told in Vasily Grossman's *Stalingrad* unfolds across the length and breadth of Russia and Europe, and its characters include mothers and daughters, husbands and brothers, generals, nurses, political activists, steelworkers, and

peasants, along with Hitler and other historical figures. At the heart of the novel is the Shaposhnikov family. Even as the Germans advance, the matriarch, Alexandra Vladimirovna, refuses to leave Stalingrad. Far from the front, her eldest daughter, Ludmila, is unhappily married to the Jewish physicist Viktor Shtrum. Viktor's research may be of crucial military importance, but he is distracted by thoughts of his mother in the Ukraine, lost behind German lines. In *Stalingrad*, published here for the first time in English translation, and in its celebrated sequel, *Life and Fate*, Grossman writes with extraordinary power and deep compassion about the disasters of war and the ruthlessness of totalitarianism, without, however, losing sight of the little things that are the daily currency of human existence or of humanity's inextinguishable, saving attachment to nature and life. Grossman's two-volume masterpiece can now be seen as one of the supreme accomplishments of twentieth-century literature, tender and fearless, intimate and epic.

### My First Chess Opening Repertoire for Black Gambit Publications

Every chess player needs to decide which openings he or she is going to play. But where do you start? The risk of drowning in the turbulent sea of chess opening theory is only too real for beginning amateurs. Often your goals and ambitions will be misguided. If you are trying to win in 20 moves, copy what's in fashion among top-GM's or memorize variations, you are wasting your time. Most likely you will never get to play your 'preparation' and end up aimlessly switching from one opening to the other. After the success of his volume for White, experienced French chess trainer Vincent Moret now provides a complete, ready-to-go chess opening repertoire for Black. It consists of a sound set of lines that do not outdate rapidly, do not require memorization and are easy to digest for beginners and post-beginners. To show the typical plans and the underlying ideas in the various lines of his repertoire, Moret not only selected games of Grandmasters. He also uses games of young, improving players to highlight the errors they tend to make.

Prepare for a different kind of singularity in Peter Watts' *Echopraxia*, the follow-up to the Hugo-nominated novel *Blindsight* It's the eve of the twenty-second century: a world where the dearly departed send postcards back from Heaven and evangelicals make scientific breakthroughs by speaking in tongues; where genetically engineered vampires

solve problems intractable to baseline humans and soldiers come with zombie switches that shut off self-awareness during combat. And it's all under surveillance by an alien presence that refuses to show itself. Daniel Bruks is a living fossil: a field biologist in a world where biology has turned computational, a cat's-paw used by terrorists to kill thousands. Taking refuge in the Oregon desert, he's turned his back on a humanity that shatters into strange new subspecies with every heartbeat. But he awakens one night to find himself at the center of a storm that will turn all of history inside-out. Now he's trapped on a ship bound for the center of the solar system. To his left is a grief-stricken soldier, obsessed by whispered messages from a dead son. To his right is a pilot who hasn't yet found the man she's sworn to kill on sight. A vampire and its entourage of zombie bodyguards lurk in the shadows behind. And dead ahead, a handful of rapture-stricken monks takes them all to a meeting with something they will only call "The Angels of the Asteroids." Their pilgrimage brings Dan Bruks, the fossil man, face-to-face with the biggest evolutionary breakpoint since the origin of thought itself. Sick of defending with Black? Never found a reliable way to fight for the initiative when White plays 1 d4? Allow Grandmaster Aveskulov to assist. He has put together a sound but ultra-aggressive repertoire based on gambits that have proved their worth in grandmaster play over many years. The Benko Gambit is dreaded by many 1 d4 players. Black gets very active piece-play, and even if White reaches a pawn-up endgame, he is often shocked to find he is worse due to Black's intense positional pressure! If White avoids the Benko, that's when we hit him with the Blumenfeld, sacrificing a pawn to set up a strong pawn-centre and attacking chances. Aveskulov examines all of White's options and move-orders after 1 d4 Nf6, and shows an aggressive reply to each of them. He is never willing to take existing theory on faith, and throughout the book presents an extraordinary wealth of new analysis and ideas. He also explains typical plans in depth, so you will always know how to turn the screw once you have your opponent on the run.

The Modern Benoni arises after 1.d4 Nf6 2.c4 c5 3.d5 e6. It leads to unbalanced structures and exciting play, so it has

naturally been a favourite of ambitious attacking players such as Tal, Fischer and, more recently, Topalov, Ivanchuk and Gashimov. The Modern Benoni is a bold answer to 1.d4 and GM Marian Petrov shows it is possible to play this line confidently without memorizing extreme levels of theory. Black must certainly be well prepared, but the workload is less than most aggressive defences - this book supplies all Black needs to know.

Based on 18 months of reporting, Woodward's 17th book is an intimate, documented examination of how President Obama and the highest profile Republican and Democratic leaders in the United States Congress attempted to restore the American economy and improve the federal government's fiscal condition over three and one half years. Drawn from memos, contemporaneous meeting notes, emails and in-depth interviews with the central players, THE PRICE OF POLITICS addresses the key issue of the presidential and congressional campaigns: the condition of the American economy and how and why we got there. Providing verbatim, day-by-day, even hour-by-hour accounts, the book shows what really happened, what drove the debates, negotiations and struggles that define, and will continue to define, the American future.
