 The modern world is largely focused on the physical—on the appetites and senses, on doing and having—which can blind us to the spiritual realm. In *Natural Chi Movement*, Tienko Ting articulates a theory of life that unites the physical and spiritual worlds. He suggests there is nothing to learn or master; each of us—and every living thing—is a product of the merging of physical and spiritual energy, already endowed with the capacity to thrive and heal. Activation of our chi is the component to wellness that most of us have been missing. It is the essence of the practice of Natural Chi Movement. Natural Chi Movement guides modern seekers in embracing their spiritual nature and accessing the boundless potential of energy. Doing so, says Ting, can also help address global problems from health care to ecology. Featuring 23 illustrations, the book draws on Chinese history, philosophy, and medicine, as well as from the author's own work with spiritual energy. Natural Chi Movement is an exploration into the nature of spiritual energy and how to access and use it for vibrant health and optimal well being. Written in a simple, lucid style, Natural Chi Movement sheds much-needed light on the nature of the energy that makes up all life, opening up a world of extraordinary healing for everyone.

With so many urgent physical problems — poverty, pollution, wars — even good people sometimes wonder if meditation isn't a luxury. Meditation works so quietly that it may seem to have no connection with everyday problems. It may lower your blood pressure, but how does it help the world? Easwaran addresses this in a Question and Answer session with close students, in the Spring 2015 Journal of the Blue Mountain Center of Meditation. This journal is also available as a PDF free from our website [www.bmcm.org](http://www.bmcm.org)

Putting God Into Einstein's Equations: Energy of the Soul is the direct outcome of an unusual and unique collaboration by soul mates Marcia and Jerry Pollock spanning the spiritual and physical worlds. Marcia is deceased, and her contributions come from the powerful intelligent energy of her Divine soul, which is without her physical body in the spirit world. Jerry is alive with his Divine soul, which is constrained within his physical body on planet Earth. Communicating through thought-energy telepathy or channeling, the authors have written this exquisitely, simply explained book in their humble attempt of gratitude to bring new knowledge to the understanding of God's Essence and our world. The Creator Himself has endorsed our book, "TRUTH, LOVE AND WISDOM LIE WITHIN THESE PAGES." Putting God Into Einstein's Equations: Energy of the Soul is a provocative book that will stay with you long after you finish reading it. Have you ever wondered about how a psychic contacts a spirit or where God comes from? The book answers questions about God, the big bang, Einstein's Relativity Equations and how they fit in with God's energy, soul mates and love, the spirit world of souls, past lives, telepathic thought-energy communication, channeling, removing negative body-soul energy, intelligence of the soul, independent and combined functions of the soul versus the human brain, acquiring

spirituality, miracles, resurrection and reincarnation, the Devil, good and evil, science and spirituality, Creation and Evolution, and how a new soul that God will give us in the future Messianic Age at the End of Days will allow us to live for the eternity according to Einstein's Equations. God is energy and so is our Divine soul. Each of us receives a tiny "piece" of God's virtually infinite energy, and the difference between our energy and that of God is simply the enormous difference in order of magnitude when comparing God's energy to ours. The behavior of this energy mirrors the equations brilliantly originated and described by Albert Einstein with two exceptions -- the mass,  $m$  referenced in Einstein's famous equation,  $E=mc^2$ , is a special Mass,  $M$ , originating in God's energy particles, and God's and our soul energy travels at one million times the speed of light,  $c$ , or 186 billion miles per second. In fact, this Mass is the source of the independent intelligence and sensory properties found in the soul of all human brains. Putting God Into Einstein's Equations: Energy of the Soul is a provocative and compelling book that weaves together empirical, scientific observation, academic research, and theoretical and theological considerations, bolstered by revelatory, first-hand testimony bearing witness to the existence of the Divine soul in both the physical and spirit worlds. Contained in the pages of Putting God Into Einstein's Equations are moving, personal reflections on the authors' life experiences, from the thrill of discovering one's true soul mate to both traumatic and joyous events like a descent into bipolar depression, Divine miracles, and the pain and loss associated with the death of a loved one. Equally explored and discussed are practical first hand experiential techniques for hypnotic-spiritual world regression and directing spiritual energy and using light to alleviate negative forces. Above all else, Putting God Into Einstein's Equations seeks to advance an awareness and comprehension of God, drawing upon points of reference as diverse as Qigong and yoga to the word of rabbinical scholars.

To have an ordinary mortal experience in the spiritual world is beautiful, scary, and unreal but mostly, incomprehensible. In this book, *My Life in Two Worlds*, Cees tries to explain this incomprehensible experience. Topics such as the soul, intuition, guides, wandering souls and reincarnation are extensively discussed in easy to understand language. Based on his own

experiences in the spiritual world, Cees shares his quest with you. Cees' spiritual experiences from his youngest days to the present have put great pressure on his daily functioning. He later found out that these kind of experiences are called paranormal. After his undergraduate education, he began treating people and animals with his own paranormal therapy practice. Writing about his experience gives him peace and for the reader, creates the space to form their own opinion about what he writes.

A look at the metaphysical experiences that shaped the lives and work of 24 great men and women from the Renaissance to modern times • Chronicles the changing relationship with God, nature, and spirituality from the 16th century to the 20th century • Includes encounters with the paranormal of Ben Johnson, Isaac Newton, Mary Shelley, Leo Tolstoy, Doris Lessing, and Winston Churchill What role did the esoteric thought of Swedenborg play in the creative output of Honoré de Balzac? Did a supernatural encounter prompt Mary Wollstonecraft Shelley to focus her work on the theme of immortality? Building on his earlier research on communications with the spirit world that Victor Hugo, author of *Les Misérables*, experienced while in exile on the isle of Jersey, John Chambers now looks at the role occult knowledge and supernatural experiences played in the lives of 24 geniuses. His investigation spans the life and work of William Blake, Helena Blavatsky, and W. B. Yeats, whose esoteric interests are well known, as well as those little suspected of such encounters with worlds beyond ours, including Doris Lessing, Leo Tolstoy, Norman Mailer, Yukio Mishima, and Winston Churchill. Chambers presents more than a collection of anecdotes and newly revealed secrets. His research provides insightful historical context of the decisive turning point that took place with the collapse of Prague, the occult capital of Europe, in 1620, which resulted in the victory of Cartesian reality and Newton's scientific paradigm over the esoteric traditions that flourished until that time. The magical and occult world shown in the lives of these 24 great men and women offers us a glimpse of what could still be ours--a world that though it is now overshadowed by modern scientific and technological principles is yet still visible on the horizon through the visions and paranormal experiences of these geniuses.

*The Rose Chamber* is the autobiography of a modern-day initiate,

an ordinary woman who - after years of hard work in meditative practice - found her way into spiritual dimensions. As a child in Kenya, Caroline had glimpsed spiritual worlds in a beautiful and spontaneous experience, which convinced her of the existence of 'God'. Much later, she found herself in a difficult marriage as a young mother and began to meditate daily to cope with the pressures and deep unhappiness in her life. Twenty-three years on, after a severe and testing life crisis she met - as if by chance - a teacher who taught her to cross consciously into spirit realms; this potentially dangerous step required expert guidance. Caroline had to work on herself with ruthless honesty and clarity at every stage, with discipline and self-control, to gain true faculties of 'seeing' and 'hearing' in these normally hidden realms. The *Rose Chamber* tells the fascinating story of how Caroline's life experiences wove together her past, present and future and led to her growing spiritual awareness. She was granted specific glimpses of previous lives to help her to become conscious of how her very existence makes sense, and learnt that our human lives on earth are not only important to us as individuals, but are also essential to the whole cosmos and all the beings in it. This is not a theoretical book but an authentic account based on pure experience, with profound implications for modern people. A 'must read' of the 21st Century!

A thoughtful, real-world interpretation of the Rule of St. Benedict to guide us into a more balanced life. From informal versions of the Rule of St. Benedict to Twelve-Step groups and Weight Watchers, the basic human need for guidance and structure in the quest for wholeness is palpable and real. Out of her long experience as a spiritual director, mentor, and teacher, Margaret Guenther offers a warm and sensible guide for "the rest of us"—singles, couples, parents, extended families, members of churches—to create a helpful and balanced rule of life to help us in our search for faith. She explores ancient and contemporary meanings for the classic vows of poverty, chastity, and obedience, along with the distinctively Benedictine ethos of stability and conversion, pointing out the pitfalls of each. A series of short essays follows on the different elements of a rule of life—such as authority, money, pleasure, stinginess, friends,

enemies, and living through hard times. The final chapter gives practical ideas for crafting a rule of life that encourages each of us to grow, stretch, and flourish.

*Spiritual Journal* To usher you into the upcoming spiritual journey to unveil the secrets of the spirit realm, we offer you an inspiring parable that encapsulates the essence of the book in your hand and lights the way toward a deeper comprehension. In a small village nestled near the edge of a dense forest, lived a young woman named Ava. From a young age, Ava was intrigued by the stories her grandmother told about the mysterious "Spirit Life" that existed beyond the visible world. Her grandmother believed that there was a hidden realm where spirits and humans could interact, and that those who had a deep connection with the natural world could bridge the gap between these two worlds. As Ava grew older, she felt a deep yearning to explore the concept of Spirit Life further. She spent her days wandering through the forest, observing the wildlife and listening to the rustling leaves. She believed that the answers to her questions were hidden within the secrets of nature. One day, while sitting by a tranquil stream, Ava noticed a glimmering light dancing on the water's surface. As she reached out to touch it, she felt a surge of energy and found herself transported to a realm of ethereal beauty. This was the Spirit Realm, a place where the boundaries between the physical and spiritual worlds blurred. In the Spirit Realm, Ava encountered a guide named Elysia, a wise and gentle spirit who explained that those who held a deep reverence for life and a genuine connection with the natural world could access this

realm. Elysia became Ava's mentor, introducing her to the inhabitants of the Spirit Realm and teaching her about their interconnectedness with the physical world. Ava learned that the Spirit Realm was a place of profound wisdom and healing. Through her interactions with various spirits, a mischievous fox spirit, a serene tree spirit, and a playful river spirit, Ava gained insights into the balance of nature and the importance of preserving the delicate harmony between the realms. As Ava's understanding of the Spirit Realm deepened, she faced challenges that tested her resolve. Forces that sought to exploit the power of the Spirit Realm for personal gain threatened to disrupt the balance. With Elysia's guidance, Ava realized that it was her destiny to protect the connection between the worlds and ensure that the knowledge of the Spirit Realm was used for the greater good. Ava returned to her village with newfound knowledge and a sense of purpose. She shared her experiences with her grandmother and the villagers, inspiring them to reconnect with the natural world and embrace a more spiritual way of life. Together, they formed a community dedicated to preserving the balance between the realms. Unveiling the Secrets of the Spirit Realm" became not just a personal journey for Ava, but a journey that united a village and rekindled their connection to the spiritual essence of life. Through her adventures in both the physical and Spirit Realms, Ava demonstrated that by honoring the spirit within all living things, humans could create a harmonious existence that transcended the boundaries of the visible world.

*At Home in the World* ECKANKAR

Within the social sciences, other-than-human being's agency has often been denied and interbeing relationships have not been fully addressed. However, many indigenous worldviews and Western contemporary spiritual practices are shaping a very different reality, with various attempts to share the world with non-human beings, animate or inanimate, creating forms of relationships to "the living". This edited volume documents how humans deal with non-human entities in a large variety of cultural contexts. It focuses on ritual processes and how ritual creativity is mobilised to invent new ways of relating with more-than-humans. Comprising nine case studies, the volume is divided into three main sections that address successively daily interactions, political implications, and spiritual engagements. Cooperative

interactions, kinship relations, senses of belonging, traditional healing techniques, non-human beings' legal personality attribution, transformative experiences, and phenomenological relationalities are examined in various locations: West Africa,

Buryatia, Estonia, Finland, France, Mexico, Nepalese Himalayas, Sweden and Wales. Chapters "Relating with More-than-Humans: Interbeing Ritality and Spiritual Practices in a Living World—An Introduction" and "Ritual Animism: Indigenous Performances,
