Annual Report 2017 World Bank Publications

The audited consolidated financial statements of the International Monetary Fund as of April 30, 2017 and 2016 include the related consolidated statements of comprehensive income, of changes in reserves, resources, and retained earnings, and of cash flows for the years then ended. The IMF's financial statements were audited by external auditing firm PricewaterhouseCoopers, LLC, which certified that they were prepared and presented in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board. The standards include the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

The Global Findex Database 2017 United Nations

The use of ICT applications has dipped into almost every aspect

of the business sector, including trade. With the volume of e-commerce increasing, international traders must switch their rules and practices to e-trade to survive in such a competitive market. However, the complexity of international trade, which covers customs processes, different legislation, specific documentation requirements, different languages, different currencies, and different payment systems and risk, presents its own challenges in this transition. Tools and Techniques for Implementing International E-Trading Tactics for Competitive Advantage examines the multidisciplinary approach of international e-trade as it applies to information technology, digital marketing, digital communication, online reputation management, and different legislation and risks. The content within this publication examines digital advertising, consumer behavior, and e-commerce and is designed for international traders, entrepreneurs, business professionals, researchers, academicians, and students.

GENERAL PRINCIPLES FOR INTERNATIONAL REMITTANCE

SERVICES

Red Globe Press

In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, *The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution* includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalindex.

Universal Social Protection to Achieve the Sustainable Development Goals

Walter de Gruyter GmbH & Co KG

The world is changing fast. It is imperative for aspirants of every competitive exam to keep themselves updated with the latest happenings and the causes and effects pertaining to these happenings. The aspirants must be aware of the fundamental structure/ tenets of our country that define the social, political and economic past, present and the future. Only these fundamentals build a foundation for larger self-improvement goals and the understanding of the global world. Disha's Mega Yearbook 2018, a thoroughly revised, reorganised, updated and ENLARGED 3rd edition, presents a comprehensive study of all the sections that are covered under the subject of General Knowledge. The Mega Yearbook 2018, the most authoritative and high-quality reference material book on all subjects - Current Affairs and General Knowledge - has specially been designed to cater to aspirants of various competitive exams like Civil services, Banks, Railways, UPSC and PSC exams and Quiz Competitions across the country. Given the latest exams structure, the book has been designed in a way that it will help aspirants get an insight into the recent developments and the types of questions asked therein. The Mega Yearbook 2018 has been divided into 2 inclusive parts: Part A - Current Affairs; Part B - General Knowledge. Current Affairs consists of: • Articles on issues India and the world grappling with, • India/ World Timeline, • People, Events, Ideas and Issues that left their mark in 2017, • India/ World at a Glance: Social-Economic-Political (Infographics), • Special coverage on Indian Economy, Union Budget 2017-18, Economic Survey, GST and Effects of Demonetization, • Global Economic Outlook, Bills & Acts, Policies & Schemes, • SWOT ANALYSIS -Indian Economic, Political & Social Climate, • India/ World's Who's Who, Emerging Trends, Books & Authors, Causes & Effects, Game Changers, Quote & Unquote, Mysteries solved/ unsolved, Popular Terms, Important Appointments, Awards &

Honours, Obituaries, Top 20, Coming up 2018 and many more. General Knowledge covers: • India/ World Panorama • Geography, History, Polity, Economy, Business, General Science, Technology, Ecology and Environment • People forever • Art & Culture, Sports, Healthcare, Communication, News & Media, Education & Career, IT & Computers • English Language, etc. The Mega Yearbook 2018 procures key information from the most credible sources from India as well as from abroad in a concise and easy-to-understand manner to help cover maximum material within a limited space. The book is a Ready Reckoner which will prove to be the cutting edge for the aspirants in cracking a competitive exam. The material has been given in bulleted points wherever necessary to make the content easy to grasp. The book has ample tabular charts, mind maps, graphic illustrations which further makes the learning process flexible and interesting. Hope the book will prove to be a milestone for the aspirants and they will be able to make it to the next exam they are aspiring for. The book also provides 52 WEEKLY Current Affairs Update ebook and eTests, which will keep you updated for the whole of 2018.

INNOVATIVE BUSINESS DEVELOPMENT—A GLOBAL PERSPECTIVE

International Monetary Fund

With the modernization of services offered through the internet, many traditional face-to-face services have adopted new e-service phenomena. Especially prevalent among the younger generations, this change in service has promoted many industries to rethink how to best reach their consumers using modern technology. *Structural Equation Modeling Approaches to E-Service Adoption* is a pivotal reference source that aims to share the latest empirical research findings within technology acceptance, information systems, information technology, human-computer interaction, and management information systems. While highlighting topics such as e-commerce, internet banking, and technology acceptance, this publication explores the understanding of today's e-services in a dynamic and complex environment, as well as the methods within the field of information systems and information technologies. This book is ideally designed for academics, students, managers, and scholars interested in the up-and-coming research surrounding the field of information technology.

THE FINANCIAL CRISIS INQUIRY REPORT, AUTHORIZED EDITION

IGI Global

As digital transformation has accelerated, the e-commerce landscape has become increasingly dynamic. New players have emerged at the same time that established actors have taken on new roles; some barriers to e-commerce at the firm, individual and country levels have been overcome, while other barriers have emerged. Innovative business models have transformed buyer-seller relationships and pushed out the frontier of what is possible to buy and sell online.

Financing for Sustainable Development Report Springer Nature

This report aims to deepen understanding of trends and developments in trade, investment and regional integration in the Asia-Pacific region; emerging issues in trade, investment and trade facilitation policies, and impacts of these policies on countries' abilities to meet the challenges of achieving inclusive and sustainable development. It offers innovative policy options to meet the challenges of achieving sustainable trade and investment. It contains separate country and subregional country briefs. Part I delves into recent trends and developments pertaining to trade in merchandise and commercial services, and foreign direct investment (FDI) flows. Part II analyses how trade

and investment are interlinked and can be channeled into sustainable development.

2017 INTERNATIONAL ECONOMICS CONFERENCE IN SIBIU (IECS)

Lulu.com

Over the last decade, socially responsible investments (SRIs) have become paramount to both professionals and academics. In the aftermath of the financial crisis of 2007-8, practitioners have become much more involved in new financial models that integrate returns and positive social and environmental impacts. The authors argue that previous irresponsible financial models are anachronistic, and propose a new relationship between stakeholder and shareholder. Starting from the mainstreaming of SRI, this book recovers the social function of banks and the innovative role of crowdfunding and venture capital models. The book offers a unified perspective for firm and funder, making it a timely and invaluable read for scholars and practitioners interested in sustainable development and social impact finance.

Report of the Inter-agency Task Force on Financing for Development 2020 Springer

The Global Findex Database 2017 Measuring Financial Inclusion and the Fintech Revolution World Bank Publications

STRATEGIC MANAGEMENT OF TECHNOLOGICAL INNOVATION, SIXTH EDITION

International Monetary Fund

While creating new forms (Shari'ah-compliant standards) to operationalize Islamic values and ethics into the current conventional economic system and banking products is crucial to sustain the Islamic economy as it is today, we also need to develop new strategies to cope with the next economic evolution. The digital revolution in financial services is under way, and digital disruption has the potential to shrink the role and relevance of today's banks, while simultaneously creating better, faster, cheaper services that will be an essential part of everyday life. This forward-looking book discusses the crucial innovation, structural and institutional development for financial technologies (fintech) in Islamic finance. The authors explain concepts in fintech and blockchain technology and follow through with their applications, challenges and evolving nature. The book provides insights into technology which will enable and enhance actual prescribed Islamic behaviors in modern economic transactions. Case studies highlight how to cope with modern transactional behavior with the advent of global online/mobile markets, shorter attention spans, and impersonal trade exchange.

Gender Parity Report 2017 Educreation Publishing

Financial technology (fintech) is emerging as an innovative way to achieve financial inclusion and the broader objective of inclusive growth. Thus far, fintech in the MENAP and CCA remains below potential with limited impact on financial inclusion. This paper reviews the fintech landscape in the MENAP and CCA regions, identifies the constraints to the growth of fintech and its contribution to inclusive growth and considers policy options to unlock the potential.

THE MEGA YEARBOOK 2018 - Current Affairs & General Knowledge for Competitive Exams with 52 Monthly ebook Updates & eTests - 3rd Edition The Global Findex Database 2017 Measuring Financial Inclusion and the Fintech Revolution Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is

structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

Emerging Issues in the Global Economy United Nations

The Financing for Sustainable Development Report (FSDR) assesses progress in implementing the commitments and actions in the Addis Ababa Action Agenda. Its 2020 edition puts an emphasis on digital technologies, and their potential to accelerate progress in financing for development and SDG achievement, as well as the risks and challenges they create.

The Era of Financial Interconnectedness---How Can Asia Strengthen Financial Resilience? United Nations

This book, written by A. Premchand, offers a comprehensive review of fiscal policies and their implications for budgeting and expenditure controls. It provides an in-depth discussion of techniques, procedures, and processes of budgeting with illustrative material drawn from the experiences of industrial and developing countries.

International Debt Statistics 2021 Springer

This book presents the proceedings of the International Science and Technology Conference "FarEastCon 2020," which took place on October 6-9, 2020, in Vladivostok, Russian Federation. The conference provided a platform for gathering expert opinions on projects and initiatives aimed at the implementation of far-sighted scientific research and development and allowed current theoretical and practical advances to be shared with the broader research community. Featuring selected papers from the conference, this book is of interest to experts in various fields whose work involves developing innovative solutions and increasing the efficiency of economic activities.

International Monetary Fund Annual Report 2017 Financial Statements Penguin

This paper highlights that despite severe limitations of resources, developing countries have made substantial progress during the past three decades in sending more children to school and in generally improving their education systems. Enrollment of children in schools at all levels has expanded at unprecedented rates. There has been a significant decline in the proportion of adults who are illiterate—from 44 percent in 1950 to 32 percent in 1975. Public expenditures for education have increased steadily in developing countries to reach roughly the same share of national product as in industrialized countries.

Bankers without Borders International Monetary Fund

Over a decade has passed since the collapse of the U.S. investment bank, Lehman Brothers, marked the onset of the largest global economic crisis since the Great Depression. The crisis revealed major shortcomings in market discipline, regulation and supervision, and reopened important policy debates on financial regulation. Since the onset of the crisis, emphasis has been placed on better regulation of banking systems and on enhancing the tools available to supervisory agencies to oversee banks and intervene speedily in case of distress. Drawing on ten years of data and analysis, Global Financial Development Report 2019/2020 provides evidence on the regulatory remedies adopted to prevent future financial troubles, and sheds light on important policy concerns. To what extent are regulatory reforms designed with high-income countries in mind appropriate for developing countries? What has been the impact of reforms on market discipline and bank capital? How should countries balance the political and social demands for a safety net for users of the financial system with potentially severe moral hazard consequences? Are higher capital requirements damaging to the flow of credit? How should capital regulation be designed to improve stability and access? The

report provides a synthesis of what we know, as well as areas where more evidence is still needed. Global Financial Development Report 2019/2020 is the fifth in a World Bank series. The accompanying website tracks financial systems in more than 200 economies before, during, and after the global financial crisis (<http://www.worldbank.org/en/publication/gfdr>) and provides information on how banking systems are regulated and supervised around the world (<http://www.worldbank.org/en/research/brief/BRSS>).

Fintech in Islamic Finance World Bank Publications

Giving this Nine Monthly manual, we all team members are very happy, as this will be very helpful to every aspirants in their current affairs norms, as well as for all competitive exams. This manual virtually is covering most of the current affairs related events from June 2017 Till Date. We have prepared this special manual keeping in mind that students need updated current affairs for several examinations like UPSC, State PSCs, Railways and other competitive examinations. We have prepared this manual in bullets with bold facts which eventually would be helpful for the students. This issue fulfills the need of a manual that will provide to students latest current affairs of the latest months in concise form. This issue covers Union Budget 2018-19, Economic Survey 2017-18, India State of Forest report -2017 and Census 2011 in easy format. In addition UP Budget 2018-19 is also included in briefs. In this manual Current affairs related to National, International, Sports, States, Science and Tech., Environment and ecology are also given. Apart from this more than thousand MCQs are given in this. Kindly send us your feedbacks and suggestions in order to make this magazine more meaningful and helpful. Wishing you all the luck for your brilliant future and bright success

International Monetary Fund

• New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, *What We Think About When We Try Not To Think About Global Warming* “There’s been no real way for ordinary

people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, Vox “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth’s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

October 2020, Vladivostok, Russian Federation, Far Eastern Federal University Edward Elgar Publishing

The United States - Mexico - Canada Agreement (USMCA) was signed on November 30, 2018 and aims to replace and modernize the North-American Free Trade Agreement (NAFTA). This paper uses a global, multisector, computable-general-equilibrium model to provide an analytical assessment of five key provisions in the new agreement, including tighter rules of origin in the automotive, textiles and apparel sectors, more liberalized agricultural trade, and other trade facilitation measures. The results show that together these provisions would adversely affect trade in the automotive, textiles and apparel sectors, while generating modest aggregate gains in terms of welfare, mostly driven by improved goods market access, with a negligible effect on real GDP. The welfare benefits from USMCA would be greatly enhanced with the elimination of U.S. tariffs on steel and aluminum imports from Canada and Mexico and the elimination of the Canadian and Mexican import surtaxes imposed after the U.S. tariffs were put in place.
