John Calvin: Selections from His Writings A&C Black

This book probes beneath modern scientific and sentimental concepts of the heart to discover its past mysteries. Historical hearts evidenced essential aspects of human existence that still endure in modern thought and experience of political community, psychological mentality, and physical vitality. Marjorie O'Rourke Boyle revises ordinary assumptions about the heart with original interdisciplinary research on religious beliefs and theological and philosophical ideas. Her book uncovers the thought of Aristotle, William Harvey, Augustine, Thomas Aquinas, and John Calvin as it relates to the heart. It analyzes Augustine's outlaw heart in cultural deviance from biblical law; Aquinas's problematic argument for the permanence of the natural law in the heart; and Calvin's advocacy for an affective heart re-created by the Spirit from its fallen nature. This book of cultural anatomies is the climax of her dozen years of publications on the heart.

The restoration of creation offers the perspective through which Calvin's heritage is analyzed and made fruitful for contemporary Reformed theology. Restoration through Redemption shows that Calvin's theology hinges on Christology, but extends to the whole creation.

The lives of Augustine, Luther, and Calvin reveal the glory and grace of a perfect God in the imperfect lives of his faithful servants.

Calvin's Institutes of the Christian Religion Calvin and Augustine Why do two groups of Christians read the same verses of Scripture and reach radically opposing views of the Sovereignty of God and the Responsibility of Man? Starting with what Augustine called the very beginning of our faith, the system of Calvinism is explained from its foundation in the attributes of Omniscience, Omnipotence and Perfection in God, up through the Perseverance of the Saints. This system of belief, supported by numerous quotes from Augustine, Luther, Calvin, R. C. Sproul, James White, and John Piper, trusts in the absolute sovereignty of God. This is not simply an explanation of what Calvinism teaches, instead this is an explanation of WHY Calvinists all reach the same conclusions of what Scripture teaches. This systematic approach using the writings of Calvin, and supporting evidence from current Calvinists, will help non-Calvinists as well as life-long Calvinists better understand exactly what Calvinism teaches. C. S. Lewis understood Calvinism better than most Calvinists. Beginning with the same attributes of God as they relate to the creation and fall of man, Lewis systematically addressed the foundational reasoning used by Calvin to develop his theology. Finding Orthodoxy is as simple as understanding these two opposing systems of belief. This presentation of what Calvin and C. S. Lewis taught, breaks down a very complex issue into a series of steps that interlock in a way that allows for an understanding of Sovereignty, Responsibility, Election, Predestination, and Salvation. Most books describe the two protestant views of theology that came out of the Reformation as Calvinism and Arminianism. After the death of John Calvin and Jacobus Arminius, the followers of Arminius issued a document disagreeing with five of the points of Classic Calvinism. The Synod of Dort was convened to counter these five Arminian points, and issued the now familiar five TULIP points of Calvinism. Calvin and C. S. Lewis: Solving the Riddle of the Reformation (C&C) is not another simple rehash of these five points. Instead of beginning with Total Depravity, C&C examines the foundation that Total Depravity and the TULIP points are built upon. This starting point is not the authors opinion, instead, the starting point is what Augustine (called the father of Reformed Theology) and Calvin state to be the very beginning of our faith. C&C methodically lays out the complete system of Calvinism, using the starting point of Augustine and Calvin. The TULIP points are shown to be the top of the iceberg in the complete systematic theology of Calvin. When the complete system of Calvinism is explained, the futility of simply comparing the different views on the TULIP points is readily apparent. Tracing Calvinism to its first premise, the very foundation that Augustine, Calvin, and R.C. Sproul agree on, sets up the riddle of the reformation. After extensive documentation of Calvin's premises, C&C explains the how C. S. Lewis took the same starting point Calvin used and constructed a different systematic theology. The explanation of how Calvin and C. S. Lewis began with the same premises, yet arrived at different conclusions, solves the riddle of the reformation: Why two groups of Christians that read the same verses of Scripture reach radically opposing views of the sovereignty of God and the responsibility of man. C&C shows that the only definitive way to know which system is Orthodox -- to solve the riddle -- is to dig all the way down and examine this foundation. C&C is exhaustively researched, extensively documented, charitably presented, intellectually challenging, and gives excellent answers on the Sovereignty of God and the role of

man in salvation.

"Wilson's book is ground-breaking and thought-provoking, and indispensable for every serious student of hugely influential core aspects of Augustine's thought." -- Professor Karla Pollman, University of Bristol on Dr. Ken Wilson's "Augustine's Conversion". This book summarizes Dr. Wilson's "ground-breaking" doctoral thesis at the University of Oxford which was published by Mohr Siebeck in 2018 as "Augustine's Conversion from Traditional Free Choice to 'Non-free Free Will': A Comprehensive Methodology". With a new audience in mind, Dr. Wilson presents his extensive research on free will in ancient and early Christian thought in a shorter and more accessible format with translations of the ancient and modern foreign languages in plain English. Dr. Wilson first provides readers with essential background information on free will in the ancient philosophies and religions of Stoicism, Gnosticism, Neoplatonism, and Manichaeism. He then guides his readers through the writings of the earliest Christian authors who wrote on free will. Finally, Dr. Wilson explores a curious split between St. Augustine's early and later writings and shows how the ideas presented in Augustine's later writings became the foundation for modern Calvinist (Reformed) theology, also known as Augustinian-Calvinism.

Calvin's Calvinism A Translation of 1. The Eternal Predestination of God 2. The Secret Providence of God By John Calvin and translated by Henry Cole, D.D. This unique book constitutes the only original writings of John Calvin devoted "expressly, exclusively, and purposely" to the capital "Calvinistic" doctrines of The Eternal Predestination of God, and The Secret Providence of God. They are Calvin's own testimony and real mind concerning the doctrines of God's electing, predestinating and sovereign grace, constitute his own exposition and expression of faith, and beautifully display the spirit in which he held and taught these great Biblical truths. These important treatises were published in 1552 and 1558 respectively and lay locked in the original language of Calvin's day until translated by Henry Cole, D. D., 300 years later in 1856 under the present title of Calvin's Calvinism. The first treatise on Eternal Predestination consists of 131 pages; the second on Secret Providence covers 127 pages, the later embracing arguments (Calumnies) against Calvin and his refutation of each particular point. Illuminating "Dedicatory Prefaces" and prefaces by the translator add significance to the main content of this important volume.

The Place of Augustine in Calvin's Concept of Righteousness Baker Academic

John Calvin was a principal figure in the development of the system of Christian theology later called Calvinism, including its doctrines of predestination and of God's absolute sovereignty in the salvation of the human soul from death and eternal damnation. Calvinist doctrines were influenced by and elaborated upon the Augustinian and other Christian traditions. Various Congregational, Reformed and Presbyterian churches, which look to Calvin as the chief expositor of their beliefs, have spread throughout the world. Calvin produced commentaries on most of the books of the Bible. He also wrote many letters and treatises.

Calvin provided many of the foundational documents for reformed churches, including documents on the catechism, the liturgy, and church governance. He also produced several confessions of faith in order to unite the churches.

Shepherd's Notes- Christian Classics Series is designed to give readers a quick, step by step overview of some of the enduring treasures of the Christian faith. They are designed to be used along side the classic itself- either in individual study or in a study group. The faithful of all generations have found spiritual nourishment in the Scriptures and in the works of Christians of earlier generations. Martin Luther and John Calvin would not have become who they were apart from their reading Augustine. God used the writings of Martin Luther to move John Wesley from a religion of dead works to an experience at Aldersgate in which his "heart was strangely warmed." Shepherd's Notes will give pastors, laypersons, and students access to some of the treasures of Christian faith.

Cultural Anatomies of the Heart in Aristotle, Augustine, Aquinas, Calvin, and Harvey Baker Books

Translation by Count Valerian Krasinski Introduction by Joe

Nickell[T]he desire for relics is never without superstition, and what is worse, it is usually the parent of idolatry. - John Calvin For much of its history the Catholic Church has countenanced the veneration of relics-objects or even bones associated with a saint, or with Jesus Christ himself, that were deemed to have healing power or some beneficial spiritual effect on believers. Despite criticism from some skeptical observers (including even St. Augustine), the belief in relics has continued to this day. In the fifteenth and sixteenth centuries, when the Protestant Reformation launched a wholesale attack on Church practices, the use of relics was included among the superstitions that were deplored as a corruption of the Christian faith. John Calvin, one of the chief architects of the Reformation, published this thorough critique of relic worship in 1543. He runs through the gamut of objects that are venerated in various churches. From the alleged swaddling clothes of Jesus to pieces from the crown of thorns, Calvin pointedly shows how little proof there is that these objects are real and how obviously they are used as a means of taking advantage of the gullible. He is especially scathing and witty on the then-widespread belief in the authenticity of fragments of the so-called True Cross. Calvin remarks that if one were to accept all such claims, one would have enough wood to fill up a ship's cargo hold! This edition of Calvin's classic treatise includes an interesting introduction by expert investigator Joe Nickell, author of *Relics of the Christ*, *Inquest on the Shroud of Turin*, and *Looking for a Miracle*, among many other books (see www.joenickell.com). Nickell presents a brief biography of Calvin and brings the story of investigating relics up to date by explaining how sophisticated modern techniques are helping to unravel the mysteries surrounding such famous relics as the Shroud of Turin and many other similar venerated objects.

An exploration of the consequences of various ideas in the thought of John Calvin, and the influence of his ideas on later theologians. The emphasis is on philosophical ideas within Calvin's theology, dealing in turn with epistemological, metaphysical, and ethical issues. Helm provides a fresh perspective on Calvin's theological context and legacy.

For nearly five hundred years the Doctrine of Predestination as propounded by John Calvin has held sway over the western Christian church and its theology. Many of the major protestant denominations are predominantly Calvinistic. Is the Doctrine of Predestination Scriptural? Do the Five Points of Calvinism have sound Scriptural support? Author Jos Salins carefully examines the Five Points of Calvinism and exposes the errors in these doctrines and the fact that none of them are supported by Scripture as assumed by Calvinists. He brings a new understanding of Romans chapter 9 - the chapter which was fundamental to the formulation of the Doctrine of Predestination by John Calvin and before him his mentor, St. Augustine of Hippo. This book is compelling, thoroughly Scriptural and scholarly, yet written in a style that is readable and understandable by anyone, and does not necessarily require of the reader a theological background as a prerequisite. Its content will have a tremendous impact on the Calvinistic world and on Calvinism as a whole and will shake it to its very foundations, with far reaching implications. This is a must read for every thinking Christian.
