*Engineering in the Ancient World, Revised Edition* Harvard University Press  
The first in a four-volume set, *The Cambridge World History of Violence, Volume 1* provides a comprehensive examination of violence in prehistory and the ancient world. Covering the Palaeolithic through to the end of classical antiquity, the chapters take a global perspective spanning sub-Saharan Africa, the Near East, Europe, India, China, Japan and Central America. Unlike many previous works, this book does not focus only on warfare but examines violence as a broader phenomenon. The historical approach complements, and in some cases critiques, previous research on the anthropology and psychology of violence in the human story. Written by a team of contributors who are experts in each of their respective fields, Volume 1 will be of particular interest to anyone fascinated by archaeology and the ancient world.

*Ancient Rome* Ebury Press

Gibbon offers an explanation for why the Roman Empire fell, a task made difficult by a lack of comprehensive written sources, though he was not the only historian to tackle the subject. Most of

his ideas are directly taken from what few relevant records were available: those of the Roman moralists of the 4th and 5th centuries.

*The Roman Empire: A Very Short Introduction* Routledge

In a new edition of this highly acclaimed book, the author reveals the engineering know-how of the ancient Greeks and Romans. In fascinating detail he describes how they developed and constructed their machines, and considers how the same principles are used in modern-day engineering.

**Art in World History 2 Vols**

Cambridge University Press

Explores future visions under a universalizing empire that many thought would never die.

*Syllabus for Secondary Schools, 1905 ...*  
Routledge

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE KANSAS CITY STAR

From Anthony Everitt, the bestselling author of acclaimed biographies of Cicero, Augustus, and Hadrian, comes a riveting, magisterial account of Rome and its remarkable ascent from an obscure agrarian backwater to the greatest empire the world has ever known. Emerging as a market town from a cluster of hill villages in the eighth and seventh centuries B.C., Rome grew to become the ancient world's preeminent power. Everitt fashions the story of

Rome's rise to glory into an erudite page-turner filled with lasting lessons for our time. He chronicles the clash between patricians and plebeians that defined the politics of the Republic. He shows how Rome's shrewd strategy of offering citizenship to her defeated subjects was instrumental in expanding the reach of her burgeoning empire. And he outlines the corrosion of constitutional norms that accompanied Rome's imperial expansion, as old habits of political compromise gave way, leading to violence and civil war. In the end, unimaginable wealth and power corrupted the traditional virtues of the Republic, and Rome was left triumphant everywhere except within its own borders. Everitt paints indelible portraits of the great Romans—and non-Romans—who left their mark on the world out of which the mighty empire grew: Cincinnatus, Rome's George Washington, the very model of the patrician warrior/aristocrat; the brilliant general Scipio Africanus, who turned back a challenge from the Carthaginian legend Hannibal; and Alexander the Great, the invincible Macedonian conqueror who became a role model for generations of would-be Roman rulers. Here also are the intellectual and philosophical leaders whose observations on the art of government and "the good life" have inspired every Western power from antiquity to the present: Cato the Elder, the famously incorruptible statesman who spoke out against the decadence of his times, and Cicero, the consummate orator whose championing of republican institutions put him on a collision course with Julius Caesar and whose writings on justice and liberty continue to inform our political discourse today. Rome's decline and fall have long fascinated historians,

but the story of how the empire was won is every bit as compelling. With *The Rise of Rome*, one of our most revered chroniclers of the ancient world tells that tale in a way that will galvanize, inform, and enlighten modern readers. Praise for *The Rise of Rome* "Fascinating history and a great read."—Chicago Sun-Times "An engrossing history of a relentlessly pugnacious city's 500-year rise to empire."—Kirkus Reviews "Rome's history abounds with remarkable figures. . . . Everitt writes for the informed and the uninformed general reader alike, in a brisk, conversational style, with a modern attitude of skepticism and realism."—The Dallas Morning News "[A] lively and readable account . . . Roman history has an uncanny ability to resonate with contemporary events."—Maclean's "Elegant, swift and faultless as an introduction to his subject."—The Spectator "[An] engaging work that will captivate and inform from beginning to end."—Booklist

**A History of Roman Art** Elsevier Health Sciences

"Focusing on six momentous turning points that helped to shape Roman history, Simon Baker's gripping narrative charts the rise and fall of the world's first superpower - a political machine unmatched in its brutality, its genius, its lust for power." --DUST JACKET.

## THE FUTURE OF ROME

Loeb Classical Library

Get a solid, global foundation of the therapies and evidence-based clinical applications of CAI. *Fundamentals of Complementary, Alternative, and Integrative Medicine*, 6th Edition is filled with the most up-to-date information on scientific theory and research of holistic medicine from experts around the world. The 6th edition of this acclaimed text

includes all new content on quantum biology and biofields in health and nursing, integrative mental health care, and homeopathic medicine. Its wide range of topics explores therapies most commonly seen in the U.S., such as energy medicine, mind-body therapies, and reflexology along with traditional medicine and practices from around the world. With detailed coverage of historic and contemporary applications, this text is a solid resource for all practitioners in the medical, health, and science fields! Coverage of CAI therapies and systems includes those most commonly encountered or growing in popularity, so you can carefully evaluate each treatment. An evidence-based approach focuses on treatments best supported by clinical trials and scientific evidence. Observations from mechanisms of action to evidence of clinical efficacy answers questions of how, why, and when CAM therapies work. A unique synthesis of information, including historical usage, cultural and social analysis, current basic science theory and research, and a wide range of clinical investigations and observations, makes this text a focused, authoritative resource. Global coverage includes discussions of traditional healing arts from Europe, Asia, Africa, and the Americas. Clinical guides for selecting therapies, and new advances for matching the appropriate therapy to the individual patient, enables you to offer and/or recommend individualized patient care. Expert contributors include well-known writers such as Kevin Ergil, Patch Adams, Joseph Pizzorno, and Marc Micozzi. A unique history of CAI traces CAM therapies from their beginnings to present day practices. Suggested readings and references on the companion website list the best resources for further research and study.

NEW! Added chapters offer fresh perspective on quantum biology and biofields in health and nursing, integrative mental health care, and homeopathic medicine. NEW! Updated chapters feature new content and topics, including: challenges in integrative medicine, legal issues, CAI in the community, psychometric evaluation, placebo effect, stress management, and much more! NEW! Updated guides on common herbal remedies in clinical practice, East and Southeast Asia, and native North and South America deliver the latest information. NEW! Basic science content and new theory and research studies cover a wide range of sciences such as biophysics, biology and ecology, ethnomedicine, psychometrics, neurosciences, and systems theory. NEW! Expanded global ethnomedical systems includes new content on Shamanism and Neo-Shamanism, Central and North Asia, Southeast Asia, Nepal and Tibet, Hawaii and South Pacific, Alaska and Pacific Northwest, and contemporary global healthcare.

### **A COMPANION TO WOMEN IN THE ANCIENT WORLD**

Simon and Schuster

Provides sample questions and answers, recommended readings, maps, and activities.

### **ROMAN ART**

Oxford University Press

A guide to the establishment of the library which covers materials acquisition, the organization and usage of the library's collection to provide a variety of services and the use of automation. This book aims to instruct the librarian on managing the small library effectively.

*An Alternative History from Ancient*

*Rome to Early Modern Germany* Palala Press

"The Twelve Tables" by Anonymous (translated by Paul R. Coleman-Norton). Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

**Intended for Use in Secondary Schools** Cambridge University Press  
The Roman Empire was a remarkable achievement. With a population of sixty million people, it encircled the Mediterranean and stretched from northern England to North Africa and Syria. This Very Short Introduction covers the history of the empire at its height, looking at its people, religions and social structures. It explains how it deployed violence, 'romanisation', and tactical power to develop an astonishingly uniform culture from Rome to its furthest outreaches.

*Annual Report of the Education Department* John Wiley & Sons  
E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History*

brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

*The History of the Decline and Fall of the Roman Empire* Univ of California Press  
"Explores the spirituality of St. Peter Damian, a reformer of church and society in the Middle Ages; explores tension between a call to solitude and holiness and a call to prophetic social and ecclesial engagement"--

**Religio Romana Handbook** Peace Hill Press

This book uses ancient souvenirs and memorabilia to reveal the experiences, interests, imaginations, and aspirations of ordinary ancient Romans.

## ROMAN, GREEK, JEWISH AND CHRISTIAN VISIONS

CreateSpace  
Contains proceedings of various teachers' associations, academic examination papers, etc.

## THE STORY OF THE WORLD

Cambridge University Press  
Selected by Choice as a 2012

Outstanding Academic Title Awarded a 2012 PROSE Honorable Mention as a Single Volume Reference/Humanities & Social Sciences A Companion to Women in the Ancient World presents an interdisciplinary, methodologically-based collection of newly-commissioned essays from prominent scholars on the study of women in the ancient world. The first interdisciplinary, methodologically-based collection of readings to address the study of women in the ancient world Explores a broad range of topics relating to women in antiquity, including: Mother-Goddess Theory; Women in Homer, Pre-Roman Italy, the Near East; Women and the Family, the State, and Religion; Dress and Adornment; Female Patronage; Hellenistic Queens; Imperial Women; Women in Late Antiquity; Early Women Saints; and many more Thematically arranged to emphasize the importance of historical themes of continuity, development, and innovation Reconsiders much of the well-known evidence and preconceived notions relating to women in antiquity Includes contributions from many of the most prominent scholars associated with the study of women in antiquity

[The History of Rome](#) CUA Press  
With commanding skill, Thomas R. Martin tells the remarkable and dramatic story of how a tiny, poor, and threatened settlement grew to become, during its height, the dominant power in the

Mediterranean world for 500 years.  
*A Little History of the World* John Wiley & Sons

The main part of Polybius's history covers the years 264-146 BCE. It describes the rise of Rome to the destruction of Carthage and the domination of Greece by Rome.--From publisher description.

**The Origins of Nationalism** John Wiley & Sons

This is a reprinting with different page numbers of the first 30 pages of the Education Dept's Secondary education bulletin no. 27. In addition to the English syllabus, it includes a historical sketch of the use of academic syllabi in New York State and an introduction to the entire syllabus.

[Souvenirs and the Experience of Empire in Ancient Rome](#) Metropolitan Museum of Art

A complete introduction to the rich cultural legacy of Rome through the study of Roman art ... It includes a discussion of the relevance of Rome to the modern world, a short historical overview, and descriptions of forty-five works of art in the Roman collection organized in three thematic sections: Power and Authority in Roman Portraiture; Myth, Religion, and the Afterlife; and Daily Life in Ancient Rome. This resource also provides lesson plans and classroom activities."--Publisher website.
