Listening according to mood is likely to be what most people do when they listen to music. We want to take part in, or even be part of, the emerging world of the musical work. Using the sources of musical history and philosophy, Erik Wallrup explores this extremely vague and elusive phenomenon, which is held to be fundamental to musical hearing. Wallrup unfolds the untold musical history of the German word for 'mood', Stimmung, which in the 19th century was abundant in the musical aesthetics of the German-Austrian sphere. Martin Heidegger's much-discussed philosophy of Stimmung is introduced into the field of music, allowing Wallrup to realise fully the potential of the concept. Mood in music, or, to be more precise, musical attunement, should not be seen as a peculiar kind of emotionality, but that which constitutes fundamentally the relationship between listener and music. Exploring mood, or attunement, is indispensable for a thorough understanding of the act of listening to music.

Over 55% of your day is spent listening; yet only 2% of us have been trained in how to listen. What is poor listening costing you?

Do you rush from meeting to meeting, your head buried in the last conversation you had, without time to think of the next? Or feel frustrated with unproductive discussions where the loudest in the room adds limited insight and drowns out everyone else? We usually think of these situations as communication problems; that we have not spoken our needs correctly or clearly. Yet, conflict, chaos and confusion are the costs of not listening. Many communication and listening books say the most important person in a conversation is the speaker - not true! This pocket-sized guide will help you to reconnect with your innate gift of deep listening, to create the right space to listen to yourself before you listen to others. You'll learn to listen beyond the words that are spoken, to add context and meaning and listen in to what's not being said. Deep Listening will help you move from confusion and conflict to thoughtful, insightful and powerful discussions that will transform not just your work, but your whole life.

Active listening is a person's willingness and ability to hear and understand. At its core, active listening is a state of mind that involves paying full and careful attention to the other person, avoiding premature judgment, reflecting understanding, clarifying information, summarizing, and sharing. By learning and committing to the skills and behaviors of active listening, leaders can become more effective listeners and, over time, improve their ability to lead.

How does the constant presence of music in modern life—on iPods, in shops and elevators, on television—affect the way we listen? With so much of this sound, whether imposed or chosen, only partially present to us, is the act of listening degraded by such passive listening? In *Ubiquitous Listening*, Anahid Kassabian investigates the many sounds that surround us and argues that this ubiquity has led to different kinds of listening. Kassabian argues for a new examination of the music we do not normally hear (and by implication, that we do), one that examines the way it is used as a marketing tool and a mood modulator, and exploring the ways we engage with this music.

Through a series of exquisite encounters with children, and through a lucid opening up of new aspects of poststructuralist theorizing, Bronwyn Davies opens up new ways of thinking about, and intra-acting with, children. This book carefully guides the reader through a wave of thought that turns the known into the unknown, and then slowly, carefully, makes new forms of thought comprehensible, opening, through all the senses, a deep understanding of our embeddedness in encounters with each other and with the material world. This book takes us into Reggio-Emilia-inspired Swedish preschools in Sweden, into the author's own community in Australia, into poignant memories of childhood, and offers the reader insights into: new ways of thinking about children and their communities; the act of listening as emergent and alive; ourselves as mobile and multiple subjects; the importance of remaining open to the not-yet-known. Defining research as diffractive, and as experimental, Davies' relationship to the teachers and pedagogues she worked with is one of co-experimentation. Her relationship with the children is one in which she explores the ways in which her own new thinking and being might emerge, even as old ways of thinking and being assert themselves and interfere with the unfolding of the new. She draws us into her ongoing experimentation, asking that we think hard, all the while delighting our senses with the poetry of her writing, and the stories of her encounters with children.

Christianity Today's Book of the Year Award Logos Association Bookstore Award Bookwiser's Favorite Books of the Year Outreach Magazine Resource of the Year "Be quick to listen, slow to speak." —James 1:19 How would our lives change if we approached every experience with the intention of listening first? In this noisy, distracting world, it is difficult to truly hear. People talk past each other, eager to be heard but somehow deaf to what is being said. Listening is an essential skill for healthy relationships, both with God and with other people. But it is more than that: listening is a way of life. Adam McHugh places listening at the heart of our spirituality, our relationships and our mission in the world. God himself is the God who hears, and we too can learn to hear what God may be saying through creation, through Scripture, through people. By cultivating a posture of listening, we become more attentive and engaged with those around us. Listening shapes us and equips us to be more attuned to people in pain and more able to minister to those in distress. Our lives are qualitatively different—indeed, better—when we become listeners. Heed the call to the listening life, and hear what God is doing in you and the world.

"As good as we humans are at division, we're better still at connection. Ties That Bind shows this again and again." —The New York Times "A testimony to the power of narrative and vision. . . . The collection successfully fulfills its mission: to make readers feel 'more connected, awake, and alive.'" —Publishers Weekly A celebration of the relationships that bring us strength, purpose, and joy Ties That Bind honors the people who nourish and strengthen us. StoryCorps founder Dave Isay draws from ten years of the revolutionary oral history project's rich archives, collecting conversations that celebrate the power of the human bond and capture the moment at which individuals become

family. Between blood relations, friends, coworkers, and neighbors, in the most trying circumstances and in the unlikeliest of places, enduring connections are formed and lives are forever changed. The stories shared in *Ties That Bind* reveal our need to reach out, to support, and to share life's burdens and joys. We meet two brothers, separately cast out by their parents, who reconnect and rebuild a new family around each other. We encounter unexpected joy: A gay woman reveals to her beloved granddaughter that she grew up believing that family was a happiness she would never be able to experience. We witness lifechanging friendship: An Iraq war veteran recalls his wartime bond with two local children and how his relationship with his wife helped him overcome the trauma of losing them. Against unspeakable odds, at their most desperate moments, the individuals we meet in *Ties That Bind* find their way to one another, discovering hope and healing. Commemorating ten years of StoryCorps, the conversations collected in *Ties That Bind* are a testament to the transformational power of listening. Dave Isay's latest book, *Callings*, published in 2016 from Penguin Press.

In today's world of disconnection, multi-tasking, and distraction, the art of listening is very important. Listening is our access to understanding. Few of us were taught "good" listening, the kind of listening that helps us examine and challenge the information we hear and thereby improve our decision-making. Breakdowns in communication occur often and usually lead to a wide range of social problems. Listening is the foundation of good communication and brings us closer to one another. The book will show you how simple it is not only to connect with another person but also with yourself, just by listening in a way that comes naturally to you. It requires no effort, no "hard work." What emerges from these conversations? Transformation. And above all, love.

"Not since the late Leonard Bernstein has classical music had a combination salesman-teacher as irresistible as Kapilow."

—Kansas City Star  
Few people in recent memory have dedicated themselves as devotedly to the story of twentieth-century American music as Rob Kapilow, the composer, conductor, and host of the hit NPR music radio program, *What Makes It Great?* Now, in *Listening for America*, he turns his keen ear to the Great American Songbook, bringing many of our favorite classics to life through the songs and stories of eight of the twentieth century's most treasured American composers—Kern, Porter, Gershwin, Arlen, Berlin, Rodgers, Bernstein, and Sondheim. Hardly confining himself to celebrating what makes these catchy melodies so unforgettable, Kapilow delves deeply into how issues of race, immigration, sexuality, and appropriation intertwine in masterpieces like *Show Boat* and *West Side Story*. A book not just about musical theater but about America itself, *Listening for America* is equally for the devotee, the singer, the music student, or for anyone intrigued by how popular music has shaped the larger culture, and promises to be the ideal gift book for years to come.
