"Seelert's stories and wisdom demonstrate
that the principles and practices leading to
winning results in sports are highly
transferable to the building of brands,
businesses, and organizations. This book
tells you how." —Jack Twyman, NBA Hall of
Fame player, former ABC Game of the
Week announcer, and former Chairman

and CEO, Super Food Services Inc.

"Seelert's comprehensive revelation of his
leadership wisdom is priceless—especially
the management of culture through
innovative communications, fueled by
rock-solid personal spirit and style. Read
and succeed . . . it's that actionable. Bob's
the real leadership deal." —John W. Luther,
President, Luther & Company, Strategic
Growth Consulting "I've never been at my
best when working for a boss in the
traditional sense . . . Authority is not my

favorite cultural tool. I am at my best (maybe like you) when I have a coach and mentor. Bob Seelert has played that role for over a decade, providing me with counsel, guidance, perspective, and unconditional love and support. Oh yes, and wisdom. Lots of it! You'll find out what I mean when you read this book." —Kevin Roberts, CEO Worldwide, Saatchi & Saatchi "Bob Seelert entered Saatchi & Saatchi in early 1995 when the company was in flux and extremely unstable. In a few short years, he not only stabilized the business, he grew it into an even greater advertising powerhouse than it once was. If anyone is qualified to write about business turnarounds, it's Seelert!" —David Herro, Chief Investment Officer-International, Harris Associates LP "Spencer Stuart placed Bob Seelert into leadership positions at Kayser-Roth and Saatchi & Saatchi at times when success seemed impossible, but failure was not an acceptable option. In both situations, he achieved highly successful turnarounds, and his stories tell you why." —Thomas Neff, Chairman, Spencer Stuart USA "Bob Seelert and I worked together for twenty years, and I saw firsthand how the wisdom

in this book enabled him to build businesses and organizations. For MBA students and other aspiring business leaders, this book will become their well-thumbed how-to guide for constructing a successful career." —Erv Shames, Lecturer, University of Virginia Darden Graduate School of Business and former President and CEO, General Foods USA and Borden, Inc.

Ethnomusicology: A Research and Information Guide is an annotated bibliography to books, recordings, videos, and websites in the field of ethnomusicology. The book is divided into two parts. Part One is organized by resource type in categories of greatest concern to students and scholars. It includes handbooks and guides; encyclopedias and dictionaries; indexes and bibliographies; journals; media sources; and archives. It also offers annotated entries on the basic literature of ethnomusicological history and research. Part Two provides a list of current publications in the field that are widely used by ethnomusicologists. Multiply

indexed, this book serves as an excellent tool for librarians, researchers, and scholars in sorting through the massive amount of new material that has appeared in the field over the last decades.

This comprehensive listing and discussion of poetic works supports the standards of all areas of the curriculum, helping librarians and teachers working with kindergarten through middle school students. This second edition of *Using Poetry Across the Curriculum: Learning to Love Language* offers a comprehensive list of poetry anthologies, poetic picture books, and poetic prose works in a wide variety of subject areas. While it maintains the original edition's focus on ideas and resource lists for integration of poetry into all areas of the curriculum, it is thoroughly revised to cover current issues in education and the wealth of new poetry books available. The book is organized by subject areas commonly taught in elementary and middle schools, and, within these, by the national standards in each area. Numerous examples of poetry

and poetic prose that can be used to help students understand and appreciate aspects of the standard are listed. A sampling of units that arise from groups of works, writing and performance ideas, and links across the curriculum is also included. While many teaching ideas and topics provide references to the standards they meet, this title is unique in starting with those standards and making links across them.

In einem Europa, das von Entdemokratisierung und Entsolidarisierung geprägt ist, zeigt der Autor Wege der Transition auf: hin zu einem starken und polymorphen Europa mit ausgeprägten und demokratisch organisierten Institutionen. Ausgangspunkt der Analyse sind der Zusammenbruch des Warschauer Paktes und die Transitionsprozesse in Mittel- und Osteuropa. In drei großen Teilen werden Begrifflichkeiten geklärt und das Verhältnis der mittel- und osteuropäischen untereinander analysiert sowie Bruch und Annäherung von Ost und West anschaulich dargestellt. Zunächst wird in Teil I die

Phase nach dem Fall der Berliner Mauer bis zum Jahr 2008 mit all ihren Paradoxien und Annäherungsprozessen nachgezeichnet, bevor sich anschließend ab 2008/09 die Phase der großen Krisen (Teil II) andeutet. In Teil III wird ein kleiner Ausblick gewagt, der trotz Corona bedenkenswert ist.

This innovative interdisciplinary study compares the uses of painting in literary texts and films. In developing a framework of four types of ekphrasis, the author argues for the expansion of the concept of ekphrasis by demonstrating its applicability as interpretive tool to films about the visual arts and artists. Analyzing selected works of art by Goya, Rembrandt, and Vermeer and their ekphrastic treatment in various texts and films, this book examines how the medium of ekphrasis affects the representation of the visual arts in order to show what the differences imply about issues such as gender roles and the function of art for the construction of a personal or social identity. Because of its highly cross-disciplinary nature, this book is of interest

not only to scholars of literature and aesthetics, but also for scholars of film studies. By providing an innovative approach to discussing non-documentary films about artists, the author shows that ekphrasis is a useful tool for exploring both aesthetic concerns and ideological issues in film. This study also addresses art historians as it deals with the reception of major artists in European literature and film throughout the 20th century.

In *Won in Translation* Roger Chartier, one of the world's leading historians of books, publishing, and reading, considers the mobility of the early modern text and the plurality of circulating versions of the same work. The agent for both is translation, for through their lexical, aesthetic, and cultural decisions, translators always assign new meaning or new status to what they translate. *Won in Translation* proceeds by way of four case studies, three dedicated to works originally in Spanish, the fourth to a Portuguese dramatic adaptation of *Don Quixote*. Bartolomé de Las Casas' *Brevísima relación de la destrucción de las*

Indias, first printed in 1552, was a powerful instrument for the construction of what was later called the "black legend" of Spanish monarchy. Baltasar Gracián's *Oráculo Manual*, published in 1647, became the most famous courtier's manual in Europe. Both traveled more widely and were translated more often than any other books of their era. For Chartier they illustrate the great power of translation, which allowed Las Casas' account to be placed in multiple and successive contexts and enabled Gracián's book to take on a range of meanings it had not originally had. Chartier's next two chapters are devoted to plays, one by Lope de Vega, the other by Antônio José da Silva. In the case of Lope's *Fuente Ovejuna*, the "translation" was one from historical chronicle to dramatic performance. In Antônio José da Silva's *Vida do Grande D. Quixote*, the textual migration is twofold, as Cervantes' hero moves from Spanish to Portuguese and from novel to play. In an Epilogue, Chartier moves three centuries forward to consider the paradox that it is the absolute immobility of the text, "reinvented" word for word, that creates its mobility in Jorge

Luis Borges' fiction "Pierre Menard, Author of the Quixote." Works are transformed through changes of genre or language, to be sure; but even when the texts remain fixed, their readers give them different or inverted meaning.

The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement, initiated by F.T. Marinetti in 1909, exercised a particularly noteworthy influence. The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty-eight countries. While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia, it treats Futurism as an international, multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth-century avant-garde. Hundreds of artists, who in some phase in their career absorbed Futurist ideas and stylistic devices, are presented in the

context of their national traditions, their international connections and the media in which they were predominantly active. The handbook acts as a kind of multi-disciplinary, geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact.

The Book of Revelation has always been a mysterious and intriguing book, describing in symbolic terms the confrontation between the Disciples of Christ and the powers - political and supernatural - that hold sway over the current age. Fundamentalists have been attracted to the book and have sought to decipher its strange symbols as coded prophecy of future events. But as Pablo Richard shows in *Apocalypse*, the most powerful readings of the Book of Revelation are through the eyes of the oppressed, living out their Christian faith in the context of the modern empire. It is they who identify most strongly with Revelation's ultimate message of hope and life in the midst of

death and persecution. Apocalypse first provides a general introduction to the reading of Revelation by examining three keys for its understanding: the historical, the sociological, and the literary-structural. The book then goes on to explore the whole of the Book of Revelation, following the book's own structure. Each section provides a line-by-line reading of the text, establishing the literal meaning before applying the interpretive keys already established.

This groundbreaking study examines how modern Colombian literature—from Gabriel García Márquez to Juan Gabriel Vásquez—reflects one of the world's most tumultuous entrances into globalization. While these literary icons, one canonical, the other emergent, bookend Colombia's fall and rise on the world stage, the period between the two was inordinately violent, spanning the Colombian urban novel's evolution into narco-literature. Marking Colombia's cultural and literary manifestations as threefold, this book explores García Márquez's retreat to a

rural romanticism that paradoxically made him a global literary icon; the country's violent end to the twentieth century when its largest economic export was narcotics; and the contemporary period in which a new major author has emerged to create a "literature of national reconstitution." Harkening back to the Regeneration movement and extending through the early twenty-first century, this book analyzes the cultural implications of Colombia's relationship to the wider world.

"The book contains a comprehensive introduction that describes Spanish theater in its Golden Age, what is known of the author's life and times, contemporary stagings, and an extensive analysis of the text. The story unfolds as a cross between a jilted-lover scenario and a whodunit murder mystery. A woman laments her departed lover, a sister cross-dresses to avenge her murdered brother, a man duels with his cousin over lost honor, and before long, the dead man turns up as a ghost, or a bar maid, or a female peddler. Questions about identity abound in the witty *El muerto disimulado* / Presumed Dead. The transnational nature of this clever comedy complicates meanings, often producing bilingual wordplay that underscores the self-conscious, gender-bending, ludic character of the play and of theater in general."--

There has been a dramatic increase in the amount of narrative work published by Chicana and Latina authors in the past 5 to 10 years. Nonetheless, there has been

little attempt to catalog this material. This reference provides convenient access to all forms of narrative written by Chicana and Latina authors from the early 1940s through 2002. In doing so, it helps users locate these works and surveys the growth of this vast body of literature. The volume cites more than 2,750 short stories, novels, novel excerpts, and autobiographies written by some 600 Mexican American, Puerto Rican, Cuban American, Dominican American, and Nuyorican women authors. These citations are grouped in five indexes: an author/title index, title/author index, anthology index, novel index, and autobiography index. Short annotations are provided for the anthologies, novels, and autobiographies. Thus the user who knows the title of a work can discover the author, the other works the author has written, and the anthologies in which the author's shorter pieces have been reprinted, along with information about particular works.

Donizetti's Opera Lucrezia Borgia John Benjamins Publishing

Saint John's poetry of love and joy describes the soul's passage through dark night to final illumination in mystical union

with Absolute Being. The allegory the poet uses is that of earthly love, and the poems are strikingly effective on the immediate level of personal experience, quite apart from their theological meanings. Many critics regard the work of Saint John of the Cross (1542-91), the 16th-century mystic, to be among the finest poetry Spain has produced. This bilingual edition, the first in modern English, was originally published in hard cover in 1968 by the Indiana University Press. Most of these poems were written during a period of nine months, in 1577-78, when Saint John (San Juan de la Cruz) was imprisoned and tortured in the dungeon of a small Carmelite monastery in Toledo, and their recurrent motifs are both metaphysical and deeply personal.

"Given its reliance on a wide variety of linguistic elements, including sound effects and highly figurative language, poetry lacks a single formula for translation. Thus, this genre presents a significant challenge to translators, who must often choose which of these elements to preserve at the expense of

others, and produces considerable variety among translations of the same work. This paper examines this complex process of poetry translation and particularly its impact on meaning by comparing the translations of Kieran Kavanaugh and Otilio Rodriguez (1964), Willis Barnstone (1972), and Loren G. Smith (2005) of sixteenth-century Spanish mystic San Juan de la Cruz' *Llama de amor viva*. Using these translators' approaches to meter and rhyme scheme, original metaphors, Spanish grammatical constructions lacking an equivalent in English, and individual problematic words as criteria of evaluation, this study concludes that although no translation entirely preserves the meaning of San Juan's original work, each effectively transmits part of this meaning through at least one of the above areas while simultaneously developing individual shades of meaning through others, thus emerging as both translation and independent poem" --Abstract.

Bibliographic Guide to Chicana and Latina Narrative Routledge

In this expertly crafted, richly detailed guide, Raymond Leslie Williams explores the cultural, political, and historical events

that have shaped the Latin American and Caribbean novel since the end of World War II. In addition to works originally composed in English, Williams covers novels written in Spanish, Portuguese, French, Dutch, and Haitian Creole, and traces the profound influence of modernization, revolution, and democratization on the writing of this era. Beginning in 1945, Williams introduces major trends by region, including the Caribbean and U.S. Latino novel, the Mexican and Central American novel, the Andean novel, the Southern Cone novel, and the novel of Brazil. He discusses the rise of the modernist novel in the 1940s, led by Jorge Luis Borges's reaffirmation of the right of invention, and covers the advent of the postmodern generation of the 1990s in Brazil, the Generation of the "Crack" in Mexico, and the McOndo generation in other parts of Latin America. An alphabetical guide offers biographies of authors, coverage of major topics, and brief introductions to individual novels. It also addresses such areas as women's writing, Afro-Latin American writing, and magic realism. The guide's final section includes an annotated bibliography of

introductory studies on the Latin American and Caribbean novel, national literary traditions, and the work of individual authors. From early attempts to synthesize postcolonial concerns with modernist aesthetics to the current focus on urban violence and globalization, *The Columbia Guide to the Latin American Novel Since 1945* presents a comprehensive, accessible portrait of a thoroughly diverse and complex branch of world literature.

Master storyteller and literary stylist Bernard Malamud is considered one of the top three most influential postwar American Jewish writers, having established a voice and a presence for other authors in the literary canon. Along with Philip Roth and Saul Bellow, Malamud

brought to life a decidedly American Jewish protagonist and a newly emergent voice that came to define American letters and that has continued to influence writers for over half a century. This collection is a tribute to Malamud in honor of the hundredth anniversary of his birth. Literary critic Harold Bloom suggests that "Malamud is perhaps the purest storyteller since Leskov," the nineteenth-century Russian novelist and satirist. Novelist Cynthia Ozick, in a tribute to Malamud, described him as "the very writer who had brought into being a new American idiom of his own idiosyncratic invention." Unlike other collections devoted to Malamud, this collection is international in scope, compiling diverse essays from the United States, France, Germany, Greece, and Spain, and demonstrating the wide range of scholarship and approaches to Bernard Malamud's fiction. The essays show the breadth and depth of this masterful

craftsman and explore through his short fiction and his novels such topics as the Malamudian protagonist's relation to the urban/natural space; Malamud's approach to death; race and ethnicity; the Malamudian hero as modern schlemiel; and the role of fantasy in Malamud's fiction. Bernard Malamud is a comprehensive collection that celebrates a voice that helped to shape the last fifty years of literary works. Readers of American literary criticism and Jewish studies alike will appreciate this collection. **After the Ottomans** Springer Nature This book throws light on the relevance and role played by translations and translators at times of serious discontinuity throughout history. Topics explored by scholars from different continents and disciplines include war, the disintegration of transnational polities, health disasters and revolutions - be they

political, social, cultural and/or technological. Surprisingly little is known, for example, about the role that translated constitutions had in instigating and in shaping political crises at both a local and global level, and how these events had an effect on translations themselves. Similarly, the role that translations played as instruments for either building or undermining empires, and the extent to which interpreters could ease or hamper negotiations and foster new national identities has not been adequately acknowledged. This book addresses all these issues, among others, through twelve studies focused not just on texts but also on instances of verbal and non-verbal communications in a range of languages from around the world. This interdisciplinary work will engage scholars working in fields such as Translation Studies, History, Modern Languages, English, Law, Politics and Social Studies.
