A much-praised memoir of living and surviving mental illness as well as "a stereotype-shattering look at a tenacious woman whose brain is her best friend and her worst enemy" (Time). Elyn R. Saks is an esteemed professor, lawyer, and psychiatrist and is the Orrin B. Evans Professor of Law, Psychology, Psychiatry, and the Behavioral Sciences at the University of Southern California Law School, yet she has suffered from schizophrenia for most of her life, and still has ongoing major episodes of the illness. *The Center Cannot Hold* is the eloquent, moving story of Elyn's life, from the first time that she heard voices speaking to her as a young teenager, to attempted suicides in college, through learning to live on her own as an adult in an often terrifying world. Saks discusses frankly the paranoia, the inability to tell imaginary fears from real ones, the voices in her head telling her to kill herself (and to harm others), as well as the incredibly difficult obstacles she overcame to become a highly respected professional. This beautifully written memoir is destined to become a classic in its genre.

FLEETWOOD MAC - ANTHOLOGY SONGBOOK

Hal Leonard Corporation

#1 New York Times Bestseller: The definitive book on the sinking of the Titanic, based on interviews with survivors, by the author of *The Miracle of Dunkirk*. At first, no one but the lookout recognized the sound. Passengers described it as the impact of a heavy wave, a scraping noise, or the tearing of a long calico strip. In fact, it was the sound of the world's most famous ocean liner striking an iceberg, and it served as the death knell for 1,500 souls. In the next two hours and forty minutes, the maiden voyage of the Titanic became one of history's worst maritime accidents. As the ship's deck slipped closer to the icy waterline, women pleaded with their husbands to join them on lifeboats. Men changed into their evening clothes to meet death with dignity. And in steerage, hundreds fought bitterly against certain

death. At 2:15 a.m. the ship's band played "Autumn." Five minutes later, the Titanic was gone. Based on interviews with sixty-three survivors, Lord's moment-by-moment account is among the finest books written about one of the twentieth century's bleakest nights.

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary

founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.
