THE RESPIRATORY SYSTEM

Speedy Publishing LLC

This third entry in the Jumpstarts series focuses on Science topics for upper elementary and middle school students. Maintaining the 99 Jumpstarts format of the two previous books, 99 Jumpstarts for Kids Science Research is divided into ten broad topical sections. Each topic is arranged in alphabetical order under its section. Topics include Body Parts, Energy, Animals, Heavens, Weather, Matter, Medicine, Technology, Environment, and Geology. This

pathfinder approach aides students in the research process, helping them define important terms, offer beginning questions to help narrow their topic, furnish source ideas and some fun activities to explore each topic. Grades 4-8.

SARS, MERS AND OTHER VIRAL LUNG INFECTIONS

Crabtree Publishing Company

Packed with amazing facts and eye-grabbing images, Your Breathtaking Lungs and Rocking Respiratory System takes a different approach to teaching the reader about the lungs and how and why we breathe. Every spread opens with an amazing science fact about the human body - for example - An average person breathes around 8,000-9,000 litres of air in a day! - then goes on to explain how scientifically this is possible. By exploring

these attention-grabbing sections, readers will build up their understanding of how the body's lungs and respiratory system work. Detailed diagrams and amazing images illustrate the lively, factual text. Your Breathtaking Lungs and Rocking Respiratory System looks at the structure of the lungs and the process of breathing. What happens when we breathe in? What actually is a sneeze? Why is breathing in harder than breathing out? Why does talking depend on breathing? Answers to all these questions and many more can be found in this fascinating title. The Your Brilliant Body series includes: 'See for Yourself' features - practical activities that help readers understand key ideas Amazing fact panels to intrigue the reader Advice on keeping in good shape, and warnings about common health problems.

1,000 Amazing Human Body Facts Inside My Body

A poetic and visually breathtaking look at what happens inside your body when you breathe. What happens when you breathe? In this beautiful book, breath—the very air, stardust, the grand molecules of the universe—blossoms in the upside-down tree in your rising chest, animating and enlivening you. And when you breathe out, you send your song out into the world.

THE RESPIRATORY SYSTEM

Presents an overview of the respiratory system, including key parts of the system and their jobs, how to keep the system healthy, and fun facts.

DK SUPER READERS LEVEL 2 SNIFFLES, SNEEZES, HICCUPS, AND COUGHS

Capstone

It's hard to believe that common cold and flu symptoms, which are so disgusting, can actually be so useful! The science of why we sneeze, cough, or throw up is enthralling and necessary to understanding why our bodies react the way they do when we're not feeling well. This informative book details why and how the body performs such a gross reflex, and whether it means a person is sick or not. Filled with resources and self-care tips, this is a great guide for young readers to understand the mechanics of the

respiratory and digestive systems.

ELEMENTARY ANATOMY

Scholastic Inc.

How do you breathe in? How do you breathe out? Let's explore the facts in this educational book. The book comes with facts and other amazing details that are highlighted with pictures. The use of pictures is a welcome addition to this book because children learn best if there's fun involved! Go ahead and grab a copy today!

The Big Book of Questions (Human Anatomy Edition) | Science Book Junior Scholars Edition | Children's Biology Books Teacher Created Materials

This title teaches readers about the respiratory system. Readers will learn that the respiratory system and circulatory system are best buds, and about how oxygen moves from the air, to the lungs, into the blood and to cells throughout the body. Aligned to Common Core Standards and correlated to state standards. Abdo Kids Jumbo is an imprint of Abdo Kids, a division of ABDO.

99 Jumpstarts for Kids' Science Research Penguin

What is poo made of? Why is blood red? And what exactly is a bellybutton for? Discover the science for yourself with this fun, quirky book that tackles the questions other books are afraid to ask!

BREATHE IN, BREATHE OUT

Speedy Publishing LLC

How do we breathe and why do we need oxygen? Your lungs work hard to keep oxygen flowing through your blood. This book explains how the respiratory system functions to take in the air we need to live.

MY LUNGS

Springer Science & Business Media

Learn all about the incredible things your heart, lungs, arteries, and circulatory system do and how to keep them healthy and strong! With vibrant images and informational text in conjunction with supportive diagrams and stimulating facts, readers are introduced to basic biology and vocabulary.
