THE WINNER EFFECT THE NEUROSCIENCE OF SUCCESS AND FAILURE

The Winner Effect The Neuroscience There is something too simple about The Winner Effect, something about the colloquial tone covering some of neuroscience's most in-depth and detailed fMRI-fuelled discoveries that makes me wonder: what, exactly, am I learning here? The right prefrontal cortex has a predilection for a quite different chemical messenger than the dopamine of its gung-ho partner - its favoured neurochemical ... The Winner Effect: The Neuroscience of Success and Failure ... The "winner effect" is a term used in biology to describe how an animal that has won a few fights against weak opponents is much more likely to win later bouts against stronger

contenders. As Ian Robertson reveals, it applies to humans, too. Success changes the chemistry of the brain, ... Amazon.com: The Winner Effect: The Neuroscience of Success ... Ian Robertson is a clinical psychologist and neuroscientist with a unique ability to apply his research to the pressures of everyday life. His previous books, *Mind Sculpture*, *The Mind's Eye* and *The Winner Effect*, have been translated into many languages and he is widely recognised as one of the world's leading researchers in neuropsychology. THE WINNER EFFECT.COM What does it really take to be a winner? Neuropsychology expert Ian Robertson seeks answers in his new book. He weaves together neuroscience findings and personal stories to look closely at how winning (or losing) can physically change the brain and affect the psyche, with long-lasting and self-reinforcing effects.
