A JOOSR GUIDE TO **WORK RULES! BY LASZLO BOCK**

Hachette UK

From the visionary head of Google's innovative People Operations comes a groundbreaking inquiry into the philosophy of work -- and a blueprint for attracting the most spectacular talent to your business and ensuring that they succeed. "We spend more time working than doing anything else in

life. It's not right that the experience of work should be so demotivating and dehumanizing." So says Laszlo Bock, former head of People Operations at the company that transformed how the world interacts with knowledge. This insight is the heart of Work Rules!, a compelling and surprisingly playful manifesto that offers lessons including: Take away managers' power over employees Learn from your best employees-and your worst Hire only people who are smarter than you are, no matter how long it takes to find them Pay unfairly (it's more fair!) Don't trust your gut: Use data to predict and shape the future Default to open-be transparent and welcome feedback If you're comfortable with the amount of freedom you've given your employees, you haven't gone far enough. Drawing on the latest research in behavioral economics and a profound grasp of human psychology, Work Rules! also provides teaching examples from a range of industries-including lauded companies that happen

to be hideous places to work and little-known companies that achieve spectacular results by valuing and listening to their employees. Bock takes us inside one of history's most explosively successful businesses to reveal why Google is consistently rated one of the best places to work in the world, distilling 15 years of intensive worker R&D into principles that are easy to put into action, whether you're a team of one or a team of thousands. *Work Rules!* shows how to strike a balance between creativity and structure, leading to success you can measure in quality of life as well as market share. Read it to build a better company from within rather than from above; read it to reawaken your joy in what you do.

WHY GOOD PEOPLE CAN'T GET JOBS

"O'Reilly Media, Inc."

Today, the world offers us more options than ever before, but it also forces us to juggle more priorities, to make more choices, and to make them faster. The result: a crisis of doing too much, or not enough, and making our decisions based on impulse, stress or guilt. In *10-10-10* Suzy Welch offers an exciting, effective strategy that will help you make the right decision in any situation, at work or at home; with colleagues, family or friends. The rule is deceptively simple: when faced with a decision, consider what the consequences and outcomes of your various options would be in 10 minutes, 10 months, and 10 years. But the results are extraordinary. Using the framework of *10-10-10* will allow you to think through your decisions and to match them with the expectations and values you hold dearest. Most importantly, it allows you to chart a path in the direction you want, and to head confidently towards it with focus, balance, and joy.

"WE NEED TO TALK." In this urgent and insightful book, public radio journalist Celeste Headlee shows us how to bridge what divides us--by having real conversations **BASED ON THE TED TALK WITH OVER 10 MILLION VIEWS** NPR's Best Books of 2017 Winner of the 2017 Silver Nautilus Award in Relationships & Communication "We Need to Talk is an important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother." (Jessica Lahey, author of New York Times bestseller *The Gift of Failure*) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee, is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist—and offers simple tools that can improve anyone's communication. For example: **BE THERE OR GO ELSEWHERE**. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. **CHECK YOUR BIAS**. The belief that your intelligence protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others.

Check your bias before you judge someone else. **HIDE YOUR PHONE**. Don't just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you're struggling to communicate with your kid's teacher at school, an employee at work, or the people you love the most—Headlee offers smart strategies that can help us all have conversations that matter.

Wall Street Journal Bestseller! Next Big Idea Club selection—chosen by Malcolm Gladwell, Susan Cain, Dan Pink, and Adam Grant as one of the "two most groundbreaking new nonfiction reads of the season!" "A must-read that topples the idea that emotions don't belong in the workplace." --Susan Cain, author of *Quiet* A hilarious guide to effectively expressing your emotions at the office, finding fulfillment, and defining work-life balance on your own terms. How do you stop the office grouch from ruining your day? How do you enjoy a vacation without obsessing about the unanswered emails in your inbox? If you're a boss, what should you do when your new, eager hire wants to follow you on

Instagram? The modern workplace can be an emotional minefield, filled with confusing power structures and unwritten rules. We're expected to be authentic, but not too authentic. Professional, but not stiff. Friendly, but not an oversharer. Easier said than done! As both organizational consultants and regular people, we know what it's like to experience uncomfortable emotions at work - everything from mild jealousy and insecurity to panic and rage. Ignoring or suppressing what you feel hurts your health and productivity -- but so does letting your emotions run wild. Our goal in this book is to teach you how to figure out which emotions to toss, which to keep to yourself, and which to express in order to be both happier and more effective. We'll share some surprising new strategies, such as:

- * Be selectively vulnerable: Be honest about how you feel, but don't burden others with your deepest problems.
- * Remember that your feelings aren't facts: What we say isn't always what we mean. In times of conflict and miscommunication, try to talk about your emotions without getting emotional.
- * Be less passionate about your job: Taking a chill pill can actually make you healthier and more focused.

Drawing on what we've learned from behavioral economics, psychology, and our own experiences at countless organizations, we'll show you how to bring your best self (and your whole self) to work every day.

Named by The Washington Post as one of the 11 Leadership Books to Read in 2018 When it comes to recruiting, motivating, and creating great teams, Patty McCord says most companies have it all wrong. McCord helped create the unique and high-performing culture at Netflix, where she was chief talent officer. In her new book, *Powerful: Building a Culture of Freedom and Responsibility*, she shares what she learned there and elsewhere in Silicon Valley. McCord advocates practicing radical honesty in the workplace, saying good-bye to employees who don't fit the company's emerging needs, and motivating with challenging work, not promises, perks, and bonus plans. McCord argues that the old standbys of corporate HR—annual performance reviews, retention plans, employee empowerment and engagement programs—often end up being a colossal waste of time and resources. Her road-tested advice, offered with humor and irreverence, provides readers a different path for creating a culture of high performance and profitability. *Powerful* will change how you think about work and the way a business should be run.

Peter Cappelli confronts the myth of the skills gap and provides an actionable path forward to put people back to work. Even in a time of perilously high unemployment, companies contend that they cannot find the employees they need. Pointing to a skills gap, employers argue applicants are simply not qualified; schools aren't preparing students for jobs; the government isn't letting in enough high-skill immigrants; and even when the match is right, prospective employees won't accept jobs at the wages offered. In this powerful and fast-reading book, Peter Cappelli, Wharton management professor and director of Wharton's Center for Human Resources, debunks the arguments and

exposes the real reasons good people can't get hired. Drawing on jobs data, anecdotes from all sides of the employer-employee divide, and interviews with jobs professionals, he explores the paradoxical forces bearing down on the American workplace and lays out solutions that can help us break through what has become a crippling employer-employee stand-off. Among the questions he confronts: Is there really a skills gap? To what extent is the hiring process being held hostage by automated software that can crunch thousands of applications an hour? What kind of training could best bridge the gap between employer expectations and applicant realities, and who should foot the bill for it? Are schools really at fault? Named one of HR Magazine's Top 20 Most Influential Thinkers of 2011, Cappelli not only changes the way we think about hiring but points the way forward to rev America's job engine again.
