"There are two things that men should never weary of, goodness and humility; we get none too much of them in this rough world among cold, proud people. - Robert Louis Stevenson, Kidnapped Kidnapped (1886) by Robert Louis Stevenson is a coming-of-age novel that recounts the adventures of a teenager named David Balfour during the Jacobite Rebellions in 18th century Scotland. Following his father's death, David reaches out to an uncle, who betrays his nephew and sells him to a slave-trader headed for America. David's rescue from the slave ship by a Jacobite refugee starts David on a series of adventures that ensure his passage into manhood.

The neem tree, one of the most promising of all plants, may eventually benefit every person on the planet. Probably no other plant yields as many varied products or has as many exploitable by-products. Indeed, as foreseen by some scientists, this tree may usher in a new era in pest control; provide millions with inexpensive medicines; cut the rate of population growth; and perhaps even reduce erosion, deforestation, and the excessive temperature of an overheated globe. On the other hand, although the enthusiasm may be justified, it is largely founded on exploratory investigations and empirical and anecdotal evidence. The purpose of this book is to marshal the various facts about this little-known species, to help illuminate its future promise, and to speed realization of its potential.
