Celtic Faerie Craft and Elemental Magic Simon and Schuster

My magic burns inside me... Not all soulmates are created equal. Some of them are relieved to find each other. Some build a relationship nice and slow. And for some of them it's that all consuming, love-at-first-sight kind of magic, like my twin sister Tegan and her other half, Tennessee. Then there are some where the girl is so up in her head and freaked the hell out that she actually, sorta, kinda, resents the guy who's supposed to bring her happiness simply for his mere existence. AKA. ME. It's time for me to be the soulmate Deacon deserves, even if it means trading in my cowgirl boots for designer stilettos. But Manhattan is a huge, terrifying city full of a society of witches determined to tear us apart.

When powerful earth sorcerers forsook their vows to harness the earth not with magic, but with science, their brethren struck them down and hunted them to the last. Or so they thought... Now, five hundred years later, one person seeks to carry on the work of those first early thinkers by making the parts of their greatest creation whole again. Aaron and Shanna fall victim to these ambitions when their home is leveled by a surprise elemental attack. In the ensuing chaos, the two are separated. For Shanna, hardship soon turns to fortune, as she finds herself embarking upon the greatest adventure of her life. Only the worst of nightmares awaits Aaron. Hunted at every turn, the only thing keeping him alive is his own resourcefulness and an eslar mercenary whose reputation as a killer might make him the worst threat of all. Though Aaron and Shanna travel different paths, their purpose is joined when they individually learn of the mysterious Fifth Element. Shanna sees it as the final piece in the puzzle that is her destiny. To Aaron's logical mind, it is an impossible ambiguity. Whatever the answer, the Fifth Element draws them back together and into a final confrontation that will mean the end of everything unless they succeed.

A lost colony is reborn in this heart-pounding fantasy adventure set in the near future. Enter the world of the Elementals, which James Dashner called “completely gripping and full of intrigue,

revelation, mystery, and suspense.” Sixteen-year-old Thomas has always been an outsider. The first child born without the power of an element—earth, water, wind, or fire—he has little to offer his tiny, remote Outer Banks colony. Or so the Guardians would have him believe. In the wake of an unforeseen storm, desperate pirates kidnap the Guardians, intent on claiming the island as their own. Caught between the Plague-ridden mainland and the advancing pirates, Thomas and his friends fight for survival in the battered remains of a mysterious abandoned settlement. But the secrets they unearth will turn Thomas's world upside-down, and bring to light not only a treacherous past but also a future more dangerous than he can possibly imagine. Written by an award-winning author, this dynamic series is perfect for fans of dystopian thrillers like James Dashner's *The Maze Runner* and Marie Lu's *Legend*. “Plenty of action for readers who enjoy survival stories with a twist of the supernatural and a hint of romance.” –School Library Journal “The novel's captivating storyline, rapid pace, and cliffhanger ending are sure to leave fans of novels like Grant's *Gone* series absorbed with the action and anxious for a sequel.” –Bulletin of the Center for Children's Books “Engaging characters and plenty of mystery, adventure, and action.” - Publishers Weekly
