The book includes chapters on what multi-bank financing is and who does it, relevant areas of law (including contract, torts, insolvency, tax, and statutes, such as the Bank Act), the mechanics of arranging loan syndications and loan participations, financial accommodation used (direct loans, bank guarantees, letters of credit, and bankers' acceptances), legal relations between parties in loan syndications and loan participations, rights and duties of the agent bank, securities regulation issues in loan syndications and loan participations, and accounting and tax issues in loan syndications and loan participations.

Agasha Mugasha argues that loan syndications, loan participations, and related practices are commercial transactions between sophisticated parties and should be analysed and regulated as such. Sample documents for syndicated facility agreements, participation agreements, sale and participation agreements, and standby letters of credit are provided in appendices. Based on law in Canada, particularly Ontario, *The Law of Multi-bank Financing* includes discussions of a significant body of United States jurisprudence as well as the most important court decisions in other common-law countries.

If you are tired of dodging phone calls from collectors or worrying about how missed payments have ruined your credit score, get yourself back to a more stable financial situation — one where credit card debt is a thing of the past.

One year ago I had bad credit. I was so very frustrated. I did not know how to fix it and everything I did seemed to make it worse. I had been renting for a long time and really wanted to purchase a new home for my family. So I began a one year project to fix my credit once and for all. I did not hire anyone to help, just a lot of research. I will be closing on my new house on April 30th 2015 with really great credit. No one else is on my loan, just me.

It was amazing to see banks beg for my business. I wrote this book to help others like me. This books breaks down the mysteries and even contains letters and numbers that you will need to make things right. Good luck to everyone who is reading this and I will see you on the other side!
